Financial Report 3Q19

3 Credit Suisse results

49 Treasury, risk, balance sheet and off-balance sheet

79 Condensed consolidated financial statements – unaudited

168	List of abbreviations
169	Investor information
170	Financial calendar and contacts
171	Cautionary statement regarding forward-looking information

For purposes of this report, unless the context otherwise requires, the terms “Credit Suisse,” “the Group,” “we,” “us” and “our” mean Credit Suisse Group AG and its consolidated subsidiaries. The business of Credit Suisse AG, the direct bank subsidiary of the Group, is substantially similar to the Group, and we use these terms to refer to both when the subject is the same or substantially similar. We use the term “the Bank” when we are only referring to Credit Suisse AG and its consolidated subsidiaries.

Abbreviations are explained in the List of abbreviations in the back of this report.

Publications referenced in this report, whether via website links or otherwise, are not incorporated into this report.

In various tables, use of “–” indicates not meaningful or not applicable.

Credit Suisse at a glance

Credit Suisse

Our strategy builds on Credit Suisse's core strengths: its position as a leading global wealth manager, its specialist investment banking capabilities and its strong presence in our home market of Switzerland. We seek to follow a balanced approach with our wealth management activities, aiming to capitalize on both the large pool of wealth within mature markets as well as the significant growth in wealth in Asia Pacific and other emerging markets. Founded in 1856, we today have a global reach with operations in about 50 countries and 47,440 employees from over 150 different nations. Our broad footprint helps us to generate a geographically balanced stream of revenues and net new assets and allows us to capture growth opportunities around the world. We serve our clients through three regionally focused divisions: Swiss Universal Bank, International Wealth Management and Asia Pacific. These regional businesses are supported by two other divisions specializing in investment banking capabilities: Global Markets and Investment Banking & Capital Markets. Our business divisions cooperate closely to provide holistic financial solutions, including innovative products and specially tailored advice.

Swiss Universal Bank

The Swiss Universal Bank division offers comprehensive advice and a wide range of financial solutions to private, corporate and institutional clients primarily domiciled in our home market Switzerland, which offers attractive growth opportunities and where we can build on a strong market position across our key businesses. Our Private Clients business has a leading franchise in our Swiss home market and serves ultra-high-net-worth individual, high-net-worth individual, affluent and retail clients. Our Corporate & Institutional Clients business serves large corporate clients, small and medium-sized enterprises, institutional clients, external asset managers, financial institutions and commodity traders.

Asia Pacific

In the Asia Pacific division, our wealth management, financing and underwriting and advisory teams work closely together to deliver integrated advisory services and solutions to our target ultra-high-net-worth, entrepreneur and corporate clients. Our Wealth Management & Connected business combines our activities in wealth management with our financing, underwriting and advisory activities. Our Markets business represents our equities and fixed income sales and trading businesses, which support our wealth management activities, but also deals extensively with a broader range of institutional clients.

Investment Banking & Capital Markets

The Investment Banking & Capital Markets division offers a broad range of investment banking services to corporations, financial institutions, financial sponsors and ultra-high-net-worth individuals and sovereign clients. Our range of products and services includes advisory services related to mergers and acquisitions, divestitures, takeover defense mandates, business restructurings and spin-offs. The division also engages in debt and equity underwriting of public securities offerings and private placements.

International Wealth Management

The International Wealth Management division through its Private Banking business offers comprehensive advisory services and tailored investment and financing solutions to wealthy private clients and external asset managers in Europe, the Middle East, Africa and Latin America, utilizing comprehensive access to the broad spectrum of Credit Suisse's global resources and capabilities as well as a wide range of proprietary and third-party products and services. Our Asset Management business offers investment solutions and services globally to a broad range of clients, including pension funds, governments, foundations and endowments, corporations and individuals.

Global Markets

The Global Markets division offers a broad range of financial products and services to client-driven businesses and also supports Credit Suisse's global wealth management businesses and their clients. Our suite of products and services includes global securities sales, trading and execution, prime brokerage and comprehensive investment research. Our clients include financial institutions, corporations, governments, institutional investors, such as pension funds and hedge funds, and private individuals around the world.

Operating environment

Global economic growth remained weak in 3Q19. Global equity markets ended the quarter slightly higher. Major government bond yields remained low and the US dollar strengthened against most major currencies.

Economic environment

Global growth was weak in 3Q19 and manufacturing activity remained subdued. Trade tensions escalated further as the US announced plans to increase the level and range of tariffs on imports from China. In the US, manufacturing activity was still subdued, but the labor market and consumer spending remained robust. In China, trade data and business surveys showed little sign of an improvement in growth. In Europe, a range of business surveys were close to cycle lows as trade tensions and the uncertainty regarding the expected withdrawal of the UK from the European Union weighed on confidence.

The US Federal Reserve (Fed) cut interest rates by 25 basis points at both the July and September meetings. The European Central Bank (ECB) cut the deposit rate by 10 basis points and will restart asset purchases in November. The Swiss National Bank (SNB), the Bank of Japan and the Bank of England kept policy rates unchanged. A number of central banks in emerging economies cut interest rates.

Global equity prices ended 3Q19 0.7% higher compared to 2Q19. Developed market stock indices outperformed emerging

markets, which decreased 1.9% mainly due to lower prices in Chinese equities (refer to the charts under “Equity markets”). Utilities, real estate and consumer staples were the strongest sectors. In contrast, energy and materials underperformed. The Chicago Board Options Exchange Market Volatility Index (VIX) increased compared to 2Q19 (refer to the charts under “Equity markets”). The Credit Suisse Hedge Fund Index increased 0.3% in 3Q19.

In fixed income, bonds continued to deliver positive returns against a backdrop of persistent global growth concerns, trade tariff tensions and expectations of additional interest rate cuts by the Fed in the next twelve months. In US dollar rates, US treasury 10-year yields normalized from a historically low level below 1.5%, while the spread between the 3-month and 10-year US treasury yields remained inverted. In euro and Swiss franc rates, the yield curves remained mostly negative. In credit, spreads remained tight throughout 3Q19. Both global developed and emerging market corporate bonds showed strong returns in 3Q19, outperforming the global high yield segment. Emerging market hard-currency and local-currency sovereign bond performance were resilient (refer to the charts under “Yield curves” and “Credit spreads” for further information).

Yield curves

Major government bond yields decreased further across all maturities in 3Q19.

Source: Datastream, Credit Suisse

Equity markets

Global equity markets ended 3Q19 slightly higher. European banks underperformed world banks.

Performance by region

Source: Datastream, MSCI Barra, Credit Suisse

Performance world banks

Source: Datastream, MSCI Barra, Credit Suisse

Volatility

Source: Datastream, Credit Suisse

The US dollar strengthened against most major currencies in 3Q19. The Swiss franc and the Japanese yen remained fairly stable after a sentiment-led rally in August caused in part by the trade tensions between the US and China. The euro weakened due to continued economic deterioration in the eurozone despite the mitigation of political risks in Italy. In the UK, the uncertainties regarding the expected withdrawal of the UK from the EU continued to have a negative impact on the British pound. Emerging market currencies generally declined against the US dollar and in particular the Argentine peso declined significantly following the primary elections in August.

The Credit Suisse Commodity Benchmark decreased 3.3% in 3Q19. Falling real interest rates contributed to precious metals outperforming the benchmark. The base metals index also posted a positive return despite a challenging economic environment, driven by a surge in nickel prices, which followed the announcement of export policy changes in Indonesia. The energy market was weaker over 3Q19, with supply disruptions in the Middle East contributing to elevated volatility. Agricultural prices declined as a result of favorable summer weather.

Credit spreads

Credit spreads remained low during 3Q19.

³ 9M19 versus 9M18.

Sector environment

Global bank stocks ended 3Q19 1.3% higher compared to 2Q19, outperforming global stocks by 0.6%. European bank stocks ended the quarter 1.7% lower, underperforming North American banks.

In private banking, the industry has experienced a long-term fundamental growth trend fueled by economic growth and a generally supportive investment environment. Financial markets ended 3Q19 mostly positive, despite challenges, including changes to monetary policy by central banks responding to a weaker economic outlook and worry over the threat from greater protectionism among the largest trade partners. In addition, the private banking sector continued to face pressure as it adapts to structural and regulatory changes while pursuing new opportunities and efficiencies arising from digital technology.

In investment banking, equity trading volumes decreased globally and in Europe compared to 2Q19. Compared to 3Q18, equity trading volumes increased globally but decreased in Europe. Announced mergers and acquisitions (M&A) decreased globally compared to 2Q19 and 3Q18. In Europe, announced M&A increased compared to 2Q19 and 3Q18. Completed M&A increased globally and in Europe compared to both 2Q19 and 3Q18. Equity underwriting volumes decreased globally and in Europe compared to 2Q19. Compared to 3Q18, equity underwriting volumes increased globally, but decreased in Europe. Global and European debt underwriting volumes were lower compared to 2Q19, but higher compared to 3Q18. Investment grade syndicated lending decreased compared to 2Q19. The first nine months of 2019 also showed lower investment grade syndicated lending compared to the same period in 2018. Total US fixed income trading volumes were higher compared to 2Q19 and 3Q18, mainly driven by an increase in mortgage-backed volumes and treasury volumes.

Credit Suisse

In 3Q19, we recorded net income attributable to shareholders of CHF 881 million. Return on equity and return on tangible equity were 8.0% and 9.0%, respectively. As of the end of 3Q19, our CET1 ratio was 12.4%.

¹ Represent revenues on a product basis which are not representative of business results within our business segments as segment results utilize financial instruments across various product types.

² Based on tangible shareholders' equity, a non-GAAP financial measure, which is calculated by deducting goodwill and other tangible assets from total shareholders' equity as presented in our balance sheet. Management believes that these metrics are meaningful as they are measures used and relied upon by industry analysts and investors to assess valuations and capital adequacy.

Credit Suisse reporting structure

Credit Suisse includes the results of our reporting segments and the Corporate Center.

Beginning in 2019, the Strategic Resolution Unit has ceased to exist as a separate division of the Group. The residual portfolio remaining as of December 31, 2018 is now managed in an Asset Resolution Unit and is separately disclosed within the Corporate Center. Historical data for the Strategic Resolution Unit prior to January 1, 2019 has not been restated.

Results summary

3Q19 results

In 3Q19, Credit Suisse reported net income attributable to shareholders of CHF 881 million compared to CHF 424 million in 3Q18 and CHF 937 million in 2Q19. In 3Q19, Credit Suisse reported income before taxes of CHF 1,142 million, compared to CHF 671 million in 3Q18 and CHF 1,302 million in 2Q19.

Compared to 2Q19, net revenues decreased 5%, primarily reflecting lower net revenues in Global Markets and Swiss Universal Bank, partially offset by higher net revenues in International Wealth Management. The decrease in Global Markets reflected a seasonal slowdown in trading client activity and lower revenues in underwriting. The decrease in Swiss Universal Bank mainly reflected lower transaction-based revenues. The increase in International Wealth Management was primarily driven by the gain related to the transfer of the InvestLab fund platform, partially offset by lower transaction- and performance-based revenues.

Results details

Net revenues

In 3Q19, we reported net revenues of CHF 5,326 million, which increased 9% compared to 3Q18, primarily reflecting higher net revenues in Global Markets and International Wealth Management, partially offset by lower net revenues in Investment Banking & Capital Markets. The increase in Global Markets was driven by strong trading activity, particularly in fixed income, reflecting continued investor demand for yield products, and reduced funding costs. The increase in International Wealth Management mainly reflected a gain related to the transfer of the Credit Suisse InvestLab AG (InvestLab) fund platform to Allfunds Group in Private Banking (as described below) and higher transaction- and performance-based revenues. The decrease in Investment Banking & Capital Markets was across its advisory and underwriting businesses in a quarter characterized by volatility and macroeconomic uncertainty.

3Q19 included negative net revenues of CHF 278 million in the Corporate Center, which beginning in 1Q19 included the impact of the Asset Resolution Unit.

Provision for credit losses

In 3Q19, provision for credit losses was CHF 72 million, primarily related to net provisions of CHF 28 million in Swiss Universal Bank, CHF 19 million in Asia Pacific, CHF 14 million in International Wealth Management and CHF 11 million in Investment Banking & Capital Markets.

Total operating expenses

In 2018, we completed our Group-wide three-year restructuring plan. During its term, operating expenses relating to the restructuring plan were disclosed separately, in line with the disclosure requirements for such a program.

Compared to 3Q18, total operating expenses of CHF 4,112 million were stable, primarily reflecting an 8% increase in general and administrative expenses, primarily related to IT, machinery and equipment, provisions and losses and occupancy expenses and a 14% increase in commission expenses, offset by restructuring expenses incurred in 3Q18.

Compared to 2Q19, total operating expenses decreased 3%, primarily reflecting a 6% decrease in compensation and benefits, mainly relating to lower salaries and variable compensation.

Income tax expense

In 3Q19, income tax expense of CHF 256 million mainly reflected the impact of the continuous reassessment of the estimated annual effective tax rate, which was impacted by the geographical mix of results and non-deductible funding costs. Additionally, 3Q19 was positively impacted by the transfer of the InvestLab fund platform to Allfunds Group and agreements reached with tax authorities. The Credit Suisse effective tax rate was 22.4% in 3Q19 compared to 28.0% in 2Q19. Overall, net deferred tax assets decreased CHF 175 million to CHF 3,968 million during 3Q19, mainly driven by earnings and pension liabilities, partially offset by foreign exchange impacts and own credit movements. Deferred tax assets on net operating losses decreased CHF 273 million to CHF 1,405 million during 3Q19.

The US tax reform enacted on December 22, 2017 introduced the US base erosion and anti-abuse tax (BEAT), effective as of January 1, 2018. On the basis of the current analysis of the

BEAT tax regime, following the draft regulations issued by the US Department of Treasury on December 13, 2018, Credit Suisse considers it as more likely than not that the Group will be subject to this regime in 2019, with an expected impact on the group tax rate similar to 2018. The finalization of the US BEAT regulations is expected to occur before the end of 2019, at which point the above BEAT positions for the tax years 2018 and 2019 will need to be re-assessed.

Prospectively, additional tax regulations of the US tax reform may also impact Credit Suisse.

Regulatory capital

As of the end of 3Q19, our Bank for International Settlements (BIS) common equity tier 1 (CET1) ratio was 12.4% and our risk-weighted assets were CHF 302.1 billion.

→ Refer to "Capital management" in II – Treasury, risk, balance sheet and off-balance sheet for further information on regulatory capital.

Reconciliation of adjusted results

Adjusted results referred to in this document are non-GAAP financial measures that exclude certain items included in our reported results. During the implementation of our strategy, it was important to measure the progress achieved by our underlying business performance. Management believes that adjusted results provide a useful presentation of our operating results for purposes of assessing our Group and divisional performance consistently over time, on a basis that excludes items that management does not consider representative of our underlying performance. Provided below is a reconciliation of our adjusted results to the most directly comparable US GAAP measures. The Group completed its three-year restructuring plan outlined in 2015 at the end of 2018. Any subsequent expenses incurred such as severance payments or charges in relation to the termination of real estate contracts are recorded as ordinary compensation or other expenses in our reported results and are no longer excluded from adjusted results.

Employees and other headcount

In 2Q19, as part of a review of headcount allocation keys, we recalibrated the divisional allocations for corporate function services mainly relating to the wind-down of the Strategic Resolution Unit and changes in the utilization of corporate function services by the divisions. Prior period headcount allocations have not been restated.

There were 47,440 Group employees as of the end of 3Q19, a net increase of 1,080 compared to 2Q19, primarily reflecting increases in Global Markets, International Wealth Management and Swiss Universal Bank. The number of outsourced roles, contractors and consultants increased by 330 compared to 2Q19.

Employees and other headcount

¹ Beginning in 2019, the Strategic Resolution Unit has ceased to exist as a separate division of the Group.

² Excludes the headcount of certain managed service resources which are related to fixed fee projects.

Other information

Format of presentation

In managing our business, revenues are evaluated in the aggregate, including an assessment of trading gains and losses and the related interest income and expense from financing and hedging positions. For this reason, specific individual revenue categories in isolation may not be indicative of performance.

Certain reclassifications have been made to prior periods to conform to the current presentation.

Return on regulatory capital

Credit Suisse measures firm-wide returns against total shareholders' equity and tangible shareholders' equity (a non-GAAP financial measure). In addition, it also measures the efficiency of the firm and its divisions with regard to the usage of capital

as determined by the minimum requirements set by regulators. This regulatory capital is calculated as the worst of 10% of risk-weighted assets and 3.5% of leverage exposure. Return on regulatory capital (a non-GAAP financial measure) is calculated using income/(loss) after tax and assumes a tax rate of 30% and capital allocated based on the worst of 10% of average risk-weighted assets and 3.5% of average leverage exposure. These percentages are used in the calculation in order to reflect the 2019 fully phased in Swiss regulatory minimum requirements for Basel III CET1 capital and leverage ratio. For Global Markets and Investment Banking & Capital Markets, return on regulatory capital is based on US dollar denominated numbers. Adjusted return on regulatory capital is calculated using adjusted results, applying the same methodology used to calculate return on regulatory capital.

End of / in 3Q19 (CHF billion)			
Shareholders' equity			45.2
Return on equity	8.0%		
Tangible shareholders' equity		40.2	5.0
Return on tangible equity	9.0%		
Regulatory capital		32.2	8.0
Return on regulatory capital	10.0%		

Management changes

Effective October 1, 2019, James B. Walker was appointed to the Executive Board as Chief Operating Officer (COO). Pierre-Olivier Bouée stepped down from the Executive Board and his position as COO.

Presentation currency

In February 2019, as part of the publication of our 4Q18 results, the Group announced that it was considering changing its reporting currency from Swiss francs to US dollars. Following the completion of the review of this potential change, we announced in October 2019 that the Board of Directors of the Group decided that the Group will continue to report its financial results in Swiss francs.

As part of the review, the Board of Directors also concluded it would be preferable to align capital usage, as far as possible, to the predominant currency in which relevant risks originate. This decision will result in the calculation of the Group's risk-weighted assets relating to operational risk in US dollars rather than Swiss francs. This change has been approved by the Swiss Financial Market Supervisory Authority FINMA (FINMA) and will be implemented in 4Q19, increasing the proportion of the Group's CET1 capital that is hedged into US dollars. In addition to better aligning the Group's capital usage to the underlying currency of its risks, this change is expected to result in an increase in the Group's annual net interest income, with an initial contribution expected in 4Q19.

Credit Suisse InvestLab AG

In September 2019, we completed the first closing of the transfer announced in June 2019, which combined our open architecture investment fund platform, Credit Suisse InvestLab AG (InvestLab), with Allfunds Group. The transaction included the transfer of the InvestLab legal entity and its related employees and service agreements. The subsequent transfer of the related distribution agreements is expected to be completed in 1Q20.

Net revenues in 3Q19 included CHF 327 million from this first closing as reflected in the Swiss Universal Bank, International Wealth Management and Asia Pacific divisions.

→ Refer to "Note 3 – Business developments and subsequent events" in III – Condensed consolidated financial statements – unaudited for further information.

Fair valuations

Fair value can be a relevant measurement for financial instruments when it aligns the accounting for these instruments with how we manage our business. The levels of the fair value hierarchy as defined by the relevant accounting guidance are not a measurement of economic risk, but rather an indication of the observability of prices or valuation inputs.

As of the end of 3Q19, 39% and 25% of our total assets and total liabilities, respectively, were measured at fair value.

The majority of our level 3 assets are recorded in our investment banking businesses. As of the end of 3Q19, total assets at fair value recorded as level 3 increased CHF 1.3 billion to CHF 16.4 billion compared to the end of 2Q19, primarily reflecting net purchases, mainly in trading assets, other investments and other assets, primarily loans held-for-sale.

