### 1. Introductory remark

BELSIPA, the association of issuers of structured products in Belgium, publishes with this document the regular update of its regular market report on the sale and trade of structured products to retail investors in Belgium. The reporting period is the first quarter of 2018 (January to March).

The commercial entities submitting data to the report comprise BELSIPA's members and a number of other important market participants. A complete list of the entities submitting data can be taken from the appendix section at the end of the report.

The reported categories are:

- · Turnover (primary and secondary market transactions),
- · Outstanding volume (retail customer assets invested, which equals "AuM" / "Assets under Management" for funds),
- · Number of new products launched on the retail market and
- · Total number of products (meaning the total of non-matured products on the secondary retail market) at the end of March.

These data are compared in the overview pages on product categories and underlying.

Please enjoy reading.

### 2. Highlights

### Market Turnover: Primary market - overall decrease

In the first quarter of 2018 the turnover in the primary market accounted for 922 bn EUR, which is a decrease of 33% compared to Q4 2017 and of 28% when compared to the equivalent first quarter of 2017. The turnover of structured products sold (back) on the secondary market in Belgium amounted to 1'070 bn EUR, an increase of 4% compared to Q4 2017 but a decrease of 10% compared to last year equivalent Q1 2017. Underlying-wise, the turnover in equity-linked products in Q1 2018 accounted for 0.597 bn EUR (primary market) and 0.880 bn EUR (secondary market), respectively.

### Outstanding Volume: No significant changes compared to the previous quarter

At the end of March 2018, the outstanding volume in structured products held by customers of the data-submitting entities was 31.20 bn EUR, which is an overall decrease of 3% compared to the end of the fourth quarter of 2017. The decrease was driven by Structured Funds with -12% compared to Q4 2017.

### Number of New Products: Increasing number of leverage products

The number of new structured products issued in Belgium between January and March 2018 increased by 47% (818 products issued in Q1 2018 against 556 new products in Q4 2017). 89% of all new products were issued in the leveraged products segment. On the investment (non-leverage) products side, structured notes increased by 8% compared to Q1 2017 while the number of structured funds fell by 33% in the same timeframe. Measured by underlying type, equity-linked instruments represented a share of 88% of all newly issued products. This is an increase by 59% compared to the previous quarter Q4 2017.

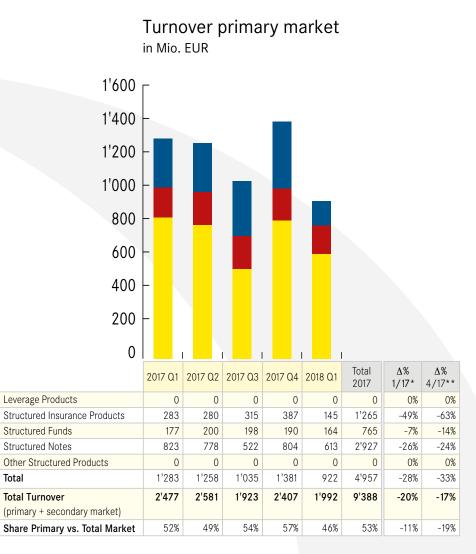

### Total Number of Products: Slight decrease compared to the previous quarter

At the end of March 2018, a total of 3'255 products were open/non-matured on the Belgian market. The number of products hence remains roughly the same as at the end of the fourth quarter of 2017 (3'410). Compared with Q1/2017 it decreased though by 2%. With 44% of all non-matured products at the end of March 2018 (1'445 products out of 3'255), notes are still the dominating format of structured products in the Belgian market.
