Cautionary statement regarding forward-looking statements and disclaimer

This document may contain projections or other forward-looking statements related to Vontobel that are subject to known and unknown risks, uncertainties and other important factors. These projections and forward-looking statements reflect management's current views and estimates. By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. Vontobel's future results may vary materially from the results expressed in, or implied by, the projections and forward-looking statements contained in this document. Potential risks and uncertainties include, in particular, factors such as general economic conditions and foreign exchange, share price and interest rate fluctuations as well as legal and regulatory developments. Vontobel has no obligation to update or alter its forward-looking statements based on new information, future events or other factors.

This presentation and the information contained herein are provided solely for information purposes, and are not to be construed as a solicitation of an offer to buy or sell any securities or other financial instruments in any jurisdiction, in particular Switzerland and the United States. No investment decision relating to securities or financial instruments of or relating to Vontobel Holding AG or its affiliates should be made on the basis of this document. No representation or warranty is made or implied concerning the information contained herein, and Vontobel Holding AG assumes no responsibility for the accuracy, completeness, reliability or comparability thereof. Information relating to third parties is based solely on publicly available information which is considered to be reliable. Vontobel undertakes no obligation to update or revise its forward-looking statements if circumstances or management's estimates or opinions should change except as required by applicable Swiss laws or regulations.

A glossary of non-IFRS performance indicators and abbreviations is provided in the half-year report on pages 51 – 52.

Image on cover page: St. Gallen and the entire region embody the qualities that make Switzerland strong and distinctive: successful entrepreneurship and excellent education. Through its presence in this city that lies close to the border of three countries, Vontobel has ties to the St. Gallen-based Bank Wegelin – the oldest in Switzerland – which later became Notenstein La Roche Privatbank AG and was subsequently acquired by Vontobel. With its investment solutions, the globally active investment manager Vontobel serves both individual wealth management clients and institutional investors in St. Gallen and across the region.