As of the end of 3Q19, our level 3 assets comprised 2% of total assets and 5% of total assets measured at fair value, stable compared to the end of 2Q19.

We believe that the range of any valuation uncertainty, in the aggregate, would not be material to our financial condition; however, it may be material to our operating results for any particular period, depending, in part, upon the operating results for such period.

→ Refer to "Fair valuations" in II – Operating and financial review – Credit Suisse in the Credit Suisse Annual Report 2018 and "Note 31 – Financial instruments" in III – Condensed consolidated financial statements – unaudited for further information.

Regulatory developments and proposals

Government leaders and regulators continued to focus on reform of the financial services industry, including capital, leverage and liquidity requirements, changes in compensation practices and systemic risk.

On September 19, 2019, the US Securities and Exchange Commission (SEC) adopted rules establishing recordkeeping and financial reporting requirements for security-based swap dealers. These rules are generally based on the SEC's parallel requirements for securities broker-dealers, although in certain instances they may be satisfied through compliance with comparable foreign rules. We expect these rules to apply to our US OTC derivatives dealer, Credit Suisse Capital LLC, and our UK derivatives dealer entities, Credit Suisse Securities Europe Limited (CSSEL) and Credit Suisse International (CSI). If CSSEL or CSI cannot rely on compliance with UK or EU rules, especially in relation to financial reporting requirements, then the costs of satisfying these requirements could require us to restructure the way we trade derivatives with US counterparties. These requirements, as well as other SEC rules applicable to security-based swap dealers, will take effect 18 months after the SEC finalizes a May 2019 proposal addressing the cross-border application of certain security-based swap dealer requirements.

On September 20, 2019, Switzerland and the United States exchanged instruments of ratification for the 2009 protocol (the Protocol) amending the double taxation agreement regarding income tax between Switzerland and the United States. The Protocol had been previously approved by the Swiss Federal Assembly on June 18, 2010 and by the US Senate on July 17, 2019. With the ratification, the Protocol formally entered into force.

In September and October 2019, the five federal agencies responsible for administration of the so called "Volcker Rule" finalized amendments to simplify and tailor the Volcker Rule, including increased flexibility for foreign banking organizations to engage in trading outside the United States, a simplification of compliance program requirements, and a more flexible approach to underwriting, market-making, and risk-mitigating hedging activities, including with respect to covered fund interests. The revised rule will become effective January 1, 2020, with compliance required by January 1, 2021. These amendments to the Volcker Rule are intended to streamline existing requirements and result in a more workable rule. However, we remain in the most stringent category of compliance requirements, and in the short term the changes may result in increased operational and compliance costs as we adapt to the revised requirements. The Volcker Rule is highly complex and is expected to be subject to further rulemaking, regulatory interpretation and guidance, and its full impact will not be known with certainty for some time.

On October 10, 2019, the Board of Governors of the Federal Reserve System (Fed) and the Federal Deposit Insurance Corporation finalized a rule to provide relief from the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act) requirement that large foreign banking organizations (FBOs) file annual resolution plans describing the strategy for rapid and orderly resolution under the US Bankruptcy Code. Under the final rule, our combined US operations are permitted to file a resolution plan every three years, instead of annually, alternating between a full resolution plan and a less extensive targeted resolution plan that will focus on capital, liquidity and material changes from the previous full plan. We are required to submit a targeted resolution plan by July 1,

2021, with our next submission of a full plan by July 1, 2024. We will also respond to the feedback provided on our 2018 plan by July 1, 2020.

On October 10, 2019, the Fed finalized rules to categorize the US operations of large FBOs based on size, complexity and risk for purposes of tailoring the application of the US enhanced prudential standards. Based on the Fed's projected categorizations, the rules will subject our US intermediate holding company (IHC) for the first time to the US liquidity coverage ratio and will increase the stringency of the US single counterparty credit limits (SCCL) applicable to our US IHC. However, the rules will provide modest relief for our US IHC from certain capital and stress testing requirements and provide us with the option to comply with other simplifications to capital requirements. Among other changes, the finalized rules remove the mid-cycle company-run Dodd Frank stress test (DFAST) requirement, and based on the Fed's projected categorizations, would require our US IHC to conduct its company-run DFAST once every two years, rather than annually. Our US IHC would continue to be subject to an annual internal stress test as part of the Comprehensive Capital Analysis and Review (CCAR) exercise. While we expect the rules to moderately reduce compliance costs related to stress testing, the rules will also require new

and additional regulatory reporting and related internal systems and result in increased operational and compliance costs to meet newly applicable liquidity requirements and the revised SCCL. Compliance and regulatory reporting will be phased in through 2020 and into early 2021, with longer timeframes related to the newly applicable liquidity requirements and the revised SCCL. The enhanced prudential standards are highly complex and may be subject to further rulemaking, regulatory interpretation and guidance. We continue to evaluate the potential impact of the final rules on our operations.

Based on the conditional non-objection we received in June 2019 from the Fed on our 2019 CCAR submission, we were required to address the identified weaknesses in our capital adequacy planning process regarding the assumptions used to project stressed trading losses by October 27, 2019. We have established plans and taken actions that we believe address the identified weaknesses, and we made a timely submission of our response. If the Fed determines that we have not sufficiently addressed the identified weaknesses, it may object to our capital plan.

→ Refer to "Regulation and supervision" in I – Information on the company in the Credit Suisse Annual Report 2018 for further information and "Regulatory framework" and "Regulatory developments and proposals" in II – Treasury, risk, balance sheet and off-balance sheet – Liquidity and funding management and Capital management, respectively, for further information.

Swiss Universal Bank

In 3Q19, we reported income before taxes of CHF 607 million and net revenues of CHF 1,417 million. Income before taxes increased 19% compared to 3Q18 and decreased 7% compared to 2Q19.

Results summary

3Q19 results

In 3Q19, income before taxes of CHF 607 million increased 19% compared to 3Q18. Net revenues of CHF 1,417 million increased 6%, mainly reflecting a gain of CHF 98 million related to the transfer of the InvestLab fund platform to Allfunds Group in Corporate & Institutional Clients, partially offset by slightly lower net interest income. Provision for credit losses was CHF 28 million compared to CHF 31 million in 3Q18. Total operating expenses of CHF 782 million decreased slightly, mainly reflecting restructuring expenses incurred in 3Q18 and lower general and administrative expenses, partially offset by slightly higher compensation and benefits.

Compared to 2Q19, income before taxes decreased 7%. Net revenues decreased 4%, mainly reflecting lower transaction-based revenues. Provision for credit losses was CHF 28 million compared to CHF 10 million in 2Q19. Total operating expenses decreased 4%, mainly reflecting lower general and administrative expenses and slightly lower compensation and benefits.

Capital and leverage metrics

As of the end of 3Q19, we reported risk-weighted assets of CHF 78.8 billion, slightly higher compared to the end of 2Q19, primarily driven by movements in risk levels and by external model and parameter updates, mainly reflecting the phase-in of the Swiss mortgage multipliers. Leverage exposure of CHF 263.5 billion was CHF 2.4 billion higher compared to the end of 2Q19, mainly driven by business growth.

Net interest income includes a term spread credit on stable deposit funding and a term spread charge on loans. Recurring commissions and fees includes investment product management, discretionary mandate and other asset management-related fees, fees for general banking products and services and revenues from wealth structuring solutions. Transaction-based revenues arise primarily from brokerage fees, fees from foreign exchange client transactions, trading and sales income, equity participations income and other transaction-based income. Other revenues include fair value gains/(losses) on synthetic securitized loan portfolios and other gains and losses.

Private Clients

Results details

In 3Q19, income before taxes of CHF 251 million was stable compared to 3Q18, primarily driven by lower total operating expenses offset by slightly lower net revenues. Compared to 2Q19, income before taxes decreased 29%, mainly due to lower net revenues.

Net revenues

Compared to 3Q18, net revenues of CHF 715 million decreased slightly, mainly reflecting a gain on the sale of real estate of CHF 15 million reflected in other revenues in 3Q18. Net interest income of CHF 413 million was stable, with lower deposit margins on slightly higher average deposit volumes, offset by stable loan margins on slightly higher average loan volumes. Recurring commissions and fees of CHF 213 million were slightly higher, primarily reflecting increased banking services fees. Transaction-based revenues of CHF 90 million increased slightly, driven by higher client activity.

Compared to 2Q19, net revenues decreased 14%, mainly reflecting gains on the sale of real estate of CHF 87 million reflected in other revenues in 2Q19 and lower transaction-based revenues, partially offset by higher recurring commissions and fees. Transaction-based revenues were 25% lower, mainly due to lower equity participations income which included the regular and the special dividend from our ownership interest in SIX Group totaling CHF 17 million in 2Q19. Recurring commissions and fees increased 5%, mainly reflecting higher banking services fees and higher wealth structuring solution fees. Net interest income was stable, with lower deposit margins on stable average deposit volumes and lower treasury revenues, offset by stable loan margins on stable average loan volumes.

Provision for credit losses

The Private Clients loan portfolio is substantially comprised of residential mortgages in Switzerland and loans collateralized by securities and, to a lesser extent, consumer finance loans.

In 3Q19, Private Clients recorded provision for credit losses of CHF 14 million compared to provision for credit losses of CHF 13 million in 3Q18 and CHF 10 million in 2Q19. The provisions were primarily related to our consumer finance business.

Total operating expenses

Compared to 3Q18, total operating expenses of CHF 450 million decreased 4%, mainly reflecting restructuring expenses incurred in 3Q18 and lower general and administrative expenses, partially offset by slightly higher compensation and benefits. General and administrative expenses of CHF 154 million decreased 5%, primarily reflecting lower professional services fees. Compensation and benefits of CHF 268 million increased slightly, driven by higher pension expenses and slightly higher salary expenses, partially offset by lower discretionary compensation expenses.

Compared to 2Q19, total operating expenses decreased slightly, mainly reflecting lower general and administrative expenses and slightly lower compensation and benefits. General and administrative expenses decreased 5%, mainly reflecting lower allocated corporate function costs, partially offset by higher advertising and marketing expenses. Compensation and benefits were slightly lower, mainly reflecting lower discretionary compensation expenses.

Margins

Our **gross margin** was 133 basis points in 3Q19, a decrease of six basis points compared to 3Q18, primarily due to slightly higher average assets under management and the gain on the sale of real estate in 3Q18. Compared to 2Q19, our gross margin was

23 basis points lower, mainly reflecting the gains on the sale of real estate in 2Q19 and lower transaction-based revenues on stable average assets under management.

→ Refer to "Assets under management" for further information.

Our **net margin** was 47 basis points in 3Q19, a decrease of one basis point compared to 3Q18, primarily reflecting slightly lower net revenues and slightly higher average assets under management, partially offset by lower total operating expenses. Compared to 2Q19, our net margin was 20 basis points lower, primarily reflecting lower net revenues on stable average assets under management.

Assets under management

As of the end of 3Q19, assets under management of CHF 214.2 billion were CHF 0.5 billion lower compared to the end of 2Q19, mainly due to net asset outflows, partially offset by favorable market movements. Net asset outflows of CHF 0.6 billion were primarily due to outflows from a small number of individual cases in the ultra-high-net-worth client segment and also reflected our disciplined approach to protect profitability in a sustained negative interest rate environment.

Corporate & Institutional Clients

Results details

In 3Q19, income before taxes of CHF 356 million increased 36% compared to 3Q18, mainly reflecting higher net revenues. Compared to 2Q19, income before taxes increased 19%, driven by higher net revenues and lower total operating expenses, partially offset by higher provision for credit losses.

Net revenues

Compared to 3Q18, net revenues of CHF 702 million increased 15%, driven by the gain of CHF 98 million related to the transfer of the InvestLab fund platform reflected in other revenues. Transaction-based revenues of CHF 160 million increased slightly, with higher revenues from International Trading Solutions (ITS), partially offset by lower revenues from our Swiss investment banking business and lower fees from foreign exchange client business. Recurring commissions and fees of CHF 165 million decreased 4%, mainly due to lower banking services fees and lower fees from lending activities. Net interest income of CHF 290 million decreased slightly, with lower deposit margins on stable average deposit volumes and lower treasury revenues, partially offset by slightly higher loan margins on stable average loan volumes.

Compared to 2Q19, net revenues increased 8%, mainly reflecting the gain related to the transfer of the InvestLab fund platform, partially offset by lower transaction-based revenues and lower net interest income. Transaction-based revenues decreased 18%, mainly due to lower equity participations income which included the regular and the special dividend from SIX Group totaling CHF 18 million in 2Q19, lower revenues from ITS and lower corporate advisory fees. Net interest income decreased 4%, with lower deposit margins on stable average deposit volumes and higher loan margins on stable average loan volumes. Recurring commissions and fees were stable, with higher fees from lending activities and higher investment product management fees, offset by lower wealth structuring solution fees.

Provision for credit losses

The Corporate & Institutional Clients loan portfolio has relatively low concentrations and is mainly secured by real estate, securities and other financial collateral.

In 3Q19, Corporate & Institutional Clients recorded provision for credit losses of CHF 14 million compared to provision for credit losses of CHF 18 million in 3Q18 and zero in 2Q19.

Total operating expenses

Compared to 3Q18, total operating expenses of CHF 332 million were stable, primarily driven by higher compensation and benefits offset by restructuring expenses incurred in 3Q18. Compensation and benefits of CHF 209 million increased 5%, mainly due to higher deferred compensation expenses from prior-year awards and higher allocated corporate function costs, partially offset by lower discretionary compensation expenses. General and administrative expenses of CHF 91 million decreased 5%, primarily reflecting lower allocated corporate function costs.

Compared to 2Q19, total operating expenses decreased 5%, primarily reflecting lower general and administrative expenses and slightly lower compensation and benefits. General and administrative expenses decreased 16%, mainly reflecting lower allocated corporate function costs and lower litigation provisions. Compensation and benefits were slightly lower, primarily due to lower discretionary compensation expenses.

Assets under management

As of the end of 3Q19, assets under management of CHF 424.6 billion were CHF 13.9 billion higher compared to the end of 2Q19, mainly driven by favorable market movements and net new assets. Net new assets of CHF 6.3 billion primarily reflected inflows from our pension business.

International Wealth Management

In 3Q19, we reported income before taxes of CHF 539 million and net revenues of CHF 1,461 million. Income before taxes increased 43% compared to 3Q18 and 21% compared to 2Q19.

Results summary

3Q19 results

In 3Q19, income before taxes of CHF 539 million increased 43% compared to 3Q18. Net revenues of CHF 1,461 million were 15% higher, mainly reflecting a gain of CHF 131 million related to the transfer of the InvestLab fund platform to Allfunds Group in Private Banking and higher transaction- and performance-based revenues. Provision for credit losses was CHF 14 million compared to CHF 15 million in 3Q18. Total operating expenses increased 4%, mainly reflecting higher compensation and benefits and higher general and administrative expenses. 3Q18 included restructuring expenses of CHF 28 million.

Compared to 2Q19, income before taxes increased 21%. Net revenues were 7% higher, primarily driven by the gain related

to the transfer of the InvestLab fund platform, partially offset by lower transaction- and performance-based revenues. Provision for credit losses was CHF 14 million compared to CHF 9 million in 2Q19. Total operating expenses were stable, with lower general and administrative expenses offset by slightly higher compensation and benefits.

Capital and leverage metrics

As of the end of 3Q19, we reported risk-weighted assets of CHF 44.5 billion, slightly higher compared to the end of 2Q19, primarily driven by movements in risk levels and a foreign exchange impact. Leverage exposure of CHF 103.0 billion increased slightly compared to the end of 2Q19, mainly driven by business growth, partially offset by lower high-quality liquid assets (HQLA).

Private Banking

Results details

In 3Q19, income before taxes of CHF 428 million increased 49% compared to 3Q18, mainly reflecting higher net revenues, partially offset by slightly higher total operating expenses. Compared to 2Q19, income before taxes was 26% higher, primarily driven by higher net revenues and slightly lower total operating expenses.

Net revenues

Compared to 3Q18, net revenues of CHF 1,066 million increased 17%, mainly reflecting the gain of CHF 131 million related to the transfer of the InvestLab fund platform reflected in other revenues and higher transaction- and performance-based revenues. Transaction- and performance-based revenues of CHF 256 million increased 12%, primarily driven by higher revenues from ITS, higher client activity and higher corporate advisory fees related to integrated solutions. Net interest income of CHF 378 million was stable with lower treasury revenues and stable deposit margins on lower average deposit volumes, offset by slightly lower loan margins on higher average loan volumes. Recurring commissions and fees of CHF 301 million were stable, mainly reflecting lower discretionary mandate management fees, offset by higher fees from lending activities.

Compared to 2Q19, net revenues increased 8%, mainly driven by the gain related to the transfer of the InvestLab fund platform, partially offset by lower transaction- and performance-based revenues. Transaction- and performance-based revenues decreased 17%, primarily as 2Q19 included the regular and special dividend from SIX Group totaling CHF 22 million, and also reflecting lower performance fees, seasonally lower client activity and decreased revenues from ITS. Net interest income and recurring commissions and fees were slightly higher.

Provision for credit losses

In 3Q19, provision for credit losses was CHF 15 million, compared to CHF 15 million in 3Q18 and CHF 7 million in 2Q19.

Net interest income includes a term spread credit on stable deposit funding and a term spread charge on loans. Recurring commissions and fees includes investment product management, discretionary mandate and other asset management-related fees, fees for general banking products and services and revenues from wealth structuring solutions. Transaction- and performance-based revenues arise primarily from brokerage and product issuing fees, fees from foreign exchange client transactions, trading and sales income, equity participations income and other transaction- and performance-based income.

¹ Net revenues divided by average assets under management.

² Income before taxes divided by average assets under management.

Total operating expenses

Compared to 3Q18, total operating expenses of CHF 623 million increased slightly, mainly reflecting higher general and administrative expenses and slightly higher compensation and benefits. 3Q18 included restructuring expenses of CHF 21 million. General and administrative expenses of CHF 166 million were 12% higher, mainly reflecting a release of litigation provisions in 3Q18 and higher professional services fees in 3Q19. Compensation and benefits of CHF 417 million increased slightly, mainly driven by higher deferred compensation expenses from prior-year awards and higher salary expenses, primarily reflecting an increase in the number of relationship managers. These increases were partially offset by lower discretionary compensation expenses.

Compared to 2Q19, total operating expenses decreased slightly, mainly reflecting lower general and administrative expenses. General and administrative expenses were 9% lower, reflecting decreases across various expense categories including lower allocated corporate function costs. Compensation and benefits were stable, mainly reflecting lower social security expenses and lower deferred compensation expenses from prior-year awards, offset by higher discretionary compensation expenses.

Margins

Our **gross margin** was 117 basis points in 3Q19, an increase of 18 basis points compared to 3Q18, mainly reflecting the gain related to the transfer of the InvestLab fund platform in other revenues and higher transaction- and performance-based revenues on stable average assets under management. Compared to 2Q19, our gross margin was eight basis points higher, primarily driven by the gain related to the transfer of the InvestLab fund platform, partially offset by lower transaction- and performance-based revenues on stable average assets under management. Excluding the gain related to the transfer of the InvestLab fund platform, our gross margin would have been 103 basis points in 3Q19.

→ Refer to "Assets under management" for further information.

Our **net margin** was 47 basis points in 3Q19, an increase of 16 basis points compared to 3Q18, mainly reflecting higher net revenues on stable average assets under management. Our net margin was ten basis points higher compared to 2Q19, mainly reflecting higher net revenues and slightly lower total operating expenses on stable average assets under management. Excluding the gain related to the transfer of the InvestLab fund platform, our net margin would have been 33 basis points in 3Q19.

