## 1. Product Description

LUKB **Autocallable** Multi Barrier Reverse Convertibles with Conditional Coupon offer Investors the opportunity to take advantage from sideways or slightly rising, in each case above the **Barrier Level** and above the Coupon Trigger Level but below the Autocall Trigger Level, movements of the Underlyings. This Product pays a monthly Conditional Coupon of 0.55% (6.60% p.a.) and offers a risk buffer until the Barrier Level at 50.00%, both depending on the Worst Performing Underlying. This Product can be automatically called for Early Redemption - monthly, first time after three months - at 100.00% of the Nominal, depending on the level of the Worst Performing Underlying on any of the Autocall Observation Dates.

### Selling Restrictions

No action has been taken by the Issuer to permit a public offering of these Products in any jurisdiction other than Switzerland.

The offering, sale and/or distribution of these Products in certain jurisdictions may be restricted by applicable law. Persons, who obtain possession of the Product

Documentation, are required to inform themselves about and to adhere to any such restrictions which are set out in more detail under section 2 headed "Selling Restrictions" in the Base Prospectus. Particular attention should be paid to the selling restrictions set out in the Base Prospectus with respect to the following jurisdictions: European Economic Area (EEA), United States of America and United Kingdom. These restrictions must not be taken as conclusive guidance as to whether the Products can be sold in a jurisdiction. As regards the EEA the below section "Prohibition of Sales to EEA Retail Investors" further specifies the applicable set of rules.

The Product Documentation does not constitute, and may not be used for the purposes of, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offer or solicitation.

#### **Prohibition of Offer to Private Clients in Switzerland**

Not applicable; a key information document required under article 58 para. 1 FinSA in connection with article 59 para. 2 FinSA has been prepared in respect of the Products which is available for download on the website of the Issuer at [structuredproducts.lukb.ch](http://structuredproducts.lukb.ch).

#### **Prohibition of Sales to EEA Retail Investors**

Not applicable

"Not applicable" means:

A key information document required by Regulation (EU) No 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the Products or otherwise making them available to retail investors in the European Economic Area ("**EEA**") has been prepared.

For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); (ii) a customer within the meaning of Directive 2016/97/EU (as amended), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended or superseded, the "**Prospectus Directive**").

#### **Prohibition of Sales to Retail Investors in the United Kingdom (UK)**

The Products are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the UK. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**EUWA**"); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (the "**FSMA**") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA ("**UK Prospectus Regulation**"). Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Products or otherwise making them available to a retail investor in the UK has been prepared

and therefore offering or selling such Products or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

## TAX TREATMENT IN SWITZERLAND

### Income Tax (Direkte Bundessteuer)

The following income tax information is only applicable to private investors resident in Switzerland holding the Product as private assets.

This Product is a transparent financial product, with a predominant one-time interest payment ("überwiegende Einmalverzinsung"; IUP).

The product is taxed according to the so-called modified differential taxation ("modifizierte Differenzbesteuerung"). The positive difference between the bondfloor on the Sale Date or on the Redemption Date and the bondfloor on the Issue Date or on the Purchase Date is subject to income tax. However, any capital gain from the option component (incl. Conditional Coupon Amount) is generally regarded as a tax-free capital gain. The income tax treatment for the state and municipal taxes may differ from the tax treatment for the Direct Federal Tax (Direkte Bundessteuer), but in principle it may be the same.

In case the Product Currency is a currency other than CHF the Bondfloor is converted into CHF on the Issue Date/Purchase Date as well on the Sale Date/Redemption Date.

### Swiss Withholding Tax

(Schweizerische Verrechnungssteuer)

The positive difference between the Bondfloor on the Redemption Date and the Bondfloor on the Issue Date is subject to Swiss withholding tax on the Redemption Date.

If the Product Currency is not CHF, any changes in the currency exchange rate could have an impact on the amount subject to Swiss Withholding Tax.

### Securities Turnover Tax

(Umsatzabgabe)

Secondary market transactions are subject to the Swiss securities turnover tax (TK 22).