Overview

Highlights

Strategic levers

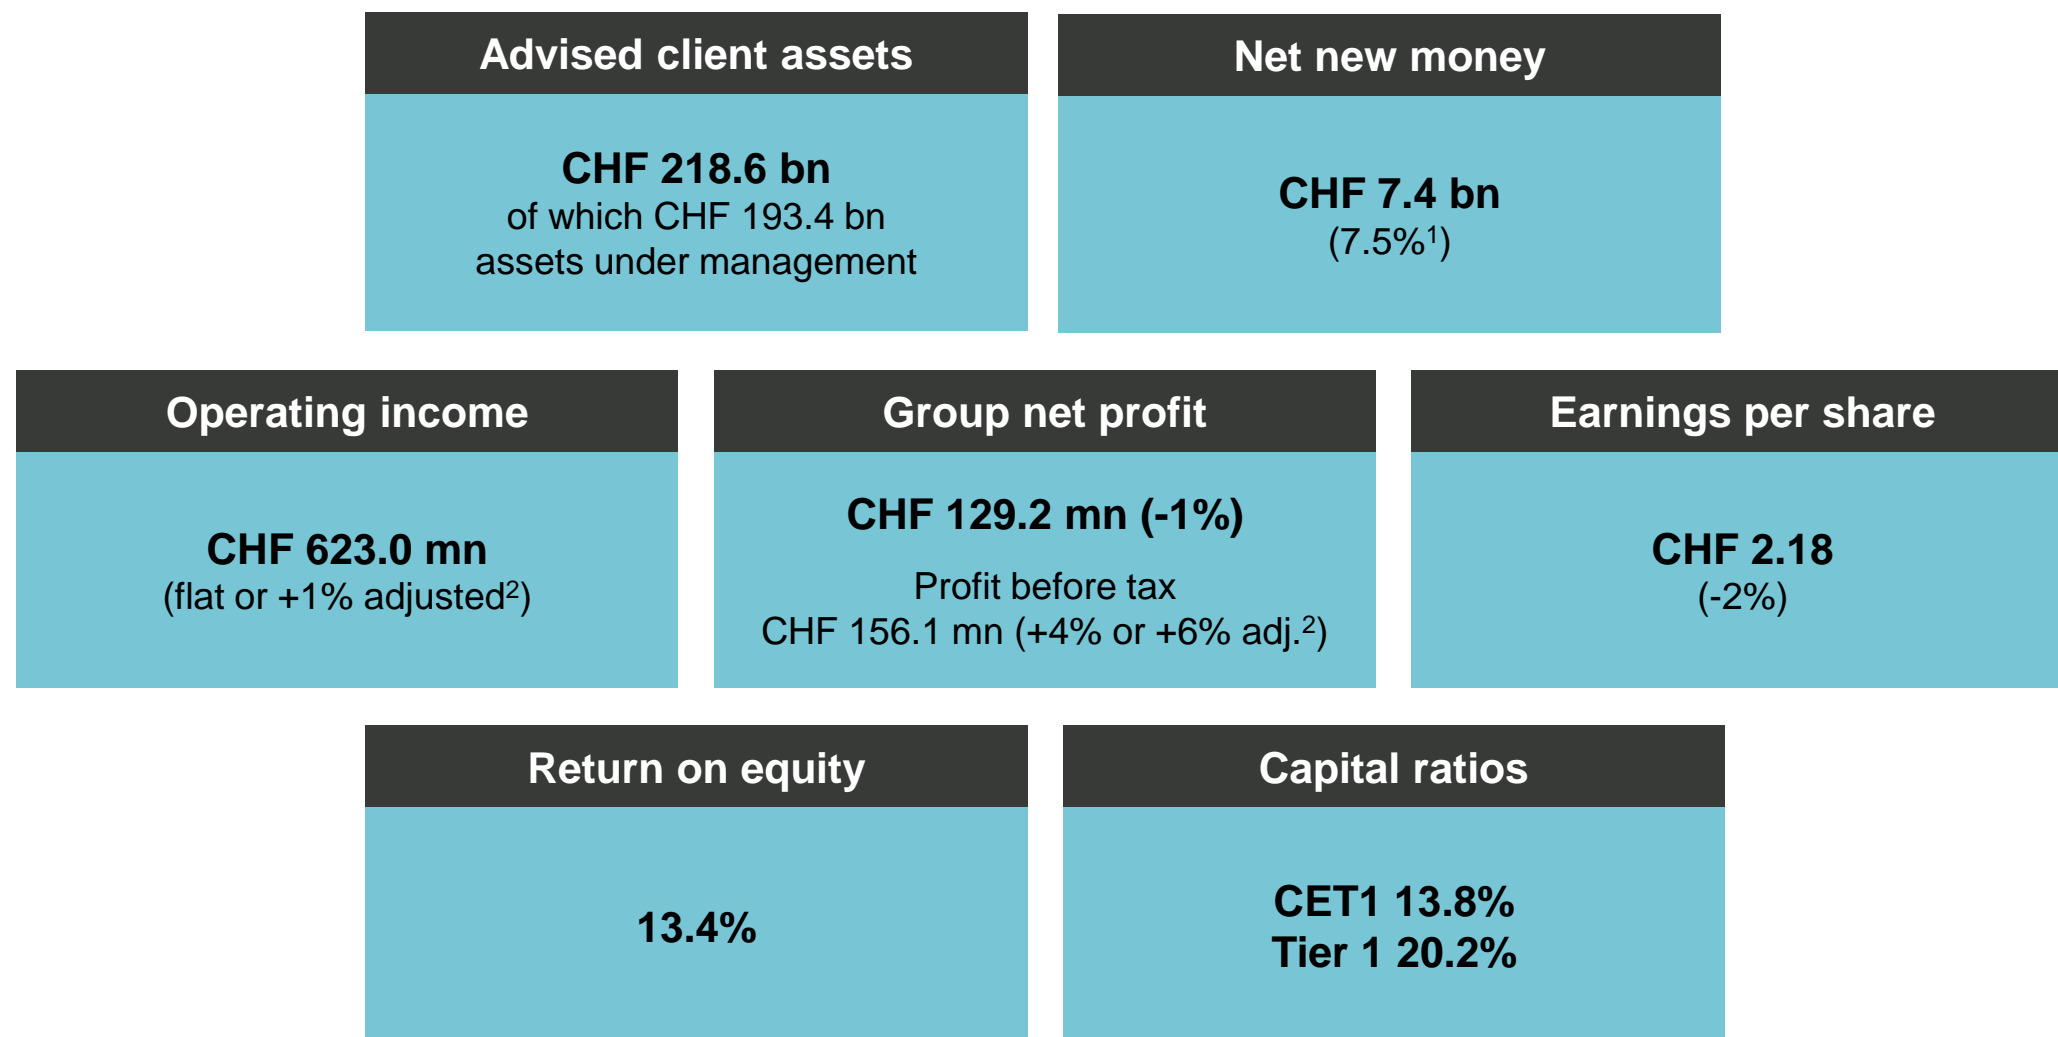

Financial results for first half of 2020

Outlook

Questions and answers

Good performance in challenging times

Key figures as of June 30, 2020

¹ Annualized, in % of AuM at the beginning of the period

² In H1 2019 excluding integration costs for Notenstein La Roche (NLR) of CHF 7.9 million and a special dividend from our participation in SIX Group AG of CHF 6.9 million; in H1 2020 excluding implementation costs of CHF 4.1 million related to Vontobel's realignment as a fully client-centric investment manager

Investment focus and strong technology infrastructure pay off

Fully client-centric investment manager

- Strategic realignment announced in December 2019 implemented
- Performance of business confirms strategic direction

Resilient while navigating corona crisis

- Continuous support for clients throughout lockdown, weathered extreme market dislocation, demonstrated resilience and robustness
- Reaping the rewards of continuous and consistent investments in technology over the last decade: all workstations globally run on Swiss private cloud, active use of digital client onboarding

Net new money RoA

- Strong net new money - positive flows across all asset classes
- Good Return on Assets (RoA) with a large proportion of stable recurring commission income