Assets under management

As of the end of 3Q19, assets under management of CHF 365.2 billion were CHF 2.1 billion higher compared to the end of 2Q19, driven by net new assets and favorable market movements, partially offset by unfavorable foreign exchange-related movements. Net new assets of CHF 3.6 billion mainly reflected inflows from emerging markets, partially offset by outflows in Europe.

Asset Management

Results details

Income before taxes of CHF 111 million increased 22% and 7% compared to 3Q18 and 2Q19, respectively, in each case reflecting higher net revenues, partially offset by higher total operating expenses.

Net revenues

Compared to 3Q18, net revenues of CHF 395 million were 12% higher, mainly reflecting significantly higher performance and placement revenues and higher management fees, partially offset by lower investment and partnership income. Performance and placement revenues of CHF 87 million increased CHF 56 million, mainly driven by a sale of a private equity investment of a fund and higher placement fees. Management fees of CHF 282 million

were CHF 11 million higher, mainly driven by higher average assets under management. Investment and partnership income decreased CHF 24 million to CHF 26 million, mainly driven by lower private equity income and lower revenues from a single manager hedge fund.

Compared to 2Q19, net revenues were 4% higher, reflecting significantly higher performance and placement revenues, partially offset by lower investment and partnership income. Performance and placement revenues were CHF 57 million higher primarily driven by the sale of a private equity investment of a fund and higher placement fees. Investment and partnership income decreased CHF 40 million, mainly as 2Q19 included a gain on a partial sale of an economic interest in a third-party manager relating to a private equity investment. Management fees were stable.

Management fees include fees on assets under management, asset administration revenues and transaction fees related to the acquisition and disposal of investments in the funds being managed. Performance revenues relate to the performance or return of the funds being managed and includes investment-related gains and losses from proprietary funds. Placement revenues arise from our third-party private equity fundraising activities and secondary private equity market advisory services. Investment and partnership income includes equity participation income from seed capital returns and from minority investments in third-party asset managers, income from strategic partnerships and distribution agreements, and other revenues.

Total operating expenses

Compared to 3Q18, total operating expenses of CHF 285 million were 9% higher, mainly reflecting higher compensation and benefits. 3Q18 included restructuring expenses of CHF 7 million. Compensation and benefits of CHF 180 million were 29% higher, primarily driven by higher salary expenses, mainly related to the sale of a private equity investment of a fund, and higher discretionary compensation expenses. General and administrative expenses of CHF 89 million decreased 5%, reflecting decreases across various expense categories.

Compared to 2Q19, total operating expenses increased 4%, mainly reflecting higher compensation and benefits, partially offset by lower general and administrative expenses. Compensation and benefits increased 13%, primarily driven by the higher salary

expenses, mainly related to the sale of a private equity investment of a fund, and higher deferred compensation expenses from prior-year awards. General and administrative expenses were 8% lower, reflecting decreases across various expense categories.

Assets under management

As of the end of 3Q19, assets under management of CHF 426.0 billion were CHF 12.0 billion higher compared to the end of 2Q19, mainly reflecting net new assets and favorable market movements. Net new assets of CHF 5.9 billion mainly reflected inflows from traditional and alternative investments, partially offset by outflows from emerging market joint ventures.

Asia Pacific

In 3Q19, we reported income before taxes of CHF 247 million and net revenues of CHF 886 million. Income before taxes increased 40% compared to 3Q18 and increased 4% compared to 2Q19.

Results summary

3Q19 results

In 3Q19, income before taxes of CHF 247 million increased 40% compared to 3Q18. Net revenues of CHF 886 million increased 9%, mainly reflecting a gain of CHF 98 million related to the transfer of the InvestLab fund platform to Allfunds Group in our Wealth Management & Connected business, partially offset by lower revenues in our Markets business across all major revenue categories. Total operating expenses of CHF 620 million were stable, mainly reflecting lower compensation and benefits and restructuring expenses incurred in 3Q18 offset by higher general and administrative expenses.

Compared to 2Q19, income before taxes increased 4%. Net revenues decreased slightly, driven by lower revenues in our Markets

business, mainly reflecting lower fixed income sales and trading revenues, largely offset by higher revenues in our Wealth Management & Connected business due to higher revenues in Private Banking. Total operating expenses decreased 8%, mainly due to lower compensation and benefits.

Capital and leverage metrics

As of the end of 3Q19, we reported risk-weighted assets of CHF 38.8 billion, an increase of CHF 1.7 billion compared to the end of 2Q19, primarily as a result of a regular update to the stressed window calibration and a foreign exchange impact. Leverage exposure was CHF 117.2 billion, an increase of CHF 5.1 billion compared to the end of 2Q19, mainly driven by a foreign exchange impact, higher business usage in Markets and higher lending activity in Wealth Management & Connected, partially offset by lower HQLA.

Wealth Management & Connected

Results details

Income before taxes of CHF 281 million increased 56% compared to 3Q18, mainly reflecting higher net revenues partially offset by higher provision for credit losses. Compared to 2Q19, income before taxes increased 30%, reflecting higher net revenues and lower total operating expenses, partially offset by higher provision for credit losses.

Net revenues

Net revenues of CHF 673 million increased 21% compared to 3Q18, due to higher Private Banking revenues, driven by the

gain of CHF 98 million related to the transfer of the Invest-Lab fund platform reflected in other revenues, partially offset by lower advisory, underwriting and financing revenues. Net interest income increased 15% to CHF 179 million, mainly reflecting higher treasury revenues, partially offset by lower loan margins on stable average loan volumes. Transaction-based revenues increased 19% to CHF 152 million, primarily reflecting higher client activity. Recurring commissions and fees were stable, mainly reflecting higher banking services fees offset by lower fees from lending activities. Advisory, underwriting and financing revenues decreased 18% to CHF 139 million, primarily due to lower fees from M&A transactions and lower equity underwriting revenues.

Net interest income includes a term spread credit on stable deposit funding and a term spread charge on loans. Recurring commissions and fees includes investment product management, discretionary mandate and other asset management-related fees, fees for general banking products and services and revenues from wealth structuring solutions. Transaction-based revenues arise primarily from brokerage and product issuing fees, fees from foreign exchange client transactions, trading and sales income, equity participations income and other transaction-based income.

¹ Net revenues divided by average assets under management.

² Income before taxes divided by average assets under management.

Compared to 2Q19, net revenues increased 10%, mainly reflecting the gain related to the transfer of the InvestLab fund platform and higher net interest income, partially offset by lower advisory, underwriting and financing revenues and lower transaction-based revenues. Net interest income increased 7%, mainly reflecting higher treasury revenues and higher deposit margins on slightly lower average deposit volumes. Recurring commissions and fees were stable, mainly reflecting higher banking services fees offset by lower investment product management fees. Advisory, underwriting and financing revenues decreased 21%, primarily due to lower fees from M&A transactions and lower equity underwriting revenues, partially offset by higher financing revenues. Transaction-based revenues decreased 7%, primarily reflecting lower brokerage and product issuing fees.

Provision for credit losses

The Wealth Management & Connected loan portfolio primarily comprises Private Banking lombard loans, mainly backed by listed securities, and secured and unsecured loans to corporates.

In 3Q19, Wealth Management & Connected recorded a provision for credit losses of CHF 20 million, compared to a provision of credit losses of CHF 1 million in 3Q18 and CHF 6 million in 2Q19. The provision for credit losses in 3Q19 included the final provision relating to the default of an Indian infrastructure development company.

Total operating expenses

Total operating expenses of CHF 372 million were stable compared to 3Q18, mainly reflecting lower compensation and benefits offset by higher general and administrative expenses. Compensation and benefits decreased 5% to CHF 249 million, mainly reflecting lower discretionary compensation expenses, partially offset by higher allocated corporate function costs. General and administrative expenses increased 10% to CHF 109 million primarily due to higher allocated corporate function costs.

Compared to 2Q19, total operating expenses decreased 5%, primarily reflecting lower compensation and benefits. Compensation and benefits decreased 6%, primarily driven by lower deferred compensation expenses from prior-year awards and lower

discretionary compensation expenses. General and administrative expenses decreased 4%, mainly due to lower allocated corporate function costs.

Margins

Margin calculations are aligned with the performance metrics of our Private Banking business and its related assets under management within the Wealth Management & Connected business.

Our **gross margin** was 97 basis points in 3Q19, 21 basis points higher compared to 3Q18, mainly reflecting the gain related to the transfer of the InvestLab fund platform, higher net interest income and higher transaction-based revenues, partially offset by a 7.4% increase in average assets under management. Compared to 2Q19, our gross margin was 18 basis points higher, primarily reflecting the transfer of the InvestLab fund platform. Excluding the gain related to the transfer of the InvestLab fund platform, our gross margin would have been 79 basis points in 3Q19.

→ Refer to "Assets under management" for further information.

Our **net margin** was 50 basis points in 3Q19, 24 basis points higher compared to 3Q18, mainly reflecting higher net revenues, partially offset by the increase in average assets under management. Compared to 2Q19, our net margin was 20 basis points higher, mainly reflecting higher net revenues. Excluding the gain related to the transfer of the InvestLab fund platform, our net margin would have been 32 basis points in 3Q19.

Assets under management

Assets under management and net new assets relate to our Private Banking business within the Wealth Management & Connected business. As of the end of 3Q19, assets under management of CHF 222.4 billion were CHF 3.7 billion higher compared to the end of 2Q19, reflecting favorable foreign exchange-related movements and net new assets of CHF 2.6 billion, partially offset by unfavorable market movements. Net new assets primarily reflected inflows from Greater China.

Markets

Results details

Loss before taxes of CHF 34 million in 3Q19 increased compared to a loss before taxes of CHF 4 million in 3Q18, mainly reflecting lower net revenues, partially offset by a release of provision for credit losses in 3Q19. Compared to 2Q19, the decrease in income before taxes primarily reflected lower net revenues, partially offset by lower total operating expenses.

Net revenues

Net revenues of CHF 213 million decreased 16% compared to 3Q18, reflecting lower equity and fixed income sales and trading revenues. Equity sales and trading revenues decreased 10% to

CHF 195 million, mainly due to lower revenues from equity derivatives, prime services and cash equities. Fixed income sales and trading revenues decreased 51% to CHF 18 million, mainly due to lower revenues from credit products and structured products.

Compared to 2Q19, net revenues decreased 29%, reflecting lower fixed income and equity sales and trading revenues. Fixed income sales and trading revenues decreased 79%, mainly driven by lower revenues from credit products, emerging market rates products and structured products. Equity sales and trading revenues decreased 8%, mainly due to lower revenues from equity derivatives and cash equities, partially offset by higher revenues from prime services.

Provision for credit losses

In 3Q19, Markets recorded a release of provision for credit losses of CHF 1 million, compared to a provision for credit losses of CHF 9 million in 3Q18 and a release of provision for credit losses of CHF 7 million in 2Q19.

mainly reflecting higher allocated corporate function costs. Compensation and benefits increased slightly to CHF 113 million, primarily reflecting higher employee benefits, salaries and allocated corporate function costs, largely offset by lower discretionary compensation expenses.

Total operating expenses

Total operating expenses of CHF 248 million were stable compared to 3Q18, reflecting slightly higher general and administrative expenses and slightly higher compensation and benefits offset by restructuring expenses incurred in 3Q18. General and administrative expenses increased slightly to CHF 92 million,

Compared to 2Q19, total operating expenses decreased 13%, mainly reflecting lower compensation and benefits. Compensation and benefits decreased 22%, primarily driven by lower discretionary compensation expenses and salary expenses. General and administrative expenses were stable.

Global Markets

In 3Q19, we reported income before taxes of CHF 269 million and net revenues of CHF 1,415 million. Results reflected positive operating leverage, due to broad based revenue growth across businesses, driving a substantial increase in profitability compared to 3Q18.

Results summary

3Q19 results

In 3Q19, we reported income before taxes of CHF 269 million and net revenues of CHF 1,415 million. Net revenues increased 36% compared to 3Q18, driven by strong trading activity, particularly in fixed income, reflecting continued investor demand for yield products, and reduced funding costs. Total operating expenses of CHF 1,138 million were stable, reflecting the restructuring expenses incurred in 3Q18, offset by higher general and administrative expenses, commission expenses and compensation and benefits.

Compared to 2Q19, net revenues decreased 9%, reflecting a seasonal slowdown in trading client activity and lower revenues in underwriting. Total operating expenses decreased 5% compared to 2Q19, mainly reflecting lower compensation and benefits.

Capital and leverage metrics

As of the end of 3Q19, we reported risk-weighted assets of USD 61.0 billion, an increase of USD 1.4 billion compared to the end of 2Q19, primarily as a result of a regular update to the stressed window calibration. Leverage exposure was USD 261.0 billion, stable compared to the end of 2Q19.

Results details

Fixed income sales and trading

In 3Q19, fixed income sales and trading revenues of CHF 896 million increased 75% compared to 3Q18, driven by significantly higher client activity across most businesses. Securitized products revenues increased, reflecting substantially higher agency trading activity due to favorable market conditions including interest rate volatility, increased trading volumes and investor demand for yield products and reflecting robust client activity in our fee-based asset finance franchise. Global credit products revenues increased significantly, reflecting higher investment grade trading client activity across regions, reflecting benefits from investments in the franchise and stable leveraged finance trading revenues. Emerging markets revenues increased significantly, driven by higher structured credit and financing client activity in Latin America and Europe, Middle East and Africa (EMEA). This was partially offset by lower macro products revenues reflecting reduced rates trading activity.

Compared to 2Q19, fixed income sales and trading revenues were stable, in a seasonally slower quarter. Global credit products revenues decreased, reflecting lower leveraged finance trading revenues, partially offset by higher investment grade trading activity. Macro products revenues decreased, primarily due to lower rates revenues. These decreases were partially offset by increased emerging markets revenues, reflecting significantly higher structured credit revenues across regions due to increased client activity and higher financing revenues in Brazil. Securitized products revenues were stable, as higher agency trading activity and continued momentum in our asset finance franchise was offset by lower non-agency trading activity.

Equity sales and trading

In 3Q19, equity sales and trading revenues of CHF 421 million increased 13% compared to 3Q18, reflecting higher equity derivatives and prime services revenues, partially offset by lower cash equities revenues. Equity derivatives revenues increased, reflecting higher flow and corporate derivatives trading activity particularly in EMEA due to benefits from investments in the business and increased market volatility. Prime services revenues increased, primarily due to higher client financing revenues across regions driven by increased client balances and market volatility. These increases were partially offset by lower cash equities revenues, as reduced primary activity resulted in lower secondary trading activity.

Compared to 2Q19, equity sales and trading revenues decreased 17%, primarily due to a seasonal decline in client activity. Prime services revenues decreased, driven by reduced listed derivatives revenues. Equity derivatives revenues decreased, reflecting lower client activity in structured and flow derivatives, partially offset by improved corporate derivatives revenues. In addition, cash equities revenues decreased, reflecting reduced trading volumes particularly in EMEA.

Underwriting

In 3Q19, underwriting revenues of CHF 209 million decreased 22% compared to 3Q18, reflecting lower industry-wide issuance activity. Debt underwriting revenues decreased, reflecting lower industry-wide leveraged finance issuance activity. Equity underwriting revenues decreased, reflecting lower equity issuance activity due to increased market volatility.

Compared to 2Q19, underwriting revenues decreased 12%, primarily due to reduced equity underwriting revenues. Equity underwriting revenues decreased significantly due to reduced industry-wide issuance activity. This was partially offset by slightly increased debt underwriting revenues, reflecting higher investment grade issuance activity.

Provision for credit losses

In 3Q19, we recorded provision for credit losses of CHF 8 million, compared to CHF 3 million in 3Q18 and CHF 2 million in 2Q19.

Total operating expenses

In 3Q19, total operating expenses of CHF 1,138 million were stable compared to 3Q18, reflecting the restructuring expenses incurred in 3Q18, offset by higher general and administrative expenses, commission expenses and compensation and benefits. General and administrative expenses of CHF 429 million increased 8%, primarily reflecting higher professional services costs. Compensation and benefits of CHF 577 million increased slightly, reflecting higher deferred compensation expenses from prior-year awards and increased salary expenses, offset by lower discretionary compensation expenses.

Compared to 2Q19, total operating expenses decreased 5%, mainly reflecting lower compensation and benefits. Compensation and benefits decreased 10%, reflecting lower discretionary compensation expenses and reduced salary expenses. General and administrative expenses were stable.

Investment Banking & Capital Markets

In 3Q19, we reported a loss before taxes of CHF 15 million and net revenues of CHF 425 million. Net revenues decreased 20% compared to 3Q18 and 6% compared to 2Q19.

Results summary

3Q19 results

In 3Q19, we reported a loss before taxes of CHF 15 million compared to income before taxes of CHF 70 million in 3Q18, driven by lower revenues across our advisory and underwriting businesses, reflecting lower client activity from completed M&A transactions and initial public offering (IPO) issuances, partially offset by lower operating expenses. Net revenues of CHF 425 million decreased 20% across our advisory and underwriting businesses in a quarter characterized by volatility and macroeconomic uncertainty. Advisory and other fees decreased 27%, driven by significantly lower revenues from completed M&A transactions. Equity underwriting revenues decreased 20%, driven by lower IPO issuance and follow-on client activity. Debt underwriting revenues decreased 9%, driven primarily by lower revenues from UHNWI clients, derivatives financing and leveraged finance activity. Total operating expenses of CHF 429 million decreased 6%, primarily driven by lower compensation and benefits and the restructuring expenses incurred in 3Q18, partially offset by higher general and administrative expenses.

Compared to 2Q19, net revenues decreased 6%, driven by lower revenues from equity underwriting and debt underwriting, partially offset by higher revenues from advisory and other fees. Equity underwriting revenues decreased 34% and debt underwriting revenues decreased 4%. The decrease in underwriting activity was partially offset by revenues from advisory and other fees, which increased 10%. Total operating expenses decreased 4%, reflecting lower compensation and benefits and slightly lower general and administrative expenses.

Capital and leverage metrics

As of the end of 3Q19, risk-weighted assets were USD 26.1 billion, a decrease of USD 0.6 billion compared to the end of 2Q19, primarily driven by a decrease in our corporate derivatives business portfolio. Leverage exposure was USD 45.1 billion, an increase of USD 1.3 billion compared to the end of 2Q19, primarily driven by an increase in corporate loan exposure.

Results details

Advisory and other fees

In 3Q19, revenues from advisory and other fees of CHF 174 million decreased 27% compared to 3Q18, reflecting significantly lower revenues from completed M&A transactions.

Compared to 2Q19, revenues from advisory and other fees increased 10%, driven by higher revenues from completed M&A transactions.

Debt underwriting

In 3Q19, debt underwriting revenues of CHF 202 million decreased 9% compared to 3Q18, primarily driven by lower revenues from UHNWI clients and lower derivatives financing and leveraged finance revenues, partially offset by momentum in investment grade underwriting revenues.

Compared to 2Q19, debt underwriting revenues decreased 4%, reflecting a decline in market activity, mainly driven by lower leveraged finance revenues, partially offset by higher investment grade underwriting revenues.

Equity underwriting

In 3Q19, equity underwriting revenues of CHF 73 million decreased 20% compared to 3Q18, driven by lower revenues from IPO issuance and follow-on activity.

Compared to 2Q19, equity underwriting revenues decreased 34%, primarily driven by lower revenues from IPO issuance activity.

Provision for credit losses

In 3Q19, we recorded provision for credit losses of CHF 11 million, compared to CHF 1 million in 2Q19, reflecting an increase in the market-implied probability of default (PD) on non-fair valued loans in our corporate lending portfolio. In 3Q18, we recorded provisions for credit losses of CHF 3 million, which included a release of provisions relating to two counterparties.

