Annual Highlights

- During the year, the firm supported clients and continued to execute on strategic priorities, which contributed to the firm's third highest annual net revenues of \$46.25 billion.
- Global Banking & Markets generated net revenues of \$30.00 billion, driven by strong performances in both Fixed Income, Currency and Commodities (FICC), which included the second highest net revenues in FICC financing, and Equities, which included record net revenues in Equities financing.
- The firm ranked #1 in worldwide announced and completed mergers and acquisitions, equity and equity-related offerings, and common stock offerings for the year.²
- Asset & Wealth Management generated net revenues of \$13.88 billion, including record Management and other fees and record Private banking and lending net revenues.
- Assets under supervision³ increased 10% during the year to a record \$2.81 trillion.

Net Revenues

Full Year

Net revenues were \$46.25 billion for 2023, 2% lower compared with 2022, reflecting lower net revenues in Global Banking & Markets, largely offset by higher net revenues in Platform Solutions and Asset & Wealth Management.

Fourth Quarter

Net revenues were \$11.32 billion for the fourth quarter of 2023, 7% higher than the fourth quarter of 2022 and 4% lower than the third quarter of 2023. The increase compared with the fourth quarter of 2022 reflected higher net revenues in Asset & Wealth Management and Platform Solutions, partially offset by lower net revenues in Global Banking & Markets.

2023 Net Revenues

4Q23 Net Revenues

\$11.32 billion

-Global Banking & Markets-

Full Year

Net revenues in Global Banking & Markets were \$30.00 billion for 2023, 8% lower than a strong 2022.

Investment banking fees were \$6.22 billion, 16% lower than 2022, due to significantly lower net revenues in Advisory, reflecting a significant decline in industry-wide completed mergers and acquisitions transactions, and slightly lower net revenues in Debt underwriting, partially offset by significantly higher net revenues in Equity underwriting, primarily reflecting increased activity from secondary offerings. The firm's Investment banking fees backlog³ was lower compared with the end of 2022.

Net revenues in FICC were \$12.06 billion, 18% lower than a strong 2022, reflecting significantly lower net revenues in FICC intermediation, driven by significantly lower net revenues in currencies and commodities and slightly lower net revenues in interest rate products, partially offset by significantly higher net revenues in mortgages and higher net revenues in credit products. Net revenues in FICC financing were slightly lower.

Net revenues in Equities were \$11.55 billion, 5% higher than 2022, due to higher net revenues in Equities financing (reflecting significantly higher net revenues in prime financing), partially offset by slightly lower net revenues in Equities intermediation (reflecting lower net revenues in cash products).

Net revenues in Other were \$171 million compared with \$(537) million for 2022, reflecting the absence of net mark-downs on acquisition financing activities included in the prior year and net gains from direct investments compared with net losses in the prior year. These improvements were partially offset by significantly higher net losses on hedges.

Fourth Quarter

Net revenues in Global Banking & Markets were \$6.35 billion for the fourth quarter of 2023, 3% lower than the fourth quarter of 2022 and 21% lower than the third quarter of 2023.

Investment banking fees were \$1.65 billion, 12% lower than the fourth quarter of 2022, due to significantly lower net revenues in Advisory, reflecting a decline in industry-wide completed mergers and acquisitions volumes, partially offset by significantly higher net revenues in Debt underwriting, primarily driven by leveraged finance activity, and higher net revenues in Equity underwriting, primarily from secondary offerings. The firm's Investment banking fees backlog³ was higher compared with the end of the third quarter of 2023.

Net revenues in FICC were \$2.03 billion, 24% lower than the fourth quarter of 2022, reflecting significantly lower net revenues in FICC intermediation, driven by significantly lower net revenues in interest rate products and currencies and lower net revenues in commodities and credit products, partially offset by higher net revenues in mortgages. Net revenues in FICC financing were slightly higher.

Net revenues in Equities were \$2.61 billion, 26% higher than the fourth quarter of 2022, due to significantly higher net revenues in Equities intermediation (reflecting significantly higher net revenues in derivatives) and higher net revenues in Equities financing (reflecting higher net revenues from prime financing).

Net revenues in Other were \$61 million compared with \$(114) million for the fourth quarter of 2022, primarily reflecting lower net losses on hedges.

-Asset & Wealth Management-

Full Year

Net revenues in Asset & Wealth Management were \$13.88 billion for 2023, 4% higher than 2022, reflecting higher Management and other fees and higher net revenues in Debt investments and Private banking and lending, partially offset by significantly lower net revenues in Equity investments and significantly lower Incentive fees.