Operating income

- Recurring revenues up slightly due to higher average AuM
- Transaction-based revenues positively impacted by market volatility; business model focus is on recurring asset-linked revenues

Risk

- No credit losses / no exposure to corporate lending
- RWA in line with end-December 2019 despite increased regulatory requirements

Financial results for first half of 2020

Outlook

Questions and answers

Vontobel has delivered consistently high growth over the last 10 years

Move to a pure-play investment manager based on 4 strategic levers to drive further value creation

Global wealth¹ AuM (USD tn, CAGR)

Vontobel advised client assets (CHF bn, CAGR)

Client-centric

Investment-led

Technology-enabled

Powered by people

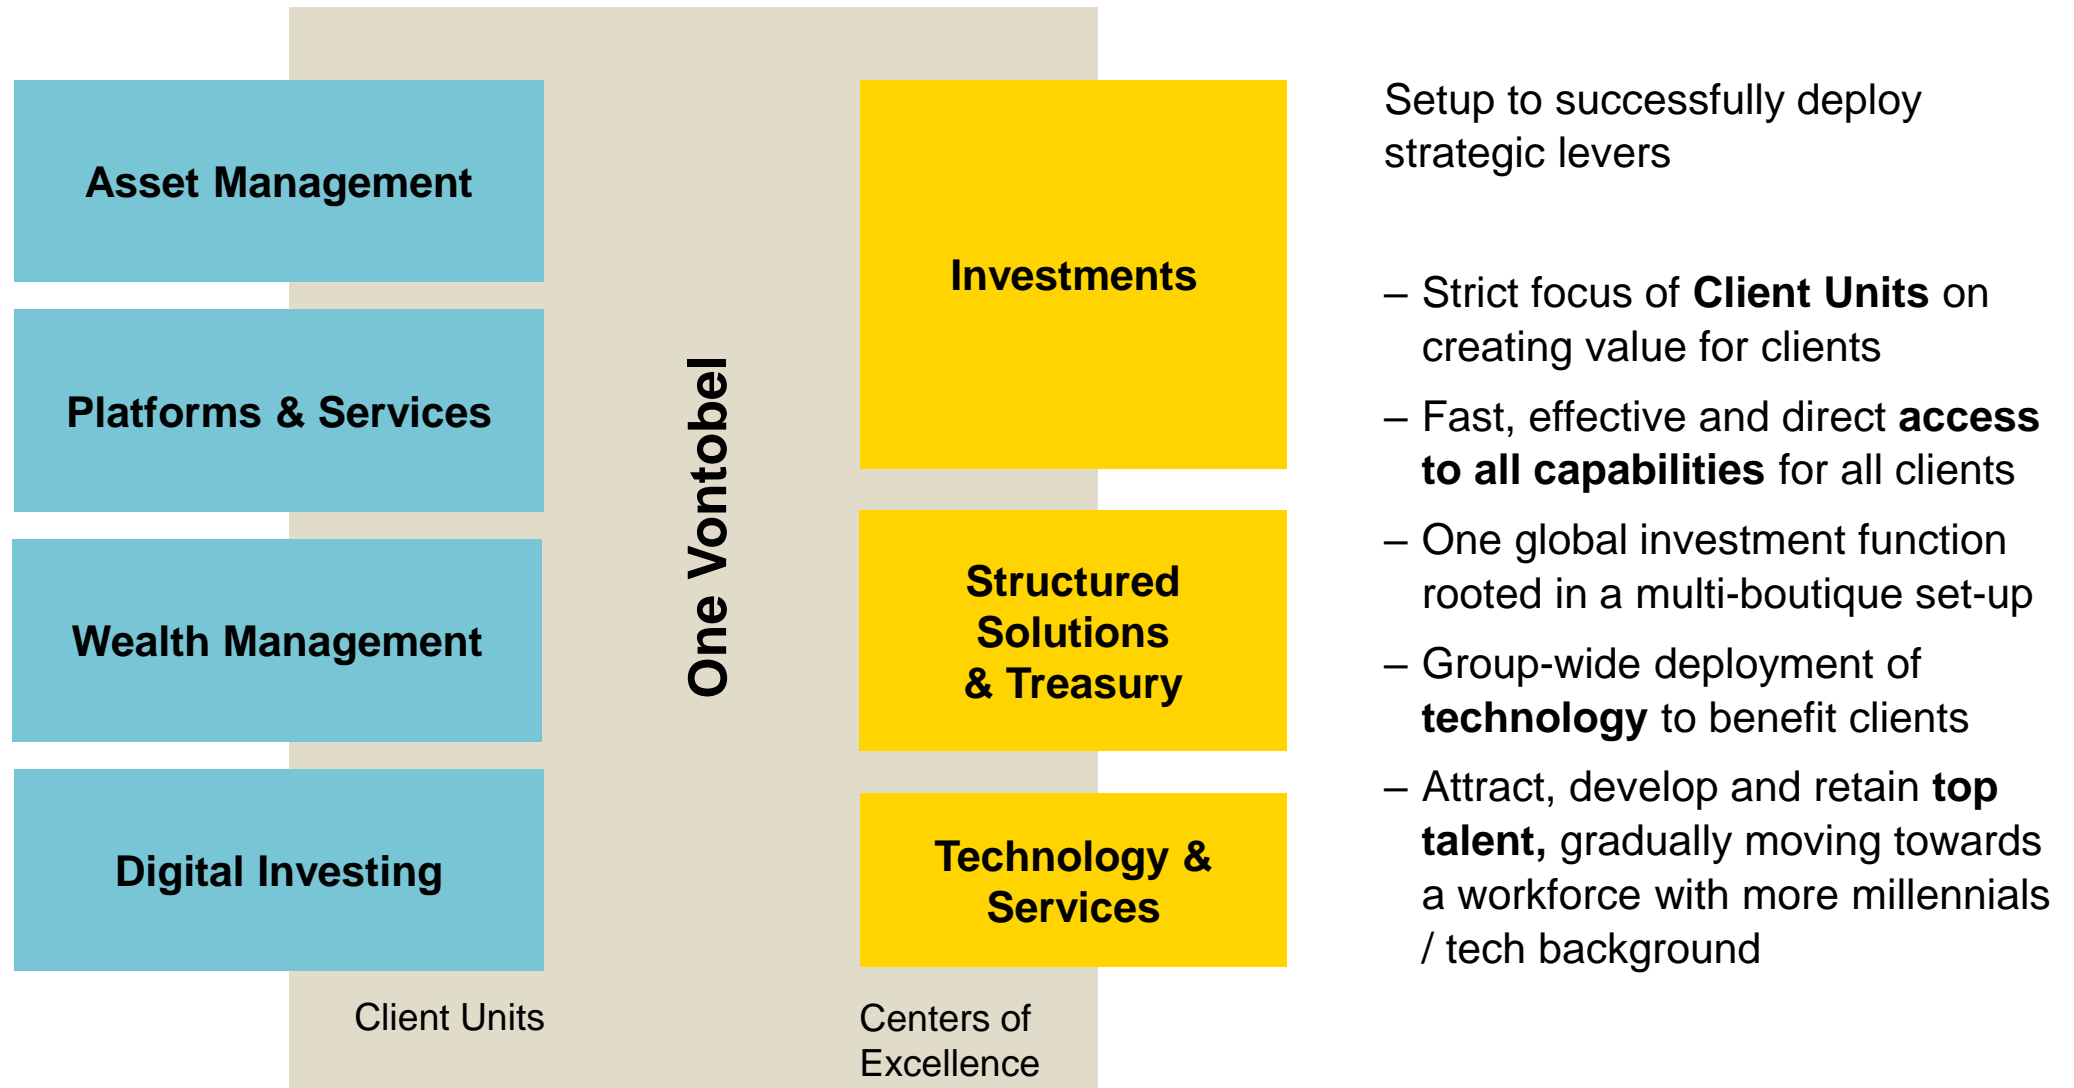

¹ Source: BCG: Global Wealth 2020 – The Future of Wealth Management – A CEO Agenda

² Range of projected global wealth development between “quick rebound” and “lasting damage” scenarios

³ Growth is calculated on the medium scenario; in CHF, growth corresponds to 5.2% p.a.

New way of working to realize the full potential of strategic levers and further accelerate growth

Client Units are focused on seizing attractive growth opportunities in significant asset and fee pools

	Market size / growth	Vontobel-specific opportunities
Institutional clients Asset Management Platforms & Services	Global AM AuM¹ (USD tn, CAGR) 	<ul style="list-style-type: none"> - Asset-class specialization and boutique model with global sales network - Grow distribution footprint in US, Asia/Japan and France - Develop Global Banks segment