Total operating expenses

In 3Q19, total operating expenses of CHF 429 million decreased 6% compared to 3Q18, reflecting lower compensation and benefits and the restructuring expenses incurred in 3Q18. Compensation and benefits of CHF 303 million decreased 7%, primarily reflecting lower discretionary compensation expenses, and included severance costs of CHF 10 million in 3Q19. General and administrative expenses of CHF 121 million increased 8%, reflecting increases across various expense categories.

Compared to 2Q19, total operating expenses decreased 4%, reflecting lower compensation and benefits and slightly lower general and administrative expenses. Compensation and benefits decreased 5%, primarily reflecting lower discretionary compensation expenses.

Global advisory and underwriting revenues

The Group's global advisory and underwriting business operates across multiple business divisions that work in close collaboration with each other to generate these revenues. In order to reflect the global performance and capabilities of this business and for enhanced comparability versus its peers, the following table aggregates total advisory and underwriting revenues for the Group into a single metric in US dollar terms.

	3Q19		2Q19		1Q19		9M18		9M19

Corporate Center

In 3Q19, we reported a loss before taxes of CHF 505 million compared to CHF 61 million in 3Q18 and CHF 396 million in 2Q19.

Corporate Center composition

Corporate Center includes parent company operations such as Group financing, expenses for projects sponsored by the Group, including costs associated with the evolution of our legal entity structure to meet developing and future regulatory requirements, and certain other expenses and revenues that have not been allocated to the segments. Corporate Center further includes consolidation and elimination adjustments required to eliminate intercompany revenues and expenses.

Treasury results include the impact of volatility in the valuations of certain central funding transactions such as structured notes issuances and swap transactions. Treasury results also include additional interest charges from transfer pricing to align funding costs to assets held in the Corporate Center and, since 1Q19, legacy funding costs previously reported in the Strategic Resolution Unit.

Beginning in 1Q19 the Strategic Resolution Unit ceased to exist as a separate division of the Group. The residual portfolio remaining as of December 31, 2018 is now managed in an Asset Resolution Unit and is separately presented within our Corporate

Center disclosures, including related asset funding costs. Certain activities not linked to the underlying portfolio such as legacy funding costs, legacy litigation provisions, a specific client compliance function and noncontrolling interests without significant economic interest, which were previously part of the Strategic Resolution Unit, are recorded in the Corporate Center and are not reflected in the Asset Resolution Unit. Prior periods have not been restated.

Other revenues primarily include required elimination adjustments associated with trading in own shares, treasury commissions charged to divisions, the cost of certain hedging transactions executed in connection with the Group's risk-weighted assets and valuation hedging impacts from long-dated legacy deferred compensation and retirement programs mainly relating to former employees.

Compensation and benefits include fair value adjustments on certain deferred compensation plans not allocated to the segments, certain deferred compensation retention awards intended to support the restructuring of the Group and fair value adjustments on certain other long-dated legacy deferred compensation and retirement programs mainly relating to former employees.

Results summary

3Q19 results

In 3Q19, we reported a loss before taxes of CHF 505 million compared to CHF 61 million in 3Q18 and CHF 396 million in 2Q19.

Net revenues

In 3Q19, we reported negative net revenues of CHF 278 million compared to net revenues of CHF 52 million in 3Q18 and negative net revenues of CHF 184 million in 2Q19.

Negative treasury results of CHF 276 million in 3Q19 mainly reflected losses of CHF 181 million with respect to structured notes volatility, primarily relating to interest rate movements, negative revenues of CHF 74 million relating to funding activities, excluding Asset Resolution Unit-related asset funding costs, losses of CHF 32 million relating to hedging volatility and losses of CHF 10 million on fair-valued money market instruments. Negative revenues and losses were partially offset by gains of CHF 21 million relating to fair value option volatility on own debt. In 3Q18, negative treasury results of CHF 5 million mainly reflected negative revenues of CHF 106 million relating to funding activities, partially offset by gains of CHF 74 million with respect to structured notes volatility, primarily from valuation model enhancements, and gains of CHF 18 million relating to hedging volatility. In 2Q19, negative treasury results of CHF 208 million reflected losses of CHF 208 million with respect to structured notes volatility, mainly relating to interest rate movements, and negative revenues of CHF 83 million relating to funding activities, excluding Asset Resolution Unit-related asset funding costs. Negative revenues and losses were partially offset by gains of CHF 59 million relating to hedging volatility, gains of CHF 15 million relating to fair value option volatility on own debt and gains of CHF 11 million on fair-valued money market instruments.

In the Asset Resolution Unit, we reported negative net revenues of CHF 45 million in 3Q19 compared to CHF 24 million in 2Q19. The increase in negative net revenues was primarily driven by lower revenues from portfolio assets.

Other revenues of CHF 43 million decreased CHF 14 million compared to 3Q18, mainly reflecting a fair value gain on a legacy convertible bond position recognized in 3Q18 and a valuation adjustment on a legacy exposure. These decreases were partially offset by the impact from the gross recognition of sublease rental income under the new accounting standard for leases and a positive impact from a specific client compliance function. Compared to 2Q19, other revenues decreased CHF 5 million, mainly

reflecting a valuation adjustment on a legacy exposure, partially offset by a positive valuation impact from long-dated legacy deferred compensation and retirement programs. 2Q19 included a loss from a sale of real estate.

Provision for credit losses

In 3Q19, we recorded a release of provision for credit losses of CHF 8 million compared to provision for credit losses of zero in 3Q18 and CHF 4 million in 2Q19. The release of provision for credit losses in 3Q19 and provision for credit losses in 2Q19 were primarily related to the Asset Resolution Unit.

Total operating expenses

Total operating expenses of CHF 235 million increased CHF 122 million compared to 3Q18, mainly reflecting an increase in general and administrative expenses. General and administrative expenses of CHF 153 million increased CHF 107 million, primarily reflecting higher expenses related to the legacy litigation provisions, general and administrative expenses related to the Asset Resolution Unit and the impact from the gross recognition of sublease rental income under the new accounting standard for leases. These increases were partially offset by the impact of corporate function allocations. Compensation and benefits of CHF 67 million increased CHF 4 million, primarily reflecting compensation and benefits related to the Asset Resolution Unit, partially offset by lower discretionary compensation expenses and lower deferred compensation expenses from prior-year awards.

Compared to 2Q19, total operating expenses increased CHF 27 million, reflecting an increase in general and administrative expenses, partially offset by a decrease in compensation and benefits. General and administrative expenses increased CHF 64 million, primarily reflecting the impact of corporate function allocations. Compensation and benefits decreased CHF 36 million, primarily reflecting lower deferred compensation expenses from prior-year awards, lower compensation and benefits related to the Asset Resolution Unit and the impact of corporate function allocations, partially offset by higher expenses for long-dated legacy deferred compensation and retirement programs.

Capital and leverage metrics

As of the end of 3Q19, we reported risk-weighted assets of CHF 53.3 billion, an increase of CHF 4.2 billion compared to the end of 2Q19, primarily driven by increases in risk levels in credit risk and a foreign exchange impact. Leverage exposure was CHF 132.5 billion as of the end of 3Q19, an increase of CHF 6.1 billion compared to the end of 2Q19, primarily related to an increase in our centrally held balance of HQLA.

Assets under management

As of the end of 3Q19, assets under management were CHF 1,482.2 billion, an increase of CHF 22.3 billion compared to the end of 2Q19, with net new assets of CHF 12.8 billion in 3Q19.

Assets under management

Assets under management comprise assets that are placed with us for investment purposes and include discretionary and advisory counterparty assets. Discretionary assets are assets for which the client fully transfers the discretionary power to a Credit Suisse entity with a management mandate. Discretionary assets are reported in the business in which the advice is provided as well as in the business in which the investment decisions take place. Assets managed by the Asset Management business

of International Wealth Management for other businesses are reported in each applicable business and eliminated at the Group level. Advisory assets include assets placed with us where the client is provided access to investment advice but retains discretion over investment decisions.

Assets under management and net new assets include assets managed by consolidated entities, joint ventures and strategic participations. Assets from joint ventures and participations are counted in proportion to our share in the respective entity.

Net new assets

Net new assets include individual cash payments, delivery of securities and cash flows resulting from loan increases or repayments.

Interest and dividend income credited to clients and commissions, interest and fees charged for banking services as well as changes in assets under management due to currency and market volatility are not taken into account when calculating net new assets. Any such changes are not directly related to the Group's success in acquiring assets under management. Similarly, structural effects mainly relate to asset inflows and outflows due to acquisition or divestiture, exit from businesses or markets or exits due to new regulatory requirements and are not taken into account when calculating net new assets. The Group reviews relevant policies regarding client assets on a regular basis.

3Q19 results details

As of the end of 3Q19, assets under management of CHF 1,482.2 billion increased CHF 22.3 billion compared to the end of 2Q19. The increase was primarily driven by net new assets of CHF 12.8 billion, favorable market movements and foreign exchange-related movements.

Net new assets of CHF 12.8 billion mainly reflected inflows across the following businesses. Net new assets of CHF 6.3 billion in the Corporate & Institutional Clients business of Swiss Universal Bank primarily reflected inflows from the pension business. Net new assets of CHF 5.9 billion in the Asset Management business of International Wealth Management mainly reflected inflows from traditional and alternative investments, partially offset by outflows from emerging market joint ventures. Net new assets of CHF 3.6 billion in the Private Banking business of International Wealth Management primarily reflected inflows from emerging markets, partially offset by outflows in Europe. Net new assets of CHF 2.6 billion in the Private Banking business of Asia Pacific primarily reflected inflows from Greater China.

Liquidity and funding management

In 3Q19, we maintained a strong liquidity and funding position. The majority of our unsecured funding was generated from core customer deposits and long-term debt.

Liquidity management

Securities for funding and capital purposes have historically been issued primarily by the Bank, our principal operating subsidiary and a US registrant. In response to regulatory reform, we have focused our issuance strategy on offering long-term debt securities at the Group level. Proceeds from issuances are lent to operating subsidiaries and affiliates on both a senior and subordinated basis, as needed; the latter typically to meet capital requirements and the former as desired by management to support business initiatives and liquidity needs.

Our liquidity and funding profile reflects our strategy and risk appetite and is driven by business activity levels and the overall operating environment. Our internal liquidity risk management framework is subject to review and monitoring by the Swiss Financial Market Supervisory Authority FINMA (FINMA), other regulators and rating agencies.

→ Refer to "Treasury management" in III – Treasury, Risk, Balance sheet and Off-balance sheet in the Credit Suisse Annual Report 2018 for further information on liquidity and funding management.

Regulatory framework

BIS liquidity framework

The Basel Committee on Banking Supervision (BCBS) established the Basel III international framework for liquidity risk measurement, standards and monitoring. The Basel III framework includes a liquidity coverage ratio (LCR) and a net stable funding ratio (NSFR). Credit Suisse is subject to the Basel III framework, as implemented in Switzerland, as well as Swiss legislation and regulations for systemically important banks (Swiss Requirements).

The LCR addresses liquidity risk over a 30-day period. The LCR aims to ensure that banks have unencumbered HQLA available to meet short-term liquidity needs under a severe stress scenario. The LCR is comprised of two components, the value of HQLA in stressed conditions and the total net cash outflows calculated according to specified scenario parameters. Under the BCBS framework, the minimum required ratio of liquid assets over net cash outflows is 100%.

The NSFR establishes criteria for a minimum amount of stable funding based on the liquidity of a bank's on- and off-balance sheet activities over a one-year horizon. The NSFR is a complementary measure to the LCR and is structured to ensure that illiquid assets are funded with an appropriate amount of stable

long-term funds. The NSFR is defined as the ratio of available stable funding over the amount of required stable funding and, once implemented by national regulators, should always be at least 100%.

Swiss liquidity requirements

The Swiss Federal Council adopted a liquidity ordinance (Liquidity Ordinance) that implements Basel III liquidity requirements into Swiss law. Under the Liquidity Ordinance, as amended, systemically relevant banks like Credit Suisse are subject to a minimum LCR requirement of 100% at all times and the associated disclosure requirements.

In connection with the implementation of Basel III, regulatory LCR disclosures for the Group and certain subsidiaries are required. Further details on our LCR can be found on our website.

→ Refer to [credit-suisse.com/regulatorydisclosures](https://www.credit-suisse.com/regulatorydisclosures) for additional information.

FINMA requires us to report the NSFR to FINMA on a monthly basis during an observation period that began in 2012. The reporting instructions are generally aligned with the final BCBS NSFR requirements. The Federal Council has decided to postpone the introduction of the NSFR as a minimum standard, which was originally planned for January 1, 2018, and will reconsider this matter at the end of 2019.

Our liquidity principles and our liquidity risk management framework as agreed with FINMA are in line with the Basel III liquidity framework.

→ Refer to "Treasury management" in III – Treasury, Risk, Balance sheet and Off-balance sheet in the Credit Suisse Annual Report 2018 for further information on the BIS liquidity framework and Swiss liquidity requirements.

Liquidity risk management

Our liquidity and funding policy is designed to ensure that funding is available to meet all obligations in times of stress, whether caused by market events or issues specific to Credit Suisse. We achieve this through a conservative asset/liability management strategy aimed at maintaining long-term funding, including stable deposits, in excess of illiquid assets. To address short-term liquidity stress, we maintain a liquidity pool that covers unexpected outflows in the event of severe market and idiosyncratic stress.

→ Refer to "Treasury management" in III – Treasury, Risk, Balance sheet and Off-balance sheet in the Credit Suisse Annual Report 2018 for further information on our approach to liquidity risk management, governance and contingency planning.

Liquidity metrics

Liquidity pool

Treasury manages a sizeable portfolio of liquid assets comprised of cash held at central banks and securities. The liquidity pool may be used to meet the liquidity requirements of our operating companies.

We centrally manage this liquidity pool and hold it at our main operating entities. Holding securities in these entities ensures that we can make liquidity and funding available to local entities in need without delay.

→ Refer to "Treasury management" in III – Treasury, Risk, Balance sheet and Off-balance sheet in the Credit Suisse Annual Report 2018 for further information on our liquidity pool.

As of the end of 3Q19, our liquidity pool managed by Treasury and the global liquidity group had an HQLA value of CHF 163.6 billion. The liquidity pool consisted of CHF 81.3 billion of cash held at major central banks, primarily the SNB, the ECB and the Fed and CHF 82.3 billion market value of securities

issued by governments and government agencies, primarily from the US, UK and France.

In addition to the liquidity portfolio, there is also a portfolio of unencumbered liquid assets managed by the businesses, primarily in the Global Markets and Asia Pacific divisions, in cooperation with the global liquidity group. These assets generally include high-grade bonds and highly liquid equity securities that form part of major indices. In coordination with the businesses and the global liquidity group, Treasury can access these assets to generate liquidity if required. As of the end of 3Q19, this portfolio of liquid assets had a market value of CHF 29.3 billion, consisting of CHF 13.0 billion of high-grade bonds and CHF 16.3 billion of highly liquid equity securities. Under our internal model, an average stress-level haircut of 13% is applied to these assets. The haircuts applied to these portfolios reflect our assessment of overall market risk at the time of measurement, potential monetization capacity taking into account increased haircuts, market volatility and the quality of the relevant securities.

Liquidity pool – Group

End of					3Q19	2Q19	4Q18
	Swiss franc	US dollar	Euro	Other currencies	Total	Total	Total
Liquid assets (CHF million)							
Cash held at central banks	57,970	9,599	11,842	1,911	81,322	78,673	85,494
Securities	7,354	48,384	8,247	18,280	82,265	83,289	74,360
Liquid assets¹	65,324	57,983	20,089	20,191	163,587	161,962	159,854

Calculated using a three-month average, which is calculated on a daily basis.

¹ Reflects a pre-cancellation view.

Liquidity Coverage Ratio

Our calculation methodology for the LCR is prescribed by FINMA and uses a three-month average that is measured using daily calculations during the quarter. The FINMA calculation of HQLA takes into account a cancellation mechanism (post-cancellation view) and is therefore not directly comparable to the assets presented in the financial statements that could potentially be monetized under a severe stress scenario. The cancellation mechanism effectively excludes the impact of certain secured financing transactions from available HQLA and simultaneously adjusts the level of net cash outflows calculated. Application of the cancellation mechanism adjusts both the numerator and denominator of the LCR calculation, meaning that the impact is mostly neutral on the LCR itself.

Our HQLA measurement methodology excludes potentially eligible HQLA available for use by entities of the Group in certain jurisdictions that may not be readily accessible for use by the Group as a whole. These HQLA eligible amounts may be restricted for reasons such as local regulatory requirements, including large exposure requirements, or other binding constraints that could limit the transferability to other Group entities in other jurisdictions.

On this basis, the level of our LCR was 189% as of the end of 3Q19, a decrease from 193% as of the end of 2Q19, representing an average HQLA of CHF 163.5 billion and average net cash outflows of CHF 86.5 billion. The ratio reflects a conservative liquidity position, including ensuring that the Group's branches and subsidiaries meet applicable local liquidity requirements.

The decrease in the LCR in 3Q19 reflected an increase in net cash outflows, which was partially offset by an increase in HQLA. The increase in net cash outflows was primarily driven by higher cash outflows from unsecured wholesale funding related to non-operational deposits and unsecured debt, which was partially offset by a decrease in net cash outflows associated with secured wholesale funding and secured lending activities. The higher HQLA during the period was the result of an increase in cash held with central banks, which was partially offset by a reduction in securities.

The spot balance of HQLA held on the last business day of 3Q19 was CHF 162.2 billion, which was CHF 9.4 billion higher than the spot balance of HQLA held on the last business day of 2Q19.

Net cash outflows (CHF million)	–	86,544	83,378	87,811
Liquidity coverage ratio (%)	–	189	193	184

Calculated using a three-month average, which is calculated on a daily basis.

¹ Calculated as outstanding balances maturing or callable within 30 days.

² Calculated after the application of haircuts for high-quality liquid assets or inflow and outflow rates.

³ Consists of cash and eligible securities as prescribed by FINMA and reflects a post-cancellation view.

Funding management

Funding sources

We fund our balance sheet primarily through core customer deposits, long-term debt, including structured notes, and shareholders' equity. We monitor the funding sources, including their concentrations against certain limits, according to their counterparty, currency, tenor, geography and maturity, and whether they are secured or unsecured.

A substantial portion of our balance sheet is match funded and requires no unsecured funding. Match funded balance sheet items consist of assets and liabilities with close to equal liquidity durations and values so that the liquidity and funding generated or required by the positions are substantially equivalent.

Cash and due from banks and reverse repurchase agreements are highly liquid. A significant part of our assets, principally unencumbered trading assets that support the securities business, is comprised of securities inventories and collateralized receivables that fluctuate and are generally liquid. These liquid assets are available to settle short-term liabilities.

Loans, which comprise the largest component of our illiquid assets, are funded by our core customer deposits, with an excess coverage of 14% as of the end of 3Q19, compared to 14% as of the end of 2Q19, reflecting stable deposits. Loans were stable compared to 2Q19. We fund other illiquid assets, including real estate, private equity and other long-term investments as well as the haircut for the illiquid portion of securities, with long-term debt and equity, in which we try to maintain a substantial funding buffer.

Our core customer deposits totaled CHF 339 billion as of the end of 3Q19, compared to CHF 334 billion as of the end of 2Q19, reflecting a stable customer deposit base in the private banking and corporate & institutional clients businesses in 3Q19. Core customer deposits are from clients with whom we have a broad and longstanding relationship. Core customer deposits exclude deposits from banks and certificates of deposit. We place a priority on maintaining and growing customer deposits, as they have proven to be a stable and resilient source of funding even in difficult market conditions. Our core customer deposit funding is supplemented by the issuance of long-term debt.