### Bondfloor at issuance

95.60% (implied yield p.a.: 2.02%)

### Automatic Exchange of Information in Tax Matters

Switzerland has implemented the Automatic Exchange of Information in Tax Matters ("AEOI") as of 1st January 2017 with the EU and various other countries and is negotiating the introduction of the AEOI with further countries. The website [www.sif.admin.ch](http://www.sif.admin.ch) provides an overview of all partner states Switzerland has signed an agreement for the introduction of the AEOI.

### General Information

The information above is a summary of the main Swiss tax consequences in relation to dealings in this Product and should not be construed to be tax advice. This summary does not purport to address all Swiss tax consequences that may be relevant for a decision to purchase, own and dispose of Products and in particular does not take into account the specific circumstances of any particular investor. The relevant tax laws or the regulation and the practice of the Swiss tax authorities (or their interpretation) are subject to change, possibly with retroactive effect. This summary is based on the tax laws, regulations and practices of Switzerland, as in effect on the earlier of the start of the Subscription Period or the Initial Fixing Date.

Transactions and payments of this Product may be subject to further (foreign) transaction taxes, duties and/or withholding taxes (such as, inter alia, withholding

tax related to FATCA or 871(m) of the US Tax Code). Any payments due under the Product **are net of any such taxes and/or duties**.

It should be noted that all taxes and duties incurred in connection with the investment in this Product are to be borne by the Investor.

## 2. Prospects of Profits and Losses

### Market Expectation

Investors in this Product expect all Underlyings to trade sideways or to rise slightly. In any case Investors expect that all Underlyings trade above their respective Barrier Level during the Barrier Observation Period and that all Underlyings close above their respective Coupon Trigger Level on any Conditional Coupon Observation Dates.

### Maximum Return

The maximum return is limited to the Conditional Coupon Amounts, if any, if the Product is purchased at issuance. The Conditional Coupon Amounts are depending on the level of the Worst Performing Underlying on each Conditional Coupon Observation Date. Since this Product can be automatically early redeemed and, as thereafter no further Conditional Coupon Amounts payments will be made, only some Conditional Coupon Amounts may be made under the Products.

### Maximum Loss

Investors may lose all of the invested capital as they are fully exposed to the performance of the Worst Performing Underlying.

## 3. Significant Risks for the Investors

Potential Investors should ensure that they have sufficient knowledge to evaluate and understand the risks and benefits of an investment in this Product and to consider the suitability of this Product as an investment in light of their own circumstances, investment objectives, tax position and financial condition by consulting their own professional financial, accounting, legal and tax advisors. Thereafter Potential Investors should consider the additional risk factors in the Base Prospectus.

### Issuer Risk

Investors in this Product bear the Issuer Risk. Potential Investors should therefore be aware that they are exposed to the credit risk of the Issuer. Hence, Investors bear the risk that the financial situation of the Issuer could deteriorate and the Issuer of the Product may become insolvent. In this case all forthcoming and thus not yet paid Coupons will also be affected by such insolvency and not be paid. The Product's value is therefore not only dependent on the performance of the Underlying(s) but also on the creditworthiness of the Issuer, which may change over the term of the Product. The Issuer Rating stated in this Final Terms may be subject to change.

### Loss Potential

This Product provides no minimum repayment amount. Therefore, Potential Investors may lose all of the invested capital.

### Capital Protection

This Product does not provide for a capital protection.

### Risks compared to a Direct Investment in the Underlying(s)

The barrier feature limits the risk exposure compared to a direct investment in the Underlying(s). However, once one of the Barrier Levels is touched, the risk potential is similar to a direct investment in the Worst Performing Underlying.

### Early Redemption

This Product can be automatically called for Early Redemption - monthly, first time after three months - at 100.00% of the Nominal, depending on the level

of the Worst Performing Underlying on any of the Autocall Observation Dates. Thereafter, no further payments will be made.

**Early Termination and Cancellation**

Under certain circumstances set forth in the General Terms and Conditions, the Issuer has the right to terminate and cancel this Product early and pay Investors the fair market value of this Product at the effective date of the Early Termination and Cancellation. Hence, Potential Investors should be aware that they may make a loss on their invested capital if the Products are terminated and cancelled early.