The increase in Management and other fees primarily reflected the impact of higher average assets under supervision, including the impact of acquiring NN Investment Partners. The increase in Debt investments net revenues reflected significantly lower net mark-downs compared with the prior year (despite a challenging environment for real estate investments in the current year), partially offset by lower net interest income due to a reduction in the debt investments balance sheet. The increase in Private banking and lending net revenues primarily reflected higher deposit spreads and balances, partially offset by the impact of the sale of substantially all of the Marcus loans portfolio in the year. The decrease in Equity investments reflected significantly lower net gains from investments in private equities, primarily due to net losses from real estate investments, partially offset by significantly lower net losses from investments in public equities. The decrease in Incentive fees was driven by more significant harvesting in the prior year.

Fourth Quarter

Net revenues in Asset & Wealth Management were \$4.39 billion for the fourth quarter of 2023, 23% higher than the fourth quarter of 2022 and 36% higher than the third quarter of 2023. The increase compared with the fourth quarter of 2022 primarily reflected significantly higher net revenues in Equity investments and Debt investments and higher Management and other fees, partially offset by lower net revenues in Private banking and lending.

The increase in Equity investments net revenues reflected net gains from investments in public equities compared with significant net losses in the prior year period. Net gains from investments in private equities were slightly higher, due to a gain of \$349 million related to the sale of Personal Financial Management, partially offset by significantly lower net gains from real estate investments. The increase in Management and other fees primarily reflected the impact of higher average assets under supervision. The increase in Debt investments net revenues reflected net markups compared with net mark-downs in the prior year period, partially offset by lower net interest income due to a reduction in the debt investments balance sheet. The decrease in Private banking and lending net revenues primarily reflected the impact of the sale of substantially all of the Marcus loans portfolio earlier in the year.

-Platform Solutions-

Full Year

Net revenues in Platform Solutions were \$2.38 billion for 2023, 58% higher than 2022, reflecting significantly higher net revenues in Consumer platforms.

The increase in Consumer platforms net revenues primarily reflected significant growth in average credit card balances. Transaction banking and other net revenues were lower, reflecting lower deposit spreads.

Fourth Quarter

Net revenues in Platform Solutions were \$577 million for the fourth quarter of 2023, 12% higher than the fourth quarter of 2022 and essentially unchanged compared with the third quarter of 2023. The increase compared with the fourth quarter of 2022 reflected higher net revenues in Consumer platforms.

The increase in Consumer platforms net revenues primarily reflected significant growth in average credit card balances, partially offset by mark-downs related to the GreenSky held for sale loan portfolio. Transaction banking and other net revenues were lower, reflecting lower average deposit balances.

Provision for Credit Losses

Full Year

Provision for credit losses was \$1.03 billion for 2023, compared with \$2.72 billion for 2022. Provisions for 2023 reflected net provisions related to both the credit card portfolio (primarily driven by net charge-offs) and wholesale loans (primarily driven by impairments). These net provisions were partially offset by reserve reductions of \$637 million related to the transfer of the GreenSky loan portfolio to held for sale and \$442 million related to the sale of substantially all of the Marcus loans portfolio. Provisions for 2022 primarily reflected growth in the credit card portfolio, the impact of macroeconomic and geopolitical concerns and net charge-offs.

Fourth Quarter

Provision for credit losses was \$577 million for the fourth quarter of 2023, compared with \$972 million for the fourth quarter of 2022 and \$7 million for the third quarter of 2023. Provisions for the fourth quarter of 2023 reflected net provisions related to both the credit card portfolio (primarily driven by net charge-offs and seasonal portfolio growth, partially offset by a reserve reduction of \$160 million related to the transfer of the General Motors card portfolio to held for sale) and wholesale loans (driven by impairments). Provisions for the fourth quarter of 2022 reflected provisions related to the credit card and point-of-sale loan portfolios, primarily from growth and net charge-offs, and impairments on wholesale loans.

Operating Expenses

Full Year

Operating expenses were \$34.49 billion for 2023, 11% higher than 2022. The firm's efficiency ratio³ was 74.6% for 2023, compared with 65.8% for 2022.

The increase in operating expenses compared with 2022 primarily reflected significantly higher impairments related to consolidated real estate investments (\$1.46 billion recognized in 2023), a write-down of intangibles of \$506 million related to GreenSky and an impairment of goodwill of \$504 million related to Consumer platforms (all in depreciation and amortization), as well as the FDIC special assessment fee of \$529 million (in other expenses).