→ Refer to the chart "Balance sheet funding structure" and "Balance sheet" in Balance sheet and off-balance sheet for further information.

Balance sheet funding structure

as of September 30, 2019 (CHF billion)

Assets		Liabilities and Equity	
Reverse repurchase agreements	49	63	Repurchase agreements

114% coverage

¹ Primarily includes brokerage receivables/payables, positive/negative replacement values and cash collateral.

² Primarily includes excess of funding neutral liabilities (brokerage payables) over corresponding assets.

³ Primarily includes unencumbered trading assets, unencumbered investment securities and excess reverse repurchase agreements, after haircuts.

⁴ Excludes loans with banks.

⁵ Excludes due to banks and certificates of deposit.

Debt issuances and redemptions

As of the end of 3Q19, we had outstanding long-term debt of CHF 159.1 billion, which included senior and subordinated instruments. We had CHF 51.0 billion and CHF 15.1 billion of structured notes and covered bonds outstanding, respectively, as of the end of 3Q19 compared to CHF 51.1 billion and CHF 15.0 billion, respectively, as of the end of 2Q19.

→ Refer to "Issuances and redemptions" in Capital management for information on capital issuances, including buffer and progressive capital notes.

Short-term borrowings remained stable with CHF 26.2 billion as of the end of 3Q19, compared to CHF 26.1 billion as of the end of 2Q19.

The following table provides information on long-term debt issuances, maturities and redemptions in 3Q19, excluding structured notes.

→ Refer to "Debt issuances and redemptions" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Liquidity and funding management in the Credit Suisse Annual Report 2018 for further information.

Debt issuances and redemptions

in 3Q19	Senior	Senior bail-in	Sub- ordinated	Long-term debt
Long-term debt (CHF billion, notional value)				
Issuances	0.4	3.6	2.2	6.2
of which unsecured	0.0	3.6	2.2	5.8
of which secured	0.4	0.0	0.0	0.4
Maturities / Redemptions	5.9	0.0	0.0	5.9
of which unsecured	5.7	0.0	0.0	5.7
of which secured	0.2	0.0	0.0	0.2

Excludes structured notes.

Credit ratings

The maximum impact of a simultaneous one, two or three-notch downgrade by all three major rating agencies in the Bank's long-term debt ratings would result in additional collateral requirements or assumed termination payments under certain derivative instruments of CHF 0.1 billion, CHF 0.3 billion and CHF 1.1 billion, respectively, as of the end of 3Q19, and would not be material to our liquidity and funding planning. If the downgrade does not involve all three rating agencies, the impact may be smaller.

→ Refer to "Credit ratings" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Liquidity and funding management in the Credit Suisse Annual Report 2018 for further information relating to credit ratings and additional risks relating to derivative instruments.

Capital management

As of the end of 3Q19, our BIS CET1 ratio was 12.4% and our BIS tier 1 leverage ratio was 5.5%.

Regulatory framework

Credit Suisse is subject to the Basel III framework, as implemented in Switzerland, as well as Swiss legislation and regulations for systemically important banks (Swiss Requirements), which include capital, liquidity, leverage and large exposure requirements and rules for emergency plans designed to maintain systemically relevant functions in the event of threatened insolvency.

References to phase-in and look-through included herein refer to Basel III capital requirements and Swiss Requirements. Phase-in reflects that, for the years 2013 – 2022, there is a phase-out of certain capital instruments. Look-through assumes the phase-out of certain capital instruments. Our capital metrics fluctuate during any reporting period in the ordinary course of business.

→ Refer to "Capital management" in III – Treasury, Risk, Balance sheet and Off-balance sheet in the Credit Suisse Annual Report 2018 for further information.

BIS requirements

The BCBS, the standard setting committee within the BIS, issued the Basel III framework, with higher minimum capital requirements and conservation and countercyclical buffers, revised risk-based capital measures, a leverage ratio and liquidity standards. The framework was designed to strengthen the resilience of the banking sector and requires banks to hold more capital, mainly in the form of common equity. The new capital standards became fully effective on January 1, 2019 for those countries that have adopted Basel III.

→ Refer to "BIS requirements" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Capital management in the Credit Suisse Annual Report 2018 for a detailed discussion of the BIS requirements.

Swiss Requirements

The legislation implementing the Basel III framework in Switzerland in respect of capital requirements for systemically relevant banks, including Credit Suisse, goes beyond the Basel III minimum standards for systemically relevant banks.

Under the Capital Adequacy Ordinance, Swiss banks classified as systemically important banks operating internationally, such as Credit Suisse, are subject to two different minimum requirements

for loss-absorbing capacity: global systemically important banks (G-SIBs) must hold sufficient capital that absorbs losses to ensure continuity of service (going concern requirement) and they must issue sufficient debt instruments to fund an orderly resolution without recourse to public resources (gone concern requirement).

Going concern capital and gone concern capital together form our total loss-absorbing capacity (TLAC). The going concern and gone concern requirements are generally aligned with the FSB's total loss-absorbing capacity standard.

Capital frameworks for Credit Suisse

¹ Does not include any rebates for resolvability and for certain tier 2 low-trigger instruments recognized in gone concern capital.

Both the going concern and the gone concern requirements are subject to a phase-in, with gradually increasing requirements as well as grandfathering provisions for certain outstanding instruments and have to be fully applied by January 1, 2020.

Additionally, there are FINMA decrees that apply to Credit Suisse, as a systemically important bank operating internationally, including capital adequacy requirements as well as liquidity and risk diversification requirements.

→ Refer to "Swiss Requirements" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Capital management in the Credit Suisse Annual Report 2018 for a detailed discussion of the Swiss Requirements.

Other regulatory disclosures

In connection with the implementation of Basel III, certain regulatory disclosures for the Group and certain of its subsidiaries are required. The Group's Pillar 3 disclosure, regulatory disclosures, additional information on capital instruments, including the main features and terms and conditions of regulatory capital instruments and total loss-absorbing capacity-eligible instruments that form part of the eligible capital base and total loss-absorbing capacity resources, G-SIB financial indicators, reconciliation requirements, leverage ratios and certain liquidity disclosures as well as regulatory disclosures for subsidiaries can be found on our website.

→ Refer to "credit-suisse.com/regulatorydisclosures" for additional information.

Swiss capital and leverage phase-in requirements for Credit Suisse

Effective as of January 1, for the applicable year	2019	2020	2019	2020
Capital components (%)				
CET1 – minimum	4.9	4.5	1.7	1.5
Additional tier 1 – maximum	3.1	3.5	1.3	1.5
Minimum component	8.0	8.0	3.0	3.0
CET1 – minimum	4.78	5.5	1.5	2.0
Additional tier 1 – maximum	0.8	0.8	0.0	0.0
Buffer component	5.58	6.3	1.5	2.0
Going concern	13.58	14.3	4.5	5.0
of which base requirement	12.86	12.86	4.5	4.5
of which surcharge	0.72	1.44	0.0	0.5
Gone concern	11.6	14.3	4.0	5.0
of which base requirement	10.52	12.86	3.625	4.5
of which surcharge	1.08	1.44	0.375	0.5
Total loss-absorbing capacity	25.18	28.6	8.5	10.0

Does not include the effects of the countercyclical buffers and any rebates for resolvability and for certain tier 2 low-trigger instruments recognized in gone concern capital. As of the end of 3Q19, the Swiss countercyclical buffer for the Group and the Bank was CHF 546 million, which is equivalent to 0.2% of CET1 capital, and the required extended countercyclical buffer was insignificant. As of the end of 3Q19, the rebate for resolvability relating to the Group and the Bank's capital ratios was 1.856%, resulting in a gone concern requirement of 9.744%, and 0.64% relating to the leverage ratios, resulting in a gone concern leverage requirement of 3.36%.

Regulatory developments

In August 2019, FINMA recognized the revised self-regulation by the Swiss Bankers Association in the area of mortgage lending for investment properties as a binding minimum standard under the Capital Adequacy Ordinance. The revised self-regulation will become effective January 1, 2020 and will require borrowers to provide a

minimum down payment of at least 25% of the applicable loan-to-value ratio, instead of the currently required 10%, and to repay a portion of the mortgage equivalent to two-thirds of the loan-to-value ratio within a maximum of 10 years instead of the current maximum of 15 years. The amended rules will only apply to new loan originations (including loan increases), and not to existing loans or to the existing standards relating to owner-occupied residential property.

Capital instruments

Issuances and redemptions

	Currency	Par value at issuance (million)	Coupon rate (%)	Description	Year of maturity
Issuances – callable bail-in instruments					
Third quarter of 2019	EUR	500 ¹	1.0	Senior notes	2027
	EUR	1,000	0.65	Senior notes	2029
	USD	2,000	2.593	Senior notes	2025
Issuances – high-trigger capital instruments					
Third quarter of 2019	USD	1,750	6.375	Perpetual tier 1 contingent capital notes	–
	CHF	525	3.0	Perpetual tier 1 contingent capital notes	–

¹ In 2Q19, the Group issued EUR 1,000 million 1.0% senior callable notes due 2027. In July 2019, the offering was re-opened and the aggregate principal amount was increased from EUR 1,000 million to EUR 1,500 million.

Higher Trigger Capital Amount

The capital ratio write-down triggers for certain of our outstanding capital instruments take into account the fact that other outstanding capital instruments that contain relatively higher capital ratios as part of their trigger feature are expected to convert into equity or be written down prior to the write-down of such capital instruments. The amount of additional capital that is expected to be contributed by such conversion into equity or write-down is referred to as the Higher Trigger Capital Amount.

With respect to the capital instruments that specify a trigger event if the CET1 ratio were to fall below 5.125%, the Higher Trigger Capital Amount was CHF 8.6 billion and the Higher Trigger Capital Ratio

(i.e., the ratio of the Higher Trigger Capital Amount to the aggregate of all risk-weighted assets (RWA) of the Group) was 2.8%, both as of the end of 3Q19.

With respect to the capital instruments that specify a trigger event if the CET1 ratio were to fall below 5%, the Higher Trigger Capital Amount was CHF 13.5 billion and the Higher Trigger Capital Ratio was 4.5%, both as of the end of 3Q19.

- Refer to the table "BIS capital metrics" for further information on the BIS metrics used to calculate such measures.
- Refer to "Higher Trigger Capital Amount" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Capital management – Capital instruments in the Credit Suisse Annual Report 2018 for further information on the Higher Trigger Capital Amount.

¹ Includes regulatory adjustments not subject to phase-in, including a cumulative dividend accrual.

² Net of deferred tax liability.

³ Includes cash flow hedge reserve.

⁴ Reflects 100% phased-in deductions since 2018, including goodwill, other intangible assets and certain deferred tax assets.

Our CET1 ratio was 12.4% as of the end of 3Q19, a decrease compared to 12.5% as of the end of 2Q19. Our tier 1 ratio was 16.8% as of the end of 3Q19, an increase compared to 16.3% as of the end of 2Q19. Our total capital ratio was 18.0% as of the end of 3Q19, an increase compared to 17.6% as of the end of 2Q19.

CET1 capital was CHF 37.4 billion as of the end of 3Q19, an increase compared to CHF 36.4 billion as of the end of 2Q19, mainly reflecting net income attributable to shareholders, a regulatory adjustment of deferred tax assets and a positive foreign exchange impact, partially offset by transactions relating to the repurchase of shares under the share buyback program and a dividend accrual.

Additional tier 1 capital was CHF 13.5 billion as of the end of 3Q19, an increase compared to CHF 11.0 billion as of the end of 2Q19, mainly reflecting the issuance of high-trigger additional tier 1 capital notes.

Tier 2 capital was CHF 3.4 billion as of the end of 3Q19, a decrease compared to CHF 3.9 billion as of the end of 2Q19, mainly reflecting the impact of the prescribed amortization requirement as instruments move closer to their maturity.

Total eligible capital was CHF 54.2 billion as of the end of 3Q19, an increase compared to CHF 51.3 billion as of the end of 2Q19, primarily reflecting higher additional tier 1 capital.

¹ Includes US GAAP cumulative translation adjustments and the foreign exchange impact on regulatory CET1 adjustments.

² Includes the net effect of share-based compensation and pensions, the impact of a dividend accrual and a change in other regulatory adjustments (e.g., the net regulatory impact of (gains)/losses on fair-valued financial liabilities due to changes in own credit risk).

³ Primarily reflects the impact of the prescribed amortization requirement as instruments move closer to their maturity date.

Risk-weighted assets

Our balance sheet positions and off-balance sheet exposures translate into RWA, which are categorized as credit, market and operational RWA. When assessing RWA, it is not the nominal size, but rather the nature (including risk mitigation such as collateral or hedges) of the balance sheet positions or off-balance sheet exposures that determines the RWA.

→ Refer to "Risk-weighted assets" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Capital management in the Credit Suisse Annual Report 2018 for a detailed discussion of RWA.

For capital purposes, FINMA, in line with BIS requirements, uses a multiplier to impose an increase in market risk capital for every regulatory value-at-risk (VaR) backtesting exception above four in the prior rolling 12-month period. In 3Q19, our market risk capital multiplier remained at FINMA and BIS minimum levels and we did not experience an increase in market risk capital.

→ Refer to "Market risk review" in Risk management for further information.

RWA were CHF 302.1 billion as of the end of 3Q19, an increase compared to CHF 290.8 billion as of the end of 2Q19, mainly reflecting increases from movement in risk levels and a positive foreign exchange impact, both in credit risk and market risk, and increases in external model and parameter updates in credit risk.

Excluding the foreign exchange impact, the increase in **credit risk** was primarily driven by increases related to movements in risk levels attributable to book size and external model and parameter updates, partially offset by a decrease in risk levels attributable to book quality. The movements in risk levels attributable to book size were mainly driven by increases relating to a regular update to the stressed window calibration across most divisions and increases in equity exposures in International Wealth Management, Asia Pacific and Swiss Universal Bank. External model and parameter updates mainly reflected the phased-in impact of a FINMA-mandated change from a model approach to a standardized approach for certain loans across all divisions. It also included an additional phase-in of multipliers on income producing real estate (IPRE) and non-IPRE exposures, both within Swiss Universal Bank. The decrease in risk levels attributable to book quality was mainly due to a decrease in derivatives in Global Markets and a decrease in lending risk in Global Markets, Asia Pacific and Investment Banking & Capital Markets.

Excluding the foreign exchange impact, the increase in **market risk** was primarily driven by increases related to movements in risk levels. The increase related to movements in risk levels was mainly due to a regular update to the stressed window calibration, primarily in Global Markets and Asia Pacific.

Leverage metrics

Credit Suisse has adopted the BIS leverage ratio framework, as issued by the BCBS and implemented in Switzerland by FINMA. Under the BIS framework, the leverage ratio measures tier 1 capital against the end-of-period exposure. As used herein, leverage exposure consists of period-end balance sheet assets and prescribed regulatory adjustments.

The leverage exposure was CHF 921.4 billion as of the end of 3Q19, an increase compared to CHF 897.9 billion as of the end of 2Q19, mainly reflecting an increase in the Group's balance sheet assets, primarily reflecting a foreign exchange translation impact and higher operating activities, as well as higher adjustments primarily relating to securities financing transactions and derivative financial assets.

→ Refer to "Balance sheet and off-balance sheet" for further information on the reduction in the Group's consolidated balance sheet.

Leverage exposure – Group

Swiss leverage metrics

The leverage exposure used in the Swiss leverage ratios is measured on the same period-end basis as the leverage exposure for the BIS leverage ratio. As of the end of 3Q19, our Swiss CET1 leverage ratio was 4.1%, our going concern leverage ratio was

5.8%, our gone concern leverage ratio was 4.5% and our TLAC leverage ratio was 10.4%. On a look-through basis, as of the end of 3Q19, our Swiss CET1 leverage ratio was 4.1%, our going concern leverage ratio was 5.5%, our gone concern leverage ratio was 4.8% and our TLAC leverage ratio was 10.3%.

Bank regulatory disclosures

The following capital, RWA and leverage disclosures apply to the Bank. The business of the Bank is substantially the same as that of the Group, including business drivers and trends relating to capital, RWA and leverage metrics.

→ Refer to "BIS capital metrics", "Risk-weighted assets", "Leverage metrics" and "Swiss metrics" for further information.

Shareholders' equity

Our total shareholders' equity was CHF 45.2 billion as of the end of 3Q19 compared to CHF 43.7 billion as of the end of 2Q19.

Total shareholders' equity was positively impacted by net income attributable to shareholders, gains on fair value elected liabilities relating to credit risk, an increase in the share-based compensation obligation, foreign exchange-related movements on cumulative translation adjustments and net gains from the re-measurement of the Group's defined benefit pension plan assets and liabilities, mainly relating to the intercompany transfer of the UK

pension fund, partially offset by transactions relating to the settlement of share-based compensation awards and the repurchase of shares under the share buyback program.

For 2019, the Board of Directors of the Group approved a share buyback program of Group ordinary shares of up to CHF 1.5 billion. We commenced the 2019 share buyback program on January 14, 2019, and in 3Q19 we repurchased 18.3 million ordinary shares totaling CHF 209 million.

→ Refer to the "Consolidated statements of changes in equity (unaudited)" in III – Condensed consolidated financial statements – unaudited for further information on shareholders' equity.

¹ Management believes that tangible shareholders' equity and tangible book value per share, both non-GAAP financial measures, are meaningful as they are measures used and relied upon by industry analysts and investors to assess valuations and capital adequacy.

Risk management

In 3Q19, gross impaired loans of CHF 2.1 billion were stable at 0.7% of our gross loan portfolio of CHF 299.5 billion. Our economic risk capital increased 1% to CHF 30.0 billion and average risk management VaR increased 12% to USD 28 million.

Overview and risk-related developments

Prudent risk taking in line with our strategic priorities is fundamental to our business. The primary objectives of risk management are to protect our financial strength and reputation, while ensuring that capital is well deployed to support business growth and activities. Our risk management framework is based on transparency, management accountability and independent oversight.

→ Refer to "Key risk developments", "Risk management oversight", "Risk appetite framework" and "Risk coverage and management" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Risk management in the Credit Suisse Annual Report 2018 for further information and additional details of our current risk management framework and activities, including definitions of certain terms and relevant metrics.

Key risk developments

Recession risk

Tariffs and trade restrictions continued to be applied in 3Q19 by the US and China against each other. Trade tensions generally increased economic policy and global supply chain uncertainty and adversely affected business investment. The US and global manufacturing sector deteriorated into recession and there was increased concern that this could also impact the rest of the economy, particularly with respect to labor markets and household spending. In addition, financial markets in 3Q19 were impacted by an increase in geopolitical tensions in the Middle East, ongoing uncertainty related to the UK's anticipated withdrawal from the EU and violent demonstrations in Hong Kong, and there were increased concerns over the financial conditions facing many emerging market countries. We have assessed the Group's vulnerabilities under a number of stress scenarios, calibrated to various severities, including in relation to trade tensions, the anticipated withdrawal of the UK from the EU and emerging markets risk, and continue to closely monitor developments.

Economic risk capital review

Economic risk capital is used as a consistent and comprehensive tool for capital management and limit monitoring. Economic risk capital is a Group-wide risk management tool for measuring and reporting the combined impact from quantifiable risks such as market, credit, operational, pension and expense risks, each of which has an impact on our capital position. Return on economic risk capital as a metric for performance management has been de-emphasized with more focus on other metrics such as our return on regulatory capital.

Economic risk capital measures risks in terms of economic realities rather than regulatory or accounting rules and estimates the amount of capital needed to remain solvent and in business under extreme market, business and operating conditions over the period of one year, given our target financial strength (our long-term credit rating). Economic risk capital is set to a level needed to absorb unexpected losses at a confidence level of 99.97%. Our economic risk capital model is a set of methodologies used for measuring quantifiable risks associated with our business activities on a consistent basis. It is calculated separately for position risk (reflecting our exposure to market and credit risks), operational risk and other risks.