**Secondary Market**

Even though the Issuer intends to make a market in these Products on a regular basis under normal market conditions, the Issuer is under no obligation with respect to Investors to provide any market in this Product at all. Potential Investors should note that there is no guarantee of a specific liquidity or a specific spread (difference between bid and ask prices) or any prices at all. Hence, Potential Investors should not rely on the possibility to buy or sell the Product in a specific point in time or to a specific price. By selling the Product in the secondary market Investors may receive less than the invested capital.

In case of a secondary market transaction, there is a possibility that costs, including taxes, related to or in connection with this Product may arise for Investors that are not paid by the Issuer or imposed by the Issuer.

**Market Disruption**

Under certain circumstances set forth in the General Terms and Conditions, if the Issuer and/or Calculation Agent determines that a specified Market Disruption Event has occurred, any consequential adjustments in line with Combined Terms and Conditions may have an adverse effect on the value of this Product.

**Volatility**

Potential Investors should take into account that market prices for this Product may be volatile, depending upon the development of the price or value of the Underlying(s), interest rates, remaining term of the Product and other factors.

## Important Additional Information

### No Offer or Advice

These Final Terms shall not be used or considered as an offer, personal recommendation or solicitation to conclude a transaction and should not be treated as giving investment advice.

### No Representation

Neither the Issuer nor any third party appointed by the Issuer, make a representation or warranty relating to any information in this Document, which is derived from independent sources.

### Issuer Estimated Value ("IEV") / Total Expense Ratio ("TER") / Distribution Fees

IEV and TER are calculated by the Issuer or any third party appointed by the Issuer, as applicable, on the Initial Fixing Date, or on the Subscription Start Date and will not be updated during the term of the Product.

TER corresponds to the difference between the Issue Price of the Product and the IEV and is comprised of the expected issuer margin and the Distribution Fee, if any. The Issuer margin covers amongst others the costs for the structuring, market making and settlement of the Product as well as the expected issuer revenues. The Issue Price (including IEV and TER) of the Product is calculated based on internal pricing models of the Issuer.

The Issuer may sell this Product to financial intermediaries and other financial institutions at a discount to the Issue Price or reimburse a certain amount of the Issue Price to them ("Distribution Fees"). Distribution Fees, if any, are disclosed in section 1 of this Document and reflect the maximum amount a financial intermediary or financial institution may receive from the Issuer; the actual amount may be lower. Detailed information is available on request.

### Prudential Supervision of the Issuer

As a bank within the meaning of the Swiss Federal Act on Banks and Saving Banks and a securities firm within the meaning of the Swiss Federal Act on Financial Institutions, Luzerner Kantonalbank AG is subject to the prudential supervision of FINMA, Laupenstrasse 27, CH-3003 Bern, [finma.ch](http://finma.ch).

### Consent to use the Base Prospectus

General Consent as defined in the Base Prospectus is given by the Issuer.

### Legally binding Documentation

The legally binding versions of the Base Prospectus and the relevant Final Terms (together the "Product Documentation") are in German language. Translations in other languages are for information purposes only and are not legally binding.

The Products may be publicly offered after the expiry date of the Base Prospectus on the basis of one or more succeeding base prospectuses (each a "Succeeding Base Prospectus"), to the extent the Succeeding Base Prospectus envisages a continuation of the public offer of the Products. In this context, these Final Terms are, in each case, to be read in conjunction with the most recent Succeeding Base Prospectus. The respective Succeeding Base Prospectus will be approved and published prior to the expiry of the validity of the respective preceding base prospectus.

**During the entire term of any relevant Product, the Base Prospectus (and any relevant Succeeding Base Prospectus) and the applicable Final Terms can be obtained free of charge from the Issuer under Luzerner Kantonalbank AG Structured Products, Pilatusstrasse 12, 6003 Lucerne, Tel.: +41 44 206 99 55, [structuredproducts@lukb.ch](mailto:structuredproducts@lukb.ch), [structuredproducts.lukb.ch](http://structuredproducts.lukb.ch).