	Global wealth AuM² (USD tn, CAGR) 	<ul style="list-style-type: none"> - Become leading partner for wealth management services in Switzerland, Germany, Hong Kong and Singapore - Leading B2B provider of structured products, including deritrade®
Private clients Wealth Management Digital Investing	Global fintec market⁴ (USD bn, CAGR) 	<ul style="list-style-type: none"> - Accelerate hiring through positioning as “employer of choice” - Leverage expanded network of locations with proven experts in advice and financial planning; new set-up in Milan - Extend focus to UHNWIs
		<ul style="list-style-type: none"> - Launch explicit challenger unit to make competencies available to wider group of investors via platforms and ecosystems - Leverage pan-European footprint in public distribution based on derinet®

Current business mix is well diversified and resilient

Assets under management by client domicile (June 30, 2020)

Assets under management by mandate type (June 30, 2020)

Vontobel's investment offering with proven processes and conviction

Advised client assets by asset class

(CHF bn; June 30, 2020)

Focus and expertise in investments

- Each boutique draws on specialized investment talent, a strong performance culture and robust risk management
- Our convictions are the result of our relentless in-depth analysis and ingenuity
- Around 300 investment managers around the globe - in Zurich, New York, London and Asia
- Top 2 in European cross-border fund flows in first half of 2020²
- Largest issuer of structured products in Switzerland with growing European and Asian footprint
- Growing market shares in all European and Asian markets²