We regularly review and update our economic capital methodology in order to ensure that the model remains relevant as markets and business strategies evolve. During 3Q19, we enhanced the data capture for non-traded credit spread risk and recalibrated certain model parameters for traded and securitized products risks within our position risk model. Within other risks, we enhanced the data capture and recalibrated certain model parameters for the expense risk model. The combined net impact of these changes and updates on the Group's economic risk capital would have been a decrease of CHF 1.3 billion, or 4.2%, to CHF 28.4 billion as of the end of 2Q19. Beginning in 3Q19 and in line with the measurement of regulatory capital metrics such as BIS CET1 capital, prior-period balances are not restated for methodology changes, dataset updates or model parameter updates.

→ Refer to "Economic risk capital review" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Risk management – Risk coverage and management in the Credit Suisse Annual Report 2018 for further information on economic risk capital.

¹ Includes primarily high- and low-trigger capital instruments, adjustments to unrealized gains on owned real estate, reduced recognition of deferred tax assets and adjustments to treatment of pension assets and obligations. Economic adjustments are made to BIS CET1 capital to enable comparison between economic risk capital and available economic capital under the Basel III framework.

² Reflects the net difference between the sum of the position risk categories and the position risk on the total portfolio.

³ Includes owned real estate risk, expense risk, pension risk, foreign exchange risk between available economic capital and economic risk capital, interest rate risk on treasury positions, diversification benefits and the impact from deferred share-based compensation awards.

⁴ Ratio of available economic capital to economic risk capital.

Available economic capital trends

As of the end of 3Q19, our available economic capital for the Group was CHF 54.2 billion, an increase of CHF 3.6 billion compared to the end of 2Q19. BIS CET1 capital increased CHF 1.0

billion to CHF 37.4 billion, mainly reflecting net income attributable to shareholders. Economic adjustments increased CHF 2.6 billion to CHF 16.8 billion, mainly driven by the issuance of new high-trigger tier 1 capital instruments.

Economic risk capital – Group	30,011	29,664	29,421	1	2	29,837	29,377	28,936	2	3

¹ Beginning in 2019, the Strategic Resolution Unit has ceased to exist as a separate division of the Group. The residual portfolio remaining as of December 31, 2018 is now managed in an Asset Resolution Unit within the Corporate Center. From 1Q19, average economic risk capital of the Strategic Resolution Unit is included in the Corporate Center.

² Included primarily operational risk and expense risk.

Economic risk capital trends

Compared to the end of 2Q19, our economic risk capital increased 1% to CHF 30.0 billion, due to an increase in position risk, partially offset by a decrease in other risks. The increase in position risk was primarily driven by higher non-traded credit spread risk due to increased loan exposures in Asia Pacific and a reduced benefit from hedges in Investment Banking & Capital Markets as well as higher emerging markets country event risk due to increased sovereign bond exposures in Asia Pacific. The increases in non-traded credit spread risk were partially offset by the impact from the enhanced data capture in Investment Banking & Capital Markets. The decrease in other risks was mainly due to lower expense risk, primarily driven by the enhanced data capture and parameter recalibration mainly impacting Swiss Universal Bank, International Wealth Management and Global Markets, and an increase in net interest income in our trading businesses in Global Markets. This decrease was partially offset by higher pension risk, primarily driven by the impact of lower interest rates on our Swiss pension plan. Operational risk was stable. Excluding the US dollar translation impact, economic risk capital decreased 1%.

As part of our overall risk management, we hold a portfolio of hedges. Hedges are impacted by market movements, similar to other trading securities, and may result in gains or losses which offset losses or gains on the portfolios they were designated to hedge. Due to the varying nature and structure of hedges, these gains or losses may not wholly offset the losses or gains on the portfolios.

Market risk review

Market risk is the risk of financial loss arising from movements in market risk factors. Market risks arise from both our trading and non-trading business activities. The classification of assets and liabilities into trading book and banking book portfolios determines the approach for analyzing our market risk exposure. Our principal market risk measurement for the trading book is VaR. In addition, our market risk exposures are reflected in scenario analysis, as included in our stress testing framework, position risk, as included in our economic risk capital, and sensitivity analysis.

For the purpose of this disclosure, market risk in the trading book is mainly measured using VaR and market risk in our banking book is mainly measured using sensitivity analysis on related market factors.

→ Refer to "Market risk" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Risk management – Risk coverage and management in the Credit Suisse Annual Report 2018 for further information on market risk including our VaR methodology.

Trading book

Market risks from our trading book relate to our trading activities, primarily in Global Markets (which includes ITS) and Asia Pacific. We are active globally in the principal trading markets, using a wide range of trading and hedging products, including derivatives and structured products. Structured products are customized transactions often using combinations of derivatives and are executed to meet specific client or internal needs. As a result of our broad participation in products and markets, our trading strategies are correspondingly diverse and exposures are generally spread across a range of risks and locations.

VaR is a risk measure which quantifies the potential loss on a given portfolio of financial instruments over a certain holding period and that is expected to occur at a certain confidence level. VaR is an important tool in risk management and is used for measuring quantifiable risks from our activities exposed to market risk on a daily basis. In addition, VaR is one of the main risk measures for limit monitoring, financial reporting, calculation of regulatory capital and regulatory backtesting.

We regularly review our VaR model to ensure that it remains appropriate given evolving market conditions and the composition of our trading portfolio. In 3Q19, there were no material changes to our VaR methodology.

We have approval from FINMA, as well as from other regulators for our subsidiaries, to use our regulatory VaR model in the calculation of market risk capital requirements. Ongoing enhancements to our VaR methodology are subject to regulatory approval or notification depending on their materiality, and the model is subject to regular reviews by regulators and the Group's independent model risk management function.

Information required under Pillar 3 of the Basel framework related to risk is available on our website.

→ Refer to "[credit-suisse.com/regulatorydisclosures](https://www.credit-suisse.com/regulatorydisclosures)" for further information.

The tables entitled "One-day, 98% trading book risk management VaR" and "Average one-day, 98% trading book risk management VaR by division" show our trading-related market risk exposure, as measured by one-day, 98% risk management VaR in Swiss francs and US dollars. As we measure trading book VaR for internal risk management purposes using the US dollar as the base currency, the VaR figures were translated into Swiss francs using daily foreign exchange translation rates. VaR estimates are computed separately for each risk type and for the whole portfolio using the historical simulation methodology. The different risk types are grouped into five categories including interest rate, credit spread, foreign exchange, commodity and equity.

4Q18	0	2	14	23	3	0	(14)	28

Excludes risks associated with counterparty and own credit exposures. Investment Banking & Capital Markets has only banking book positions.

¹ Beginning in 2019, the Strategic Resolution Unit has ceased to exist as a separate division of the Group. The residual portfolio remaining as of December 31, 2018 is now managed in an Asset Resolution Unit within the Corporate Center.

² Difference between the sum of the standalone VaR for each division and the VaR for the Group.

We measure VaR in US dollars, as the majority of our trading activities are conducted in US dollars.

Period-end risk management VaR of USD 29 million as of the end of 3Q19 and average risk management VaR of USD 28 million in 3Q19 increased 7% and 12%, respectively, compared to 2Q19, primarily reflecting increased market volatility and higher exposure to residential mortgage-backed securities in securitized products within Global Markets.

The chart entitled “Daily risk management VaR” shows the aggregated market risk in our trading book on a consolidated basis.

Daily risk management VaR (rolling four quarters)

The histogram entitled “Actual daily trading revenues” compares the actual daily trading revenues for 3Q19 with those for 2Q19 and 4Q18. The dispersion of trading revenues indicates the day-to-day volatility in our trading activities. In 3Q19, we had one trading loss day, compared to one trading loss day in 2Q19 and seven trading loss days in 4Q18.

Actual daily trading revenues

VaR backtesting

Backtesting is one of the techniques used to assess the accuracy and performance of the VaR model used by the Group for risk management and regulatory capital purposes and serves to highlight areas of potential enhancements. Backtesting is used by regulators to assess the adequacy of regulatory capital held by the Group, calculated using VaR. Backtesting involves comparing the results produced by the VaR model with the hypothetical trading revenues on the trading book. A backtesting exception occurs when a hypothetical trading loss exceeds the daily VaR estimate.

For capital purposes and in line with BIS requirements, FINMA increases the capital multiplier for every regulatory VaR backtesting exception above four in the prior rolling 12-month period, resulting in an incremental market risk capital requirement for the Group. For the rolling 12-month period through the end of 3Q19, we had one backtesting exception in our regulatory VaR model, remaining in the regulatory “green zone”.

- Refer to “Market risk” in III – Treasury, Risk, Balance sheet and Off-balance sheet – Risk management – Risk coverage and management in the Credit Suisse Annual Report 2018 for further information on VaR backtesting.
- Refer to “Risk-weighted assets” in Capital management for further information on the use of our regulatory VaR model in the calculation of trading book market risk capital requirements.

Banking book

Market risks from our banking book primarily relate to asset and liability mismatch exposures, equity participations and investments in bonds and money market instruments. Our businesses and the treasury function have non-trading portfolios that carry market risks, mainly related to changes in interest rates but also to changes in foreign exchange rates, equity prices and, to a lesser extent, commodity prices.

Interest rate risk on banking book positions is measured by estimating the impact resulting from a one basis point parallel increase in yield curves on the present value of interest rate-sensitive banking book positions. This is measured on the Group's entire banking book. As of the end of 3Q19, the interest rate sensitivity of a one basis point parallel increase in yield curves was negative CHF 2.8 million, compared to negative CHF 2.0 million as of the end of 2Q19. The change reflected our regular management of banking book activities.

Credit risk review

All transactions that are exposed to potential losses arising as a result of a borrower or counterparty failing to meet its financial obligations or as a result of deterioration in the credit quality of the borrower or counterparty are subject to credit risk exposure measurement and management. Credit risk arises from the execution of our business strategy in the divisions and reflects exposures directly held in the form of lending products (including loans and credit guarantees) or derivatives, shorter-term exposures such as underwriting commitments, and settlement risk related to

the exchange of cash or securities outside of typical delivery versus payment structures.

- Refer to "Credit risk" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Risk management – Risk coverage and management in the Credit Suisse Annual Report 2018 for further information on credit risk.
- Refer to "Note 18 – Loans, allowance for loan losses and credit quality" and "Note 31 – Financial instruments" in III – Condensed consolidated financial statements – unaudited for further information on loans and impaired loans and counterparty credit risk, respectively.

Loans

Compared to the end of 2Q19, gross loans increased CHF 4.7 billion to CHF 299.5 billion as of the end of 3Q19, mainly driven by higher loans to financial institutions, higher consumer mortgages, increased commercial and industrial loans, higher consumer finance loans and the US dollar translation impact, partially offset by the euro translation impact. The net increase of CHF 2.8 billion in loans to financial institutions mainly reflected increases in Asia Pacific and Global Markets. Consumer mortgages increased CHF 0.7 billion, primarily reflecting an increase in Swiss Universal Bank. Commercial and industrial loans increased CHF 0.6 billion, primarily due to increases in International Wealth Management and Asia Pacific. The net increase of CHF 0.4 billion in consumer finance loans was driven by increases in Swiss Universal Bank and International Wealth Management.

On a divisional level, gross loans increased CHF 1.6 billion in Asia Pacific, CHF 1.5 billion in Global Markets, CHF 0.7 billion in Swiss Universal Bank, CHF 0.7 billion in International Wealth Management and CHF 0.2 billion in the Corporate Center. Investment Banking & Capital Markets gross loans were stable.

¹ Beginning in 2019, the Strategic Resolution Unit has ceased to exist as a separate division of the Group. The residual portfolio remaining as of December 31, 2018 is now managed in an Asset Resolution Unit within the Corporate Center.

² Impaired loans are only based on loans that are not carried at fair value.

³ Includes gross impaired loans of CHF 41 million, CHF 65 million and CHF 62 million as of the end of 3Q19, 2Q19 and 4Q18, respectively, which are mostly secured by guarantees provided by investment-grade export credit agencies.

Impaired loans

Compared to the end of 2Q19, gross impaired loans increased CHF 91 million to CHF 2.1 billion as of the end of 3Q19, mainly reflecting an increase in restructured loans. Non-interest-earning loans and potential problem loans decreased slightly and non-performing loans were stable.

In Swiss Universal Bank, gross impaired loans increased CHF 82 million, mainly driven by newly impaired positions in the commodity trade finance and the small and medium-sized enterprises business areas. In Investment Banking & Capital Markets and Global Markets, gross impaired loans increased CHF 51 million

and CHF 34 million, respectively, mainly driven by the impairment of a revolving loan to a US-based oil and gas company due to an interest payment default. In Asia Pacific, gross impaired loans increased CHF 5 million, mainly reflecting a newly impaired share-backed loan in China and newly impaired positions in aviation and ship finance, partially offset by a repayment in ship finance. In International Wealth Management, gross impaired loans decreased CHF 80 million, mainly driven by reduced exposures in aviation finance, export finance and European mortgages, partially offset by a newly impaired position in lombard lending. Corporate Center impaired loans were stable.

¹ Beginning in 2019, the Strategic Resolution Unit has ceased to exist as a separate division of the Group. The residual portfolio remaining as of December 31, 2018 is now managed in an Asset Resolution Unit within the Corporate Center.

² Allowance for loan losses is only based on loans that are not carried at fair value.

Allowance for loan losses

Compared to the end of 2Q19, the allowance for loan losses increased CHF 42 million to CHF 924 million as of the end of 3Q19, primarily due to increases in Asia Pacific and Swiss Universal Bank, partially offset by a decrease in the Corporate Center. In Asia Pacific, the increase in allowance for loan losses of CHF 23 million mainly reflected an increase in market-implied probability of default (PD) for exposures with a BB, B and CCC rating and a final provision on an exposure to an Indian infrastructure development company. In Swiss Universal Bank, the increase in allowance for loan losses of CHF 14 million mainly reflected new provisions in the small and medium-sized enterprises, the consumer finance, the commodity trade finance and the large

Swiss corporates business areas, partially offset by write-offs in the consumer finance and the small and medium-sized enterprises business areas. The increases in allowance for loan losses of CHF 6 million and CHF 3 million in Investment Banking & Capital Markets and Global Markets, respectively, were mainly driven by the increase in market-implied PD. In International Wealth Management, the increase in allowance for loan losses of CHF 4 million mainly reflected increased provisions in ship finance and lombard lending, partially offset by a write-off in ship finance. In the Corporate Center, the decrease in allowance for loan losses of CHF 8 million was mainly driven by the partial release of a provision on an exposure to a South African gold mining company and a release of provisions in export finance.

Selected European credit risk exposures

→ Refer to "Selected European credit risk exposures" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Risk management – Risk review and results in the Credit Suisse Annual Report 2018 and in II – Treasury, risk, balance sheet and off-balance sheet – Risk management – Credit risk review in the Credit Suisse Financial Report 2Q19 for further information on selected European credit risk exposures.

Balance sheet and off-balance sheet

As of the end of 3Q19, total assets of CHF 795.9 billion increased 1% and total liabilities of CHF 750.6 billion increased 1% compared to the end of 2Q19, primarily reflecting a foreign exchange translation impact and higher operating activities.

The majority of our transactions are recorded on our balance sheet. However, we also enter into transactions that give rise to both on and off-balance sheet exposure.

Balance sheet

Total assets were CHF 795.9 billion as of the end of 3Q19, an increase of CHF 11.7 billion, or 1%, from the end of 2Q19, reflecting the foreign exchange translation impact and higher operating activities. Excluding the foreign exchange translation impact, total assets increased CHF 3.2 billion.

Compared to the end of 2Q19, trading assets increased CHF 12.1 billion, or 8%, mainly due to higher debt and equity securities, higher derivative instruments and the foreign exchange translation impact. Net loans increased CHF 4.7 billion, or 2%, mainly driven by higher loans to financial institutions, higher

consumer mortgages, increased commercial and industrial loans, higher consumer finance loans and the foreign exchange translation impact. Cash and due from banks increased CHF 3.3 billion, or 4%, mainly driven by higher cash positions at the ECB, the SNB and various other central banks, partially offset by a decrease in US treasury bills. Central bank funds sold, securities purchased under resale agreements and securities borrowing were stable, mainly reflecting a decrease in cash collateral, offset by an increase in reverse repurchase transactions from customers and the foreign exchange translation impact. Brokerage receivables decreased CHF 2.4 billion, or 6%, primarily due to decreases in open trades and margin lending, partially offset by an increase in failed trades and the foreign exchange translation impact. All other assets decreased CHF 5.2 billion, or 5%, mainly reflecting a decrease of CHF 6.7 billion, or 15%, in securities received as collateral, partially offset by an increase of CHF 1.6 billion, or 4%, in other assets, mainly related to assets held-for-sale.

Balance sheet summary

end of	3Q19	2Q19	4Q18	% change

Total assets	795,920	784,216	768,916	1	4
Liabilities and equity (CHF million)					
Due to banks	20,075	18,498	15,220	9	32
Customer deposits	374,872	364,302	363,925	3	3
Central bank funds purchased, securities sold under repurchase agreements and securities lending transactions	23,924	19,582	24,623	22	(3)
Trading liabilities	43,858	43,356	42,169	1	4
Long-term debt	159,115	157,955	154,308	1	3
Brokerage payables	33,545	35,120	30,923	(4)	8
All other liabilities	95,227	101,475	93,729	(6)	2
Total liabilities	750,616	740,288	724,897	1	4
Total shareholders' equity	45,150	43,673	43,922	3	3
Noncontrolling interests	154	255	97	(40)	59
Total equity	45,304	43,928	44,019	3	3
Total liabilities and equity	795,920	784,216	768,916	1	4

Total liabilities were CHF 750.6 billion as of the end of 3Q19, an increase of CHF 10.3 billion, or 1%, from the end of 2Q19, reflecting the foreign exchange translation impact and higher operating activities. Excluding the foreign exchange translation impact, total liabilities increased CHF 1.6 billion.

Compared to the end of 2Q19, customer deposits increased CHF 10.6 billion, or 3%, mainly due to increases in certificates of deposits, time deposits and the foreign exchange translation impact, partially offset by a decrease in demand deposits. Central bank funds purchased, securities sold under repurchase agreements and securities lending transactions increased CHF 4.3 billion, or 22%, primarily due to an increase in cash collateral. Due to banks increased CHF 1.6 billion, or 9%, mainly driven by an increase in time deposits. Trading liabilities were stable, reflecting the foreign exchange translation impact, offset by a decrease in cash collateral on derivative instruments. Long-term debt was stable, primarily reflecting the foreign exchange translation impact, offset by maturities of senior debt. Brokerage payables decreased CHF 1.6 billion, or 4%, mainly due to decreases in open trades with banks, partially offset by an increase in failed trades and the foreign exchange translation impact. All other liabilities decreased CHF 6.2 billion, or 6%, primarily reflecting a decrease of CHF 6.7 billion, or 15%, in obligation to return securities received as collateral, partially offset by an increase of CHF 0.4 billion, or 1%, in other liabilities.

→ Refer to "Funding sources" in Liquidity and funding management – Funding management and "Capital management" for further information, including our funding of the balance sheet and the leverage ratio.

Off-balance sheet

We enter into off-balance sheet arrangements in the normal course of business. Off-balance sheet arrangements are transactions or other contractual arrangements with, or for the benefit of, an entity that is not consolidated. These transactions include derivative instruments, guarantees and similar arrangements, retained or contingent interests in assets transferred to an unconsolidated entity in connection with our involvement with special purpose entities (SPEs), and obligations and liabilities (including contingent obligations and liabilities) under variable interests in unconsolidated entities that provide financing, liquidity, credit and other support.