Net provisions for litigation and regulatory proceedings were \$115 million for 2023 compared with \$576 million for 2022.

Headcount decreased 7% during 2023, primarily reflecting a headcount reduction initiative during the year.

Fourth Quarter

Operating expenses were \$8.49 billion for the fourth quarter of 2023, 5% higher than the fourth quarter of 2022 and 6% lower than the third quarter of 2023.

The increase in operating expenses compared with the fourth quarter of 2022 primarily reflected the FDIC special assessment fee of \$529 million (in other expenses).

Provision for Taxes

The effective income tax rate for 2023 was 20.7%, down from 23.3% for the first nine months of 2023, primarily due to an increase in permanent tax benefits and changes in the geographic mix of earnings. The 2023 effective income tax rate increased from 16.5% for 2022, primarily resulting from an increase in taxes on non-U.S. earnings in 2023, partially offset by an increase in the impact of permanent tax benefits for 2023 compared with 2022.

-Cautionary Note Regarding Forward-Looking Statements-

This press release contains "forward-looking statements" within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements are not historical facts or statements of current conditions, but instead represent only the firm's beliefs regarding future events, many of which, by their nature, are inherently uncertain and outside of the firm's control. It is possible that the firm's actual results, financial condition and liquidity may differ, possibly materially, from the anticipated results, financial condition and liquidity in these forward-looking statements. For information about some of the risks and important factors that could affect the firm's future results, financial condition and liquidity, see "Risk Factors" in Part I, Item 1A of the firm's Annual Report on Form 10-K for the year ended December 31, 2022.

Information regarding the firm's assets under supervision, capital ratios, risk-weighted assets, supplementary leverage ratio, balance sheet data, global core liquid assets and VaR consists of preliminary estimates. These estimates are forward-looking statements and are subject to change, possibly materially, as the firm completes its financial statements.

Statements about the firm's Investment banking fees backlog and future results also may constitute forward-looking statements. Such statements are subject to the risk that transactions may be modified or may not be completed at all, and related net revenues may not be realized or may be materially less than expected. Important factors that could have such a result include, for underwriting transactions, a decline or weakness in general economic conditions, an outbreak or worsening of hostilities, including the escalation or continuation of the war between Russia and Ukraine or an escalation of the war in Gaza, volatility in the securities markets or an adverse development with respect to the issuer of the securities and, for financial advisory transactions, a decline in the securities markets, an inability to obtain adequate financing, an adverse development with respect to a party to the transaction or a failure to obtain a required regulatory approval. For information about other important factors that could adversely affect the firm's Investment banking fees, see "Risk Factors" in Part I, Item 1A of the firm's Annual Report on Form 10-K for the year ended December 31, 2022.

Footnotes

1. ROE is calculated by dividing net earnings (or annualized net earnings for annualized ROE) applicable to common shareholders by average monthly common shareholders' equity. ROTE is calculated by dividing net earnings (or annualized net earnings for annualized ROTE) applicable to common shareholders by average monthly tangible common shareholders' equity (tangible common shareholders' equity is calculated as total shareholders' equity less preferred stock, goodwill and identifiable intangible assets). Management believes that ROTE is meaningful because it measures the performance of businesses consistently, whether they were acquired or developed internally, and that tangible common shareholders' equity is meaningful because it is a measure that the firm and investors use to assess capital adequacy. ROTE and tangible common shareholders' equity are non-GAAP measures and may not be comparable to similar non-GAAP measures used by other companies.

The table below presents a reconciliation of average common shareholders' equity to average tangible common shareholders' equity:

Represents a preliminary estimate for the fourth quarter of 2023 for the firm's assets under supervision, capital ratios, risk-weighted assets, supplementary leverage ratio, balance sheet data, global core liquid assets and VaR. These may be revised in the firm's Annual Report on Form 10-K for the year ended December 31, 2023.

4. During the first quarter of 2023, the firm added the currency exposure on certain debt and equity positions to VaR and removed certain debt and equity positions (and related hedges) from VaR as management believes that the risk of these positions is more appropriately measured and monitored using 10% sensitivity measures. Prior year amounts for average daily VaR have been conformed to the current presentation. The impact of such changes was not material. See "Risk Management – Market Risk Management" in Part I, Item 2 "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the firm's Quarterly Report on Form 10-Q for the period ended September 30, 2023 for further information about VaR and 10% sensitivity measures.