¹ Other includes AuM and other advised client assets not managed by Investments and corrects for double counts of CHF 1.3 bn in the boutiques

² See page 34 in the appendix

Excellence through the cycle

Track record in funds

(% of 4* & 5* rating, % of 1st and 2nd quartiles¹)

Longstanding track record based on a proven investment process

- Strong medium- to long-term performance
- YTD performance of selected high-conviction portfolios lagging as corona-induced liquidity squeeze did not properly recognize quality
- Vontobel has managed several market dislocations in the past and is well positioned for the future with a strong long-term approach
- Client trust in Vontobel’s investment approach and capabilities is reflected by significant inflows – positive in both Q1 2020 and Q2 2020

¹ Based on Morningstar rated funds; asset weighted

Continued strong traction in growth areas

Emerging Markets – a specialist approach

- **Driver:** 59% of GDP¹ already generated in Emerging Markets and the proportion is growing; avg. allocation to EM assets is far lower
- Good performance, won 40 awards in 2019
- NNM CHF 0.5 bn in H1 2020

ESG – one of the leaders in Switzerland

- **Driver:** Global sustainably managed assets grew by 15% p.a. since 2011, led by European investors; US and Asian institutions starting to accelerate²
- Leading Swiss Sustainable Asset Manager³
- Strong NNM CHF 2.8 bn in H1 2020

Fixed Income – now even more than ever!

- **Driver:** Interest rates are lower forever?!
- Strategic income fund provides an alternative to low / negative interest rates
- Strong NNM CHF 2.6 bn in H1 2020

Multi Asset – 3α Offerings

- **Driver:** Decreasing expected returns and increasing complexity
- 3α-Managed Solutions Funds achieved good three year track record
- More than 60% of AuM in Wealth Management are invested in proprietary 3α offerings

Assets in the different categories are not mutually exclusive. Certain Vontobel strategies belong to more than one category.

Overview

Highlights

Strategic levers

Financial results for first half of 2020

Outlook

Questions and answers

Advised client assets at CHF 218.6 billion

Corona impact partially offset by strong net new money

Advised client assets
(CHF bn, end of period)

AuM development
(CHF bn)

- Assets under management
- Other advised client assets
- Structured products

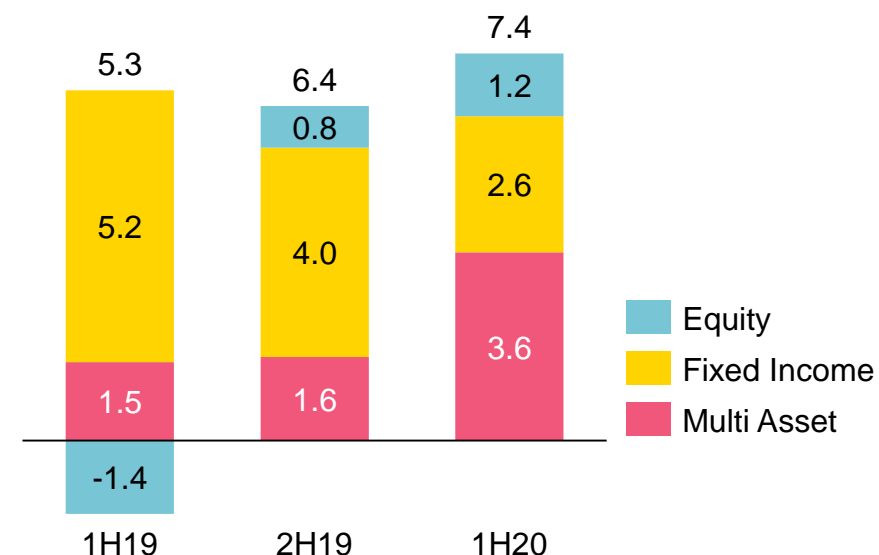

Relative strength translates into strong net new money flows Vontobel ranks in top 2 in European cross-border fund flows

Strong flows of institutional clients (CHF bn)

- Asset Management with annualized growth of over 11%
- Platforms & Services generated annualized growth in net new money of 4.8%
- Interaction with private clients was more hampered by corona pandemic than with institutional clients

All asset classes with good inflows

- Net new money was well diversified with all asset classes recording positive flows
- Fixed Income continued to attract very good inflows, despite market flows being hit hard during the corona crisis

Assets under management recovered after lows in March – average AuM above first-half and close to second-half of 2019

Assets under management by Client Unit (CHF bn)

Assets under management by asset class (CHF bn)

- Strong net new money partially offset negative impact of foreign exchange rates as well as negative market performance
- Average assets under management in H1 2020 at CHF 191 billion, far exceeding H1 2019 (CHF 180 billion), reflected by 7% growth in advisory and management fees
- AuM end-H1 2020 were slightly higher than average in H2 2019 of CHF 192 billion