Report of Independent Registered Public Accounting Firm

To the shareholders and Board of Directors of Credit Suisse Group AG, Zurich

Results of Review of Interim Financial Information

We have reviewed the condensed consolidated balance sheet of Credit Suisse Group AG and subsidiaries ("the Group") as of September 30, 2019, the related condensed consolidated statements of operations, comprehensive income, and changes in equity for the three and nine-month periods ended September 30, 2019 and 2018, the related condensed consolidated statement of cash flows for the nine-month periods ended September 30, 2019 and 2018, and the related notes (collectively, the consolidated interim financial information). Based on our reviews, we are not aware of any material modifications that should be made to the consolidated interim financial information for it to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheet of the Group as of December 31, 2018, and the related consolidated statements of operations, comprehensive income, changes in equity, and cash flows for the year then ended (not presented herein); and in our report dated March 22, 2019, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2018, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Basis for Review Results

This consolidated interim financial information is the responsibility of the Group's management. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Group in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our reviews in accordance with the standards of the PCAOB. A review of consolidated interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the PCAOB, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Notes to the condensed consolidated financial statements – unaudited

1 Summary of significant accounting policies

Basis of presentation

The accompanying unaudited condensed consolidated financial statements of Credit Suisse Group AG (the Group) are prepared in accordance with accounting principles generally accepted in the US (US GAAP) and are stated in Swiss francs (CHF). These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto for the year ended December 31, 2018 included in the Credit Suisse Annual Report 2018.

→ Refer to "Note 1 – Summary of significant accounting policies" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for a description of the Group's significant accounting policies.

Certain financial information, which is normally included in annual consolidated financial statements prepared in accordance with US GAAP, but not required for interim reporting purposes, has been condensed or omitted. Certain reclassifications have been made to the prior period's consolidated financial statements to conform

to the current period's presentation. These condensed consolidated financial statements reflect, in the opinion of management, all adjustments that are necessary for a fair presentation of the condensed consolidated financial statements for the periods presented. The 2Q19 consolidated statements of operations and comprehensive income, the 2Q19 consolidated balance sheets and the 2Q19 consolidated statements of changes in equity have been added for the convenience of the reader and are not a required presentation under US GAAP. The results of operations for interim periods are not indicative of results for the entire year.

In preparing these condensed consolidated financial statements, management is required to make estimates and assumptions which affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the condensed consolidated balance sheets and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2 Recently issued accounting standards

Recently adopted accounting standards

The following provides the most relevant recently adopted accounting standards.

→ Refer to "Note 2 – Recently issued accounting standards" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for a description of accounting standards adopted in 2018.

ASC Topic 220 – Income Statements – Reporting Comprehensive Income

In January 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-02, "Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income" (ASU 2018-02), an update to Accounting Standards Codification (ASC) Topic 220 – Income Statement – Reporting Comprehensive Income. The amendments in ASU 2018-02 allowed a reclassification from accumulated other comprehensive income (AOCI) to retained earnings for the stranded tax effects resulting from the US Tax Cuts and Jobs Act. ASU 2018-02 was effective for annual reporting periods and interim periods within those periods beginning after December 15, 2018. Early adoption was permitted. The adoption of ASU 2018-02 on January 1, 2019 resulted in a net increase in retained earnings of CHF 64 million as a result of the reclassification from AOCI to retained earnings, which was the result of the re-measurement of deferred tax assets and liabilities associated with the change in tax rates.

ASC Topic 350 – Intangibles – Goodwill and Other

In August 2018, the FASB issued ASU 2018-15, "Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract" (ASU 2018-15), an update to ASC Subtopic 350-40 – Intangibles – Goodwill

and Other – Internal-Use Software. The amendments in ASU 2018-15 align the requirements for capitalizing costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software. ASU 2018-15 is effective for annual reporting periods beginning after December 15, 2019, including interim periods within those annual reporting periods and can be applied either retrospectively or prospectively. Early adoption, including adoption in an interim period, was permitted. The Group elected to early adopt ASU 2018-15 prospectively on January 1, 2019. The adoption of ASU 2018-15 did not have a material impact on the Group's financial position, results of operations or cash flows.

ASC Topic 815 – Derivatives and Hedging

In August 2017, the FASB issued ASU 2017-12, "Targeted Improvements to Accounting for Hedging Activities" (ASU 2017-12), an update to ASC Topic 815 – Derivatives and Hedging. ASU 2017-12 made changes to the hedge accounting model intended to facilitate financial reporting that more closely reflected an entity's risk management activities and simplified application of hedge accounting. The amendments in ASU 2017-12 provided more hedging strategies that will be eligible for hedge accounting, eased the documentation and effectiveness assessment requirements and resulted in changes to the presentation and disclosure requirements of hedge accounting activities. ASU 2017-12 was effective for annual reporting periods beginning after December 15, 2018, and for the interim periods within those annual reporting periods. Early adoption, including adoption in an interim period, was permitted. The adoption of ASU 2017-12 on January 1, 2019 did not have a material impact on the Group's financial position, results of operations and cash flows.

In October 2018, the FASB issued ASU 2018-16, "Inclusion of the Secured Overnight Financing Rate (SOFR) Overnight Index Swap (OIS) Rate as a Benchmark Interest Rate for Hedge Accounting Purposes" (ASU 2018-16), an update to ASC Topic 815 – Derivatives and Hedging. ASU 2018-16 permitted the use of the OIS rate based on the SOFR as a US benchmark interest rate for hedge accounting purposes and was effective for the Group on January 1, 2019. The adoption of ASU 2018-16 on January 1, 2019 did not impact the Group's existing hedges.

ASC Topic 820 – Fair Value Measurement

In August 2018, the FASB issued ASU 2018-13, "Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement" (ASU 2018-13), an update to ASC Topic 820 – Fair Value Measurement. The amendments in ASU 2018-13 remove, modify and add certain disclosure requirements in ASC Topic 820, Fair Value Measurement. ASU 2018-13 is effective for annual reporting periods beginning after December 15, 2019 and for the interim periods within those annual reporting periods. Early adoption is permitted, including in an interim period, for any eliminated or modified disclosure requirements. The Group early adopted the amendments for removing disclosures and the amendments for certain modifying disclosures upon the issuance of ASU 2018-13. As all amendments relate to disclosures, both the early adopted amendments and those amendments to be adopted on January 1, 2020 did not and will not have an impact on the Group's financial position, results of operation or cash flows.

ASC Topic 842 – Leases

In February 2016, the FASB issued ASU 2016-02, "Leases" (ASU 2016-02), creating ASC Topic 842 – Leases and superseding ASC Topic 840 – Leases. ASU 2016-02 set out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. ASU 2016-02 also included disclosure requirements to provide more information about the amount, timing and uncertainty of cash flows arising from leases. Lessor accounting was substantially unchanged compared to the previous accounting guidance. Under the previous lessee accounting model, the Group is required to distinguish between finance leases, which are recognized on the balance sheet, and operating leases, which are not. ASU 2016-02 required lessees to present a right-of-use asset and a corresponding lease liability on the balance sheet irrespective of the lease classification.

The Group adopted ASU 2016-02 and its subsequent amendments on January 1, 2019 using the modified retrospective approach, with a transition adjustment recognized in retained earnings without restating comparatives. The Group elected the use of the package of practical expedients and the practical expedient to use hindsight.

As a result of adoption, the Group recognized lease liabilities and related right-of-use assets of approximately CHF 3.5 billion and CHF 3.3 billion, respectively. In addition, the Group recognized an increase in retained earnings of approximately CHF 0.2 billion, net of tax, which included the release of previously deferred gains on

sale lease-back transactions and previously unrecognized impairment losses.

Standards to be adopted in future periods

ASC Topic 326 – Financial Instruments – Credit Losses

In June 2016, the FASB issued ASU 2016-13, "Measurement of Credit Losses on Financial Instruments" (ASU 2016-13), creating ASC Topic 326 – Financial Instruments – Credit Losses. ASU 2016-13 is intended to improve financial reporting by requiring timelier recording of credit losses on financial assets measured at amortized cost basis including, but not limited to loans, net investments in leases recognized as lessor and off-balance sheet credit exposures. ASU 2016-13 eliminates the probable initial recognition threshold under the current incurred loss methodology for recognizing credit losses. Instead, ASU 2016-13 requires the measurement of all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions and reasonable and supportable forecasts. The Group will incorporate forward-looking information and macroeconomic factors into its credit loss estimates. ASU 2016-13 requires enhanced disclosures to help investors and other financial statement users to better understand significant estimates and judgments used in estimating credit losses, as well as the credit quality and underwriting standards of an organization's portfolio. As the Group is a US Securities and Exchange Commission filer, ASU 2016-13 and its subsequent amendments are effective for annual reporting periods beginning after December 15, 2019, including interim periods within those annual reporting periods. Early adoption is permitted for annual reporting periods, including interim periods within those annual reporting periods, beginning after December 15, 2018. The Group plans to adopt ASU 2016-13 and its subsequent amendments on January 1, 2020, applying the modified retrospective approach.

The Group established a cross-functional implementation team and governance structure for the project. The Group continues to monitor key interpretive issues including the FASB's ongoing accounting standards development and adjusts its current expected credit loss (CECL) methodology where applicable. The Group intends to utilize multiple macroeconomic scenarios in estimating expected credit losses. Furthermore, the Group will continue with implementation efforts over the remainder of 2019. The implementation efforts will include validating and testing the CECL models where not already completed as well as updating and testing the end-to-end processes, with a continued focus on internal control documentation and control testing.

The Group estimates that the adoption of ASU 2016-13, and its subsequent amendments, will increase the allowance for credit losses and credit risk-related provisions by 10% to 30%, on a pre-tax basis, resulting in a decrease to retained earnings on January 1, 2020, with no expected impact on regulatory capital. This estimate is based on the CECL implementation status to date, the current composition of the Group's lending portfolio as well as the use of multiple macroeconomic scenarios. The key drivers for the estimated increase are that the measurement of expected credit losses will consider the full remaining life of the instrument and will

also take into account reasonable and supportable forward-looking information. The estimated impact outlined above is expected to vary as it depends on the Group's completion of the implementation work and the economic outlook, as well as the composition of the Group's lending portfolio on the adoption date.

ASC Topic 715 – Compensation – Retirement Benefits

In August 2018, the FASB issued ASU 2018-14, "Changes to the Disclosure Requirements for Defined Benefit Plans" (ASU 2018-14), an update to ASC Topic 715 – Compensation—Retirement Benefits—Defined Benefit Plans—General (Subtopic

715-20): Disclosure Framework. ASU 2018-14 modifies the disclosure framework to improve disclosure requirements for employers that sponsor defined benefit pension or other postretirement plans. ASU 2018-14 is effective for annual reporting periods ending after December 15, 2020, with early adoption permitted. ASU 2018-14 should be applied on a retrospective approach for all periods presented. As these amendments relate only to disclosures, there will be no impact from the adoption of ASU 2018-14 on the Group's financial position, results of operations or cash flows.

3 Business developments and subsequent events

Business developments

In September 2019, the Group completed the first closing of the transfer announced in June 2019, which combined its open architecture investment fund platform, Credit Suisse InvestLab AG (InvestLab), with Allfunds Group (Allfunds). The transaction included the transfer of the InvestLab legal entity and its related employees and service agreements to Allfunds. The subsequent transfer of the related distribution agreements is expected to be completed in 1Q20.

Other revenues in 3Q19 included CHF 327 million from this first closing as reflected in net revenues of the Swiss Universal Bank, International Wealth Management and Asia Pacific divisions.

Subsequent events

There were no subsequent events since the balance sheet date of the condensed consolidated financial statements.

4 Segment information

The Group is a global financial services company domiciled in Switzerland and serves its clients through three regionally focused divisions: Swiss Universal Bank, International Wealth Management and Asia Pacific. These regional businesses are supported by two other divisions specialized in investment banking capabilities: Global Markets and Investment Banking & Capital Markets. Beginning in 2019, the Strategic Resolution Unit has ceased to exist as a separate division of the Group. The residual portfolio

remaining as of December 31, 2018 is now managed in an Asset Resolution Unit and is separately disclosed within the Corporate Center. The segment information reflects the Group's reportable segments and the Corporate Center, which are managed and reported on a pre-tax basis.

→ Refer to "Note 4 – Segment information" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for further information on segment information, revenue sharing and cost allocation and funding.

12 Restructuring expenses

The Group completed the three-year restructuring plan in connection with the implementation of the revised Group strategy by the end of 2018. Restructuring expenses primarily included

termination costs, expenses in connection with the acceleration of certain deferred compensation awards and real estate contract termination costs.

Restructuring expenses by segment

Diluted earnings per share available for common shares	0.34	0.36	0.16	0.99	0.67

¹ Weighted-average potential common shares relating to instruments that were not dilutive for the respective periods (and therefore not included in the diluted earnings per share calculation above) but could potentially dilute earnings per share in the future were 9.5 million, 6.2 million, 7.7 million, 7.5 million and 9.5 million for 3Q19, 2Q19, 3Q18, 9M19 and 9M18, respectively.

14 Revenue from contracts with customers

The Group receives investment advisory and investment management fees for services provided in its wealth management businesses which are generally reflected in the line item 'Investment and portfolio management' in the table "Contracts with customers and disaggregation of revenues".

As a fund manager, the Group typically receives base management fees and may additionally receive performance-based management fees which are both recognized as 'Investment and portfolio management' revenues in the table "Contracts with customers and disaggregation of revenues".

The Group's capital markets businesses underwrite and sell securities on behalf of customers and receives underwriting fees.

The Group also offers brokerage services in its investment banking businesses, including global securities sales, trading and execution, prime brokerage and investment research. For the services provided, for example the execution of client trades in securities or derivatives, the Group typically earns a brokerage commission when the trade is executed.

Credit Suisse's investment banking businesses provide services that include advisory services to clients in connection with corporate finance activities. The term 'advisory' includes any type of service the Group provides in an advisory capacity. Revenues recognized from these services are reflected in the line item 'Other Services' in the table.

Contracts with customers and disaggregation of revenues

in	3Q19	2Q19	3Q18	9M19	9M18
Contracts with customers (CHF million)					
Investment and portfolio management	874	846	896	2,565	2,684
Other securities business	17	16	12	45	35
Underwriting	333	514	405	1,192	1,388
Brokerage	731	732	623	2,157	2,182
Other services	378	375	452	1,075	1,410
Total revenues from contracts with customers	2,333	2,483	2,388	7,034	7,699

The table above differs from "Note 6 – Commissions and fees" as it includes only those contracts with customers that are in scope of ASC Topic 606 – Revenue from Contracts with Customers.

Contract balances

end of / in	3Q19	2Q19	4Q18
Contract balances (CHF million)			
Contract receivables	850	901	791
Contract liabilities	54	63	56
Revenue recognized in the reporting period included in the contract liabilities balance at the beginning of period	19	10	16

The Group's contract terms are generally such that they do not result in any contract assets.

The Group did not recognize any revenue in the reporting period from performance obligations satisfied in previous periods.

Remaining performance obligations

ASC Topic 606's practical expedient allows the Group to exclude from its remaining performance obligations disclosure of any performance obligations which are part of a contract with an original expected duration of one year or less. Additionally any variable consideration, for which it is probable that a significant reversal in the amount of cumulative revenue recognized will occur when the uncertainty associated with the variable consideration is subsequently resolved, is not subject to the remaining performance obligations disclosure because such variable consideration is not included in the transaction price (e.g., investment management fees). The Group determined that no material remaining performance obligations are in scope of the remaining performance obligations disclosure.

→ Refer to "Note 14 – Revenue from contracts with customers" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for further information.

¹ Gross amount of goodwill and accumulated impairment include CHF 12 million related to legacy business transferred to the former Strategic Resolution Unit in 4Q15 and fully written off at the time of transfer, in addition to the divisions disclosed.

In accordance with US GAAP, the Group continually assesses whether or not there has been a triggering event requiring a review of goodwill. There was no triggering event in 3Q19.

The carrying value of each reporting unit for the purpose of the goodwill impairment test is determined by considering the reporting units' risk-weighted assets usage, leverage ratio exposure, deferred tax assets, goodwill and intangible assets. Any residual equity, after considering the total of these elements, is allocated to the reporting units on a pro-rata basis.

In estimating the fair value of its reporting units, the Group applied a combination of the market approach and the income approach. Under the market approach, consideration was given to price to projected earnings multiples or price to book value multiples for similarly traded companies and prices paid in recent transactions that have occurred in its industry or in related industries. Under the income approach, a discount rate was applied

that reflects the risk and uncertainty related to the reporting unit's projected cash flows, which were determined from the Group's financial plan.

In determining the estimated fair value, the Group relied upon its latest five-year strategic business plan which included significant management assumptions and estimates based on its view of current and future economic conditions and regulatory changes, and as approved by the Board of Directors.

The results of the impairment evaluation of each reporting unit's goodwill would be significantly impacted by adverse changes in the underlying parameters used in the valuation process. If actual outcomes adversely differ by a significant margin from its best estimates of the key economic assumptions and associated cash flows applied in the valuation of the reporting unit, the Group could potentially incur material impairment charges in the future.

21 Leases

The Group enters into both lessee and lessor arrangements. A lease is identified when a contract (or a part of a contract) exists that conveys the right to control the use of an identified asset for a period of time in exchange for consideration. In determining whether a contract contains a lease, the Group has assessed whether there is an identifiable asset and whether it has the right to control the use of the identified asset.

→ Refer to "Note 2 – Recently issued accounting standards" for further information.

Lessee arrangements

The Group recognizes lease liabilities, which are reported as other liabilities or long-term debt, and right-of-use (ROU) assets, which are reported as other assets. Lease liabilities represent an obligation to make lease payments under the lease contract while ROU assets represent the right to use an underlying asset for the lease term. Lease liabilities and ROU assets are recognized at the lease commencement date based on the present value of future lease payments over the lease term.

→ Refer to "Note 20 – Other assets and other liabilities" and "Note 22 – Long-term debt".

The Group enters into leases with fixed or variable lease payment terms, or with lease payment terms that depend on an index or a referenced rate. Lease payment terms at lease commencement which depend on an index or a referenced rate are considered to be unavoidable and are therefore included in the lease liabilities. Other variable lease payment terms, as well as subsequent changes in an index or referenced rate, are excluded from the lease liabilities. The Group's incremental borrowing rate, which is used in determining the present value of lease payments, is derived from information available at the lease commencement date. The incremental borrowing rate used for leases is a comparable rate that the Group would expect to pay if it were borrowing from a third party.

The Group primarily enters into operating leases. Operating leases result in a single lease cost, calculated such that the cost of the lease is allocated over the remaining lease term on a straight-line basis. When a real estate lease has both lease and non-lease components, the Group allocates the consideration in the contract based on the relative standalone selling price. For all leases other than real estate leases, the Group does not separate lease and non-lease components. Operating and variable lease costs are recognized in general and administrative expenses. The Group's finance leases are not material.

Lease terms may include options that permit the Group to extend or terminate these leases. Such options are only included in

the measurement of ROU assets and lease liabilities when it is reasonably certain that the Group would exercise the extension option or would not exercise the termination option.

The Group has entered into leases for real estate, equipment and a portfolio of residential solar panels. The portfolio of residential solar panels and certain real estate have subsequently been sub-leased. Sublease income is recognized in other revenues. Certain real estate leases include restrictions, for example, conditions relating to naming rights or signage.

Lease costs			
in	3Q19	2Q19	9M19
Lease costs (CHF million)			
Operating lease costs	93	94	301
Variable lease costs	18	10	30
Sublease income	(22)	(18)	(58)
Net lease costs	89	86	273

From time to time, the Group enters into sale-leaseback transactions in which an asset is sold and immediately leased back. If specific criteria are met, the asset is derecognized from the balance sheet and an operating lease is recognized. There were no sale-leaseback transactions in 3Q19.