- Negative market impact on all asset classes in March with Emerging Markets hit hardest
- Recovery started in April but AuM were not back to end-2019 levels in all asset classes

RoA across Client Units reflects quality of our offerings with a large recurring commission-based component

Asset Management
RoA (bps)

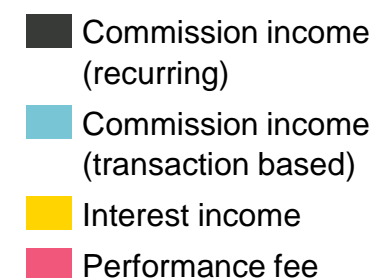

Platforms & Services – EAM
RoA (bps)

Wealth Management
RoA (bps)

- Recurring commission income was very stable in all asset-linked businesses; in Asset Management, the asset mix had a minor impact of 1bp, as it shifted slightly from higher-margin equity to lower-margin fixed income products
- Transaction-based income increased in the business with EAM clients and Wealth Management clients and compensated for lower interest income due to lower USD interest rates
- Good performance fees in 2019 could not be replicated in corona environment in H1 2020

¹ Gross Margin annualized

Large proportion of asset-linked revenues confirms focus on stability

Operating income (CHF mn)

Comments

- Operating income was flat. On an adjusted basis, i.e. excluding the one-off SIX dividend in 2019, operating income increased by 1%.
- Revenues of divested businesses were fully compensated; excluding those revenues, operating income increased by 2% on an adjusted basis.
- Commission income, representing the largest income component at 67% of total operating income, was up by 2%.
- 89% of commission income is recurring.
- In H1 2020 interest income represented only 6% of total operating income. Interest income decreased by CHF 8 million, reflecting the one-off SIX dividend of CHF 6.9 million in H1 2019 and the lower USD interest environment.
- Trading income was down 1% as higher volumes could not fully compensate increased hedging costs to maintain cautious risk appetite.

Operating income generated by institutional and private clients increased

... by client units (CHF mn)

... by centers of excellence (CHF mn)

- Higher average asset base compared to H1 2019 and good RoA led to higher revenues in Asset Management and Wealth Management.
- Digital Investing benefited from high demand in leverage products² while Platforms & Services felt risk awareness of clients related to structured investment products.

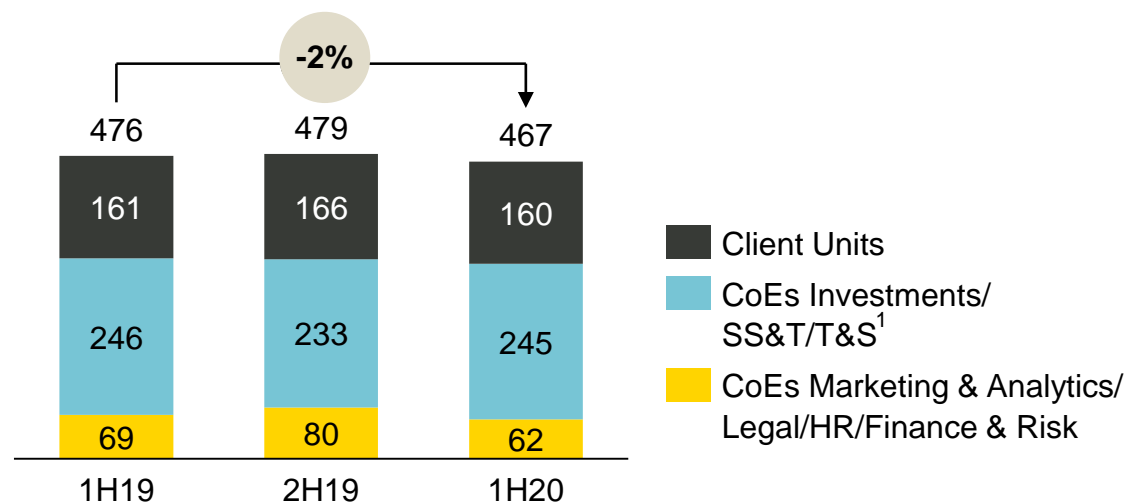

- Investments generated higher operating income in H1 2020 compared to the same period last year.
- Operating income in Structured Solutions and Treasury was slightly down despite good trading volumes in leverage products and was negatively impacted by lower demand in structured investment products and increased hedging costs.

¹ Other / Reconciliation contains treasury revenues in Structured Solutions and Treasury, transactional costs in Technology and Services not allocated to the client units and revenues of divested businesses. The SIX dividend received in H1 2019 falls also in this category

² Nearly all leverage products of Vontobel are sold through public distribution and are shown in Digital Investing, while structured investment products are to a large degree sold via intermediaries and shown in Platforms and Services

Operating expense down by 2%

... by focus (CHF mn)

... by cost category (CHF mn)

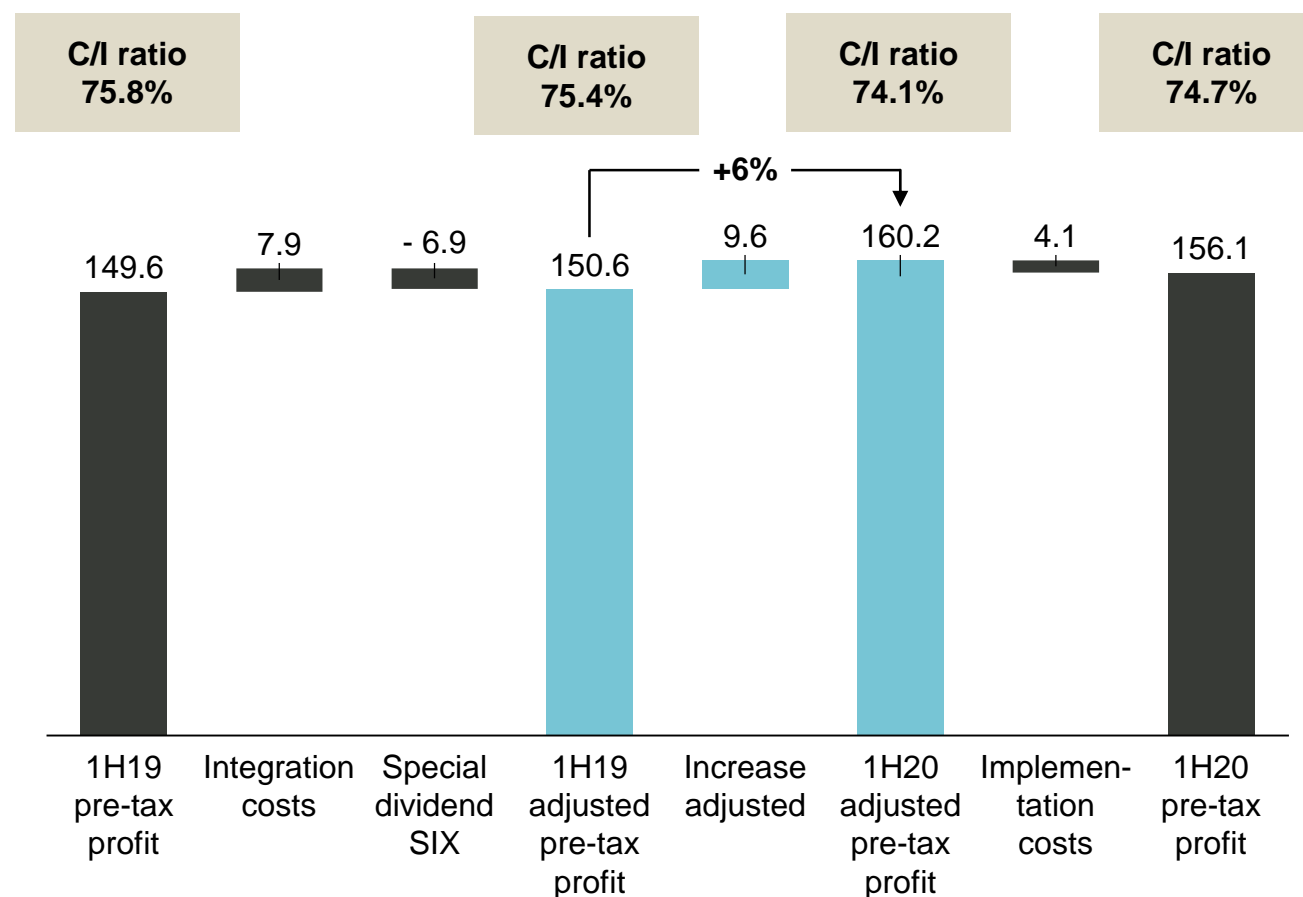

Comments

- Operating expense was down 2%, driven by lower direct expenses in Client Units and Centers of Excellence.
- From a cost category perspective, lower operating expense was driven by reduced general expense and depreciation. Marketing and representation as well as travel costs were significantly lower during the corona lockdown while technology costs rose slightly.
- Personnel expense was down 1% in line with average FTE despite implementation costs recognized in H1 2020.

¹ CoE = Center of Excellence; SS&T = CoE Structured Solutions & Treasury; T&S = CoE Technology & Services

Adjusted pre-tax profit increases 6%

Pre-tax profit (CHF mn)

Comments

- Cost/income ratio improved slightly driven by lower expenses.
- Trade off between growth ambitions and cost efficiency remains a challenge.
- Implementation of new strategic set-up led to costs in different business areas. Synergies are captured mainly in Marketing & Analytics.
- Currencies had a negative impact of around 6% on pre-tax profit as the Swiss Franc strengthened against all major currencies; on a constant currency basis, pre-tax profit was up 10% or 12% on an adjusted basis.

Good performance translates into solid net profit despite higher taxes

Group net profit (CHF mn)

	H1 2020	H1 2019	Δ
Operating income	623.0	625.6	0%
<i>excl. one-offs¹</i>	623.0	618.7	+1%
Operating expense	466.9	476.1	-2%
<i>excl. one-offs¹</i>	462.8	468.2	-1%
Profit before tax	156.1	149.6	+4%
<i>excl. one-offs¹</i>	160.2	150.6	+6%
Taxes	26.9	18.4	+46%
Group net profit	129.2	131.1	-1%
Group net profit excluding minority interest	121.6	124.7	-2%
Basic earnings per share (CHF)	2.18	2.23	-2%
<i>excl. one-offs</i>	2.24	2.24	0%
Return on equity (%)	13.4	14.3	-0.9pp

Comments

- Group net profit declined by 1% to CHF 129.2 million.
- Taxes were 46% higher in H1 2020. In H1 2019, Vontobel benefited from deferred tax assets in Germany and a US tax refund. These and other positive effects helped drive the H1 2019 tax rate down to 12.3%. In H1 2020, it remained within the expected range at 17.3%.
- Group net profit excluding minority interest was CHF 121.6 million (-2%); EPS were CHF 2.18 (-2%) or flat on an adjusted basis.
- Return on equity decreased to 13.4% in H1 2020 compared to 14.3% in H1 2019.

¹ One-off impacts in H1 2019 include integration costs of CHF 7.9 million and a special dividend of SIX Group AG of CHF 6.9 million as well; in H1 2020 it includes implementation costs of CHF 4.1 million

Further improvement in capital ratios reflects solid financial base

Capital ratios

- CET1 ratio increased to a very solid 13.8%
- Total Capital Ratio was 20.2%, compared to 19.9% at end-2019
- In H1 2020, risk-weighted assets were flat compared to end-2019 despite increased regulatory requirements (SA-CCR inflated RWA by 2%)
- Average LCR (Liquidity Coverage Ratio) is 186.3%, far exceeding FINMA requirement of 100%
- Leverage ratio is 4.8%

Future business planning is focused on strategy execution based on 2-year planning cycles

Pure-play investment manager based on 4 strategic levers

Client Centric 	Investment-led
Technology-enabled 	Powered by people

Ambitious growth targets extended to 2022 despite uncertain and challenging times

Committed to building on strong foundations to transform change into opportunities

Strong asset base with stable margin outlook

AuM (in CHF billion)

Investment-led and technology-enabled

- Anticipating growing demand for professional investment solutions and for individually tailored expert investment advice across all Client Units
- Targeted use of technology solutions to profit from significant changes in the way clients select and interact with financial services providers

Increased client focus will deliver growth

- Complement well-established asset-class specialization with increased regional sales focus and local footprint in Asset Management.
- Serve Global Bank clients worldwide on a coordinated basis.
- Extend focus to new client groups, accelerate hiring and leverage proven experts in Wealth Management.
- Become leading partner for wealth management services in Switzerland, Germany, Hong Kong and Singapore.
- Make competencies available to a wider group of investors via platforms and ecosystems.

A silver laptop is open and centered against a grey, textured background. The laptop screen is white and displays the text "Q&A" in a large, bold, black serif font. The laptop's keyboard and trackpad are visible below the screen.

Q&A

Appendix

Successful implementation of Vontobel's strategy has delivered attractive returns to shareholders for more than a decade

Return on equity and dividends

Comments

- Attractive business with average return on equity of 12.1% since 2003 – clearly above Vontobel's cost of capital
- Attractive dividend policy with a payout ratio of above 50%
- Increase in shareholders' equity of CHF 800 mn since 2003 without injection of fresh capital

¹ Of which special dividend of CHF 0.10

Technology and data as key success factors going forward

People

- Critical mass and depth to attract tech talent
- Continued investments in full stack, artificial intelligence and cloud skills
- Offer working environment with bridge to tech culture

One speed end-to-end thinking

- Technology area shifts to one-speed-delivery organization, interacting with client groups on a peer-to-peer basis, interconnected by one agile way of working
- 93% of employees are already on one global platform
- Clients get faster and better access to new functionalities on an ongoing basis

Client journey and intelligence

- The set-up with dedicated Client Units and a shared Marketing and Technology & Services function allows us to learn more about our clients and upgrade our value proposition by delivering a relevant contextual and customized client experience

Ecosystems

- Starting with the client's perspective, we think and act in ecosystems; for some clients, we are orchestrators; for others, we act as partners or suppliers/enablers

Modern Technologies

- Big data, artificial intelligence as well as cloud services are key
- Cloud strategy that fully respects data protection standards
- First-class cyber security

Relative strength reflected in strong net new money flows and increased market share in structured products

Cumulative flows in active funds¹ (CHF bn)

⁶ Data sources have changed in some markets leading to different market share in H1 2019 compared to previously published figures

Swiss market is fragmented and undergoing structural change – creating opportunities for Vontobel to accelerate growth

Private banks in Switzerland

Comments

- Number of Swiss private banks has decreased by more than 30% since 2011
- Structural change is expected to continue
- Industry change is allowing Vontobel to attract new clients from banks that are:
 - Focusing their business model
 - Selling their franchise
 - Closing their operations (“silent consolidation”)

¹ One transaction in 2018 was the acquisition of Notenstein La Roche by Vontobel