2022	354
2023	320
Thereafter	2,209
Future operating lease commitments	4,251
Less minimum non-cancellable sublease rentals	(190)
Total net future minimum lease commitments	4,061

Upon adoption of ASU 2016-02 and its subsequent amendments on January 1, 2019, the Group revised the future operating lease commitments to reflect the expected term of the leases. Previously, the operating lease commitments were based on the minimum contractual term of the lease.

Lessor arrangements

The Group de-recognizes the underlying assets and recognizes net investments in the leases of sales-type and direct financing leases, which are classified as loans. Subsequently, unearned income is amortized to interest income over the lease term using the effective interest method. For operating leases, the Group continues to recognize the underlying asset and depreciates the asset over its estimated useful life. Lease income is recognized in other income on a straight-line basis over the lease term.

Consideration in a contract is allocated to each separate lease component and each non-lease component on a relative basis in proportion to the stand-alone selling price. The stand-alone selling price is the price at which a customer would purchase the component separately.

The Group enters into sales-type, direct financing and operating leases for equipment, vehicles, real estate and residential solar panels.

The net investment in the lease is calculated as the lease receivable plus the unguaranteed portion of the estimated residual value. The lease receivable is initially measured at the present value of the sum of the future lease payments receivable over the lease term and any portion of the estimated residual value at the end of the lease term that is guaranteed by either the lessee or an unrelated third party. The Group initially measures the unguaranteed residual value of the asset as the present value of the amount the lessor expects to derive from the underlying asset following the end of the lease term that is not guaranteed by the lessee or any other third party unrelated to the lessor. The discount rate used is the rate implicit in the lease.

As of 3Q19, the Group had approximately CHF 0.8 billion of residual value guarantees associated with lessor arrangements.

The Group's risk of loss relating to the residual value of leased assets is mitigated through contractual arrangements with manufacturers or suppliers. Leased assets are also monitored through projections of the residual values at lease origination and periodic reviews of residual values.

→ Refer to "Note 18 – Loans, allowance for loan losses and credit quality" for further information on impaired loans.

Future interest receivable	(24)	(230)	–
Lease receivables	418	2,615	–

The Group elected the practical expedient to not evaluate whether certain sales taxes and other similar taxes are lessor cost or lessee cost and excludes these costs from being reported as lease income with an associated expense.

The Group enters into leases with fixed or variable lease payments, or with lease payments that depend on an index or a referenced rate which are included in the net investment in the lease at lease commencement, as such payments are considered unavoidable. Other variable lease payments, as well as subsequent changes in an index or referenced rate, are excluded from the net investment in the lease. Lease payments are recorded when due and payable by the lessee.

Lease income

in	3Q19	2Q19	9M19
Lease income (CHF million)			
Interest income on sales-type leases	7	1	9
Interest income on direct financing leases	24	26	77
Lease income from operating leases	37	18	73
Variable lease income	0	2	3
Total lease income	68	47	162

Lease terms may include options that permit the lessee to extend or renew these leases. Such options are only included in the measurement of lease receivables for sales-type and direct financing leases when it is reasonably certain that the lessee would exercise these options. Certain leases include i) termination options that allow lessees to terminate the leases within three months of the commencement date, with a notice period of 30 days; ii) termination options that allow the Group to terminate the lease but do not provide the lessee with the same option; and iii) termination penalties, options to prepay the payments for the remaining lease term or options that permit the lessee to purchase the leased asset at market value or at the greater of market value and the net present value of the remaining payments.

The Group may enter into vehicle leases as a lessor with members of the Board of Directors or the Executive Board. The terms of such leases with members of the Board of Directors are similar to those with third parties and the terms of such leases with members of the Executive Board reflect standard employee conditions.

24 Offsetting of financial assets and financial liabilities

The disclosures set out in the tables below include derivatives, reverse repurchase and repurchase agreements, and securities lending and borrowing transactions that:

- are offset in the Group's consolidated balance sheets; or
- are subject to an enforceable master netting agreement or similar agreement (enforceable master netting agreements), irrespective of whether they are offset in the Group's consolidated balance sheets.

Similar agreements include derivative clearing agreements, global master repurchase agreements and global master securities lending agreements.

Derivatives

The Group transacts bilateral over-the-counter (OTC) derivatives (OTC derivatives) mainly under International Swaps and Derivatives Association (ISDA) Master Agreements and Swiss Master Agreements for OTC derivative instruments. These agreements provide for the net settlement of all transactions under the agreement through a single payment in the event of default or termination under the agreement. They allow the Group to offset balances from derivative assets and liabilities as well as the receivables and payables to related cash collateral transacted with the same counterparty. Collateral for OTC derivatives is received and provided in the form of cash and marketable securities. Such collateral may be subject to the standard industry terms of an ISDA Credit Support Annex. The terms of an ISDA Credit Support Annex provide that securities received or provided as collateral may be pledged or sold during the term of the transactions and must be returned upon maturity of the transaction. These terms also give each counterparty the right to terminate the related transactions upon the other counterparty's failure to post collateral. Financial collateral received or pledged for OTC derivatives may also be subject to collateral agreements which restrict the use of financial collateral.

For derivatives transacted with exchanges (exchange-traded derivatives) and central clearing counterparties (OTC-cleared derivatives), positive and negative replacement values (PRV/NRV) and related cash collateral may be offset if the terms of the rules and regulations governing these exchanges and central clearing counterparties permit such netting and offset.

Where no such agreements or terms exist, fair values are recorded on a gross basis.

Exchange-traded derivatives or OTC-cleared derivatives, which are fully margined and for which the daily margin payments constitute settlement of the outstanding exposure, are not included in the offsetting disclosures because they are not subject to offsetting due to the daily settlement. The daily margin payments, which are not settled until the next settlement cycle is conducted, are presented in brokerage receivables or brokerage payables. The notional amount for these daily settled derivatives is included in the fair value of derivative instruments table in "Note 28 – Derivatives and hedging activities".

Under US GAAP, the Group elected to account for substantially all financial instruments with an embedded derivative that is not considered clearly and closely related to the host contract at fair value. There is an exception for certain bifurcated hybrid debt instruments which the Group did not elect to account for at fair value. However, these bifurcated embedded derivatives are generally not subject to enforceable master netting agreements and are not recorded as derivative instruments under trading assets and liabilities or other assets and other liabilities. Information on bifurcated embedded derivatives has therefore not been included in the offsetting disclosures.

The following table presents the gross amount of derivatives subject to enforceable master netting agreements by contract and transaction type, the amount of offsetting, the amount of derivatives not subject to enforceable master netting agreements and the net amount presented in the consolidated balance sheets.

¹ Primarily precious metals, commodity and energy products.

² Represents derivatives where a legal opinion supporting the enforceability of netting in the event of default or termination under the agreement is not in place.

Reverse repurchase and repurchase agreements and securities lending and borrowing transactions

Reverse repurchase and repurchase agreements are generally covered by global master repurchase agreements. In certain situations, for example, in the event of default, all contracts under the agreements are terminated and are settled net in one single payment. Global master repurchase agreements also include payment or settlement netting provisions in the normal course of business that state that all amounts in the same currency payable by each party to the other under any transaction or otherwise under the global master repurchase agreement on the same date shall be set off.

Transactions under such agreements are netted in the consolidated balance sheets if they are with the same counterparty, have the same maturity date, settle through the same clearing institution and are subject to the same enforceable master netting agreement. The amounts offset are measured on the same basis as the underlying transaction (i.e., on an accrual basis or fair value basis).

Securities lending and borrowing transactions are generally executed under global master securities lending agreements with netting terms similar to ISDA Master Agreements. In certain situations, for example in the event of default, all contracts under the agreement are terminated and are settled net in one single payment. Transactions under these agreements are netted in the consolidated balance sheets if they meet the same right of offset

criteria as for reverse repurchase and repurchase agreements. In general, most securities lending and borrowing transactions do not meet the criterion of having the same settlement date specified at inception of the transaction, and therefore they are not eligible for netting in the consolidated balance sheets. However, securities lending and borrowing transactions with explicit maturity dates may be eligible for netting in the consolidated balance sheets.

Reverse repurchase and repurchase agreements are collateralized principally by government securities, money market instruments and corporate bonds and have terms ranging from overnight to a longer or unspecified period of time. In the event of counterparty default, the reverse repurchase agreement or securities lending agreement provides the Group with the right to liquidate the collateral held. As is the case in the Group's normal course of business, a significant portion of the collateral received that may be sold or repledged was sold or repledged as of the end of 3Q19 and 4Q18. In certain circumstances, financial collateral received may be restricted during the term of the agreement (e.g., in tri-party arrangements).

The following table presents the gross amount of securities purchased under resale agreements and securities borrowing transactions subject to enforceable master netting agreements, the amount of offsetting, the amount of securities purchased under resale agreements and securities borrowing transactions not subject to enforceable master netting agreements and the net amount presented in the consolidated balance sheets.

Offsetting of securities purchased under resale agreements and securities borrowing transactions

end of	3Q19			4Q18		
	Gross	Offsetting	Net book value	Gross	Offsetting	Net book value

Derivatives	11.7	2.2	0.0	9.5	11.3	1.4	0.0	9.9
Securities sold under repurchase agreements	13.6	13.6	0.0	0.0	19.8	19.7	0.1	0.0
Securities lending transactions	7.6	6.1	0.0	1.5	3.6	3.2	0.0	0.4
Obligation to return securities received as collateral, at fair value	37.4	31.0	0.0	6.4	39.4	34.3	0.0	5.1
Total financial liabilities subject to enforceable master netting agreements	70.3	52.9	0.0	17.4	74.1	58.6	0.1	15.4

¹ The total amount reported in financial instruments (recognized financial assets and financial liabilities and non-cash financial collateral) and cash collateral is limited to the amount of the related instruments presented in the consolidated balance sheets and therefore any over-collateralization of these positions is not included.

Net exposure is subject to further credit mitigation through the transfer of the exposure to other market counterparties by the use of credit default swaps (CDS) and credit insurance contracts.

Therefore, the net exposure presented in the table above is not representative of the Group's counterparty exposure.

25 Tax

The 3Q19 income tax expense of CHF 256 million includes the impact of the continuous reassessment of the estimated annual effective tax rate as well as the impact of items that need to be recorded in the specific interim period in which they occur. Further details are outlined in the tax expense reconciliation below.

Net deferred tax assets related to net operating losses, net deferred tax assets on temporary differences and net deferred tax liabilities are presented in the following manner. Nettable gross deferred tax liabilities are allocated on a pro-rata basis to gross deferred tax assets on net operating losses and gross deferred tax assets on temporary differences. This approach is aligned with the underlying treatment of netting gross deferred tax assets and liabilities under the Basel III framework. Valuation allowances have been allocated against such deferred tax assets on net operating losses first with any remainder allocated to such deferred tax assets on temporary differences. This presentation is considered the most appropriate disclosure given the underlying nature of the gross deferred tax balances.

As of September 30, 2019, the Group had accumulated undistributed earnings from foreign subsidiaries of CHF 18.5 billion which are considered indefinitely reinvested. The increase compared to the end of 2Q19 reflected a reserve transfer in one of the Group's entities. The Group would need to accrue and pay taxes on these undistributed earnings if such earnings were repatriated. No deferred tax liability was recorded in respect of those amounts as these earnings are considered indefinitely reinvested. It is not practicable to estimate the amount of unrecognized deferred tax liabilities for these undistributed foreign earnings.

The Group is currently subject to ongoing tax audits, inquiries and litigation with the tax authorities in a number of jurisdictions, including Brazil, the Netherlands, the US, the UK and Switzerland. Although the timing of completion is uncertain, it is reasonably possible that some of these will be resolved within 12 months of the reporting date. It is reasonably possible that there will be a decrease between zero and CHF 190 million in unrecognized tax benefits within 12 months of the reporting date.

The Group remains open to examination from federal, state, provincial or similar local jurisdictions from the following years onward in these major countries: Brazil – 2014; the UK – 2012; Switzerland – 2011; the US – 2010; and the Netherlands – 2006.

Effective tax rate

in	3Q19	2Q19	3Q18	9M19	9M18
Effective tax rate (%)	22.4	28.0	38.9	26.6	36.8

Tax expense reconciliation

CHF million	
Income tax expense computed at the Swiss statutory tax rate of 22%	251
Increase/(decrease) in income taxes resulting from	
Foreign tax rate differential	(24)
Other non-deductible expenses	116
Changes in deferred tax valuation allowance	(25)
Lower taxed income	(69)
Other	7
Income tax expense	256

Foreign tax rate differential

3Q19 included a foreign tax benefit of CHF 24 million mainly driven by losses made in higher tax jurisdictions, such as the UK, and earnings in lower tax jurisdictions, such as Singapore.

Other non-deductible expenses

3Q19 included the net impact of CHF 111 million relating to non-deductible interest expenses and non-deductible bank levy costs. The remaining balance included various smaller items relating to other non-deductible expenses.

Changes in deferred tax valuation allowance

3Q19 included the impact of the estimated current year earnings, resulting in a decrease of valuation allowances of CHF 25 million mainly in respect of the Group's operating entities in the US and the UK.

Lower taxed income

3Q19 primarily included the impacts of CHF 46 million related to the transfer of the InvestLab fund platform to Allfunds Group, non-taxable life insurance income of CHF 12 million and non-taxable dividend income of CHF 11 million.

Other

3Q19 included a tax charge of CHF 32 million relating to the tax impact of transitional adjustments arising on the first adoption of IFRS 9 for own credit movements, CHF 26 million relating to withholding taxes, CHF 20 million relating to prior year adjustments, CHF 16 million relating to the US base erosion and anti-abuse tax (BEAT) and CHF 12 million relating to the intercompany transfer of the UK pension fund. This was partially offset by CHF 62 million relating to agreements reached with tax authorities relating to an advanced pricing agreement and the closure of a tax audit, CHF 30 million relating to a beneficial earnings mix in one of the Group's operating entities in Switzerland and CHF 14 million relating to own-credit valuation movements. The remaining balance included various smaller items.

Net deferred tax assets

26 Employee deferred compensation

The Group's current and previous deferred compensation plans include share awards, performance share awards, Contingent Capital Awards, Contingent Capital share awards and other cash awards.

→ Refer to "Note 29 – Employee deferred compensation" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for further information.

The following tables show the compensation expense for deferred compensation awards recognized in the consolidated statements of operations, the estimated unrecognized expense for deferred compensation awards granted in 3Q19 and prior periods and the remaining requisite service period over which the unrecognized expense will be recognized. The estimated unrecognized compensation expense was based on the fair value of each award on the grant date and included the current estimated outcome of relevant performance criteria and estimated future forfeitures but no estimate for future mark-to-market adjustments.

3Q19 activity

In 3Q19, the Group awarded deferred fixed cash compensation of CHF 49 million to certain employees in the Americas. This compensation will be expensed in the Investment Banking & Capital Markets and International Wealth Management divisions over a three-year period from the grant date. Amortization of this compensation totaled CHF 23 million in 3Q19.

Share-based award activity

27 Pension and other post-retirement benefits

The Group sponsors defined contribution pension plans, defined benefit pension plans and other post-retirement defined benefit plans. The Group contributed and recognized expenses of CHF 38 million, CHF 44 million, CHF 37 million, CHF 123 million and CHF 122 million related to its defined contribution pension plans in 3Q19, 2Q19, 3Q18, 9M19 and 9M18, respectively.

→ Refer to "Note 31 – Pension and other post-retirement benefits" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for further information.

The Group expects to contribute CHF 429 million to the Swiss and international defined benefit plans and other post-retirement defined benefit plans in 2019. As of the end of 3Q19, CHF 339 million of contributions have been made.

In August 2019, the plan assets and liabilities of the defined benefit pension plan in the UK were transferred from Credit Suisse Securities (Europe) Limited to Credit Suisse International under a flexible apportionment arrangement in accordance with UK law.

The transfer triggered an interim re-measurement of the plan assets and liabilities based on year-to-date performance and market data through the end of August 2019, resulting in an actuarial gain and an increase in the overall funding surplus of the defined benefit pension plan in the UK. The total increase in the overall funding surplus of CHF 156 million is reflected in Other assets – defined benefit pension and post-retirement plan assets and an increase in accumulated other comprehensive income in shareholder's equity of CHF 118 million, net of tax.

Components of net periodic benefit costs

in	3Q19	2Q19	3Q18	9M19	9M18
Net periodic benefit costs/(credits) (CHF million)					
Service costs on benefit obligation	68	68	64	203	194
Interest costs on benefit obligation	34	34	39	114	117
Expected return on plan assets	(125)	(126)	(149)	(376)	(448)
Amortization of recognized prior service cost/(credit)	(42)	(41)	(31)	(113)	(94)
Amortization of recognized actuarial losses	79	80	90	235	269
Settlement losses/(gains)	0	0	0	0	(1)
Curtailement losses/(gains)	0	0	0	0	(13)
Special termination benefits	2	2	8	12	25
Net periodic benefit costs	16	17	21	75	49

Service costs on benefit obligation are reflected in compensation and benefits. Other components of net periodic benefit costs are reflected in general and administrative expenses or, until the end of 4Q18, in restructuring expenses.

28 Derivatives and hedging activities

→ Refer to "Note 32 – Derivatives and hedging activities" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for further information.

relationship. Notional amounts have also been provided as an indication of the volume of derivative activity within the Group.

Fair value of derivative instruments

The tables below present gross derivative replacement values by type of contract and balance sheet location and whether the derivative is used for trading purposes or in a qualifying hedging

Information on bifurcated embedded derivatives has not been included in these tables. Under US GAAP, the Group elected to account for substantially all financial instruments with an embedded derivative that is not considered clearly and closely related to the host contract at fair value.

→ Refer to "Note 31 – Financial instruments" for further information.

The Group includes all derivative instruments not included in hedge accounting relationships in its trading activities.

→ Refer to "Note 7 – Trading revenues" for gains and losses on trading activities by product type.

Disclosures relating to contingent credit risk

Certain of the Group's derivative instruments contain provisions that require it to maintain a specified credit rating from each of the major credit rating agencies. If the ratings fall below the level specified in the contract, the counterparties to the agreements could request payment of additional collateral on those derivative instruments that are in a net liability position. Certain of the derivative contracts also provide for termination of the contract, generally upon a downgrade of either the Group or the counterparty. Such derivative contracts are reflected at close-out costs.

The following table provides the Group's current net exposure from contingent credit risk relating to derivative contracts with

bilateral counterparties and SPEs that include credit support agreements, the related collateral posted and the additional collateral required in a one-notch, two-notch and a three-notch downgrade event, respectively. The table also includes derivative contracts with contingent credit risk features without credit support agreements that have accelerated termination event conditions. The current net exposure for derivative contracts with bilateral counterparties and contracts with accelerated termination event conditions is the aggregate fair value of derivative instruments that were in a net liability position. For SPEs, the current net exposure is the contractual amount that is used to determine the collateral payable in the event of a downgrade. The contractual amount could include both the NRV and a percentage of the notional value of the derivative.

Contingent credit risk

Credit derivatives

→ Refer to "Note 32 – Derivatives and hedging activities" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for further information on credit derivatives.

Credit protection sold/purchased

The following tables do not include all credit derivatives and differ from the credit derivatives in the "Fair value of derivative instruments" tables. This is due to the exclusion of certain credit derivative instruments under US GAAP, which defines a credit derivative as a derivative instrument (a) in which one or more of its

underlyings are related to the credit risk of a specified entity (or a group of entities) or an index based on the credit risk of a group of entities and (b) that exposes the seller to potential loss from credit risk-related events specified in the contract.

Total return swaps (TRS) of CHF 16.0 billion and CHF 9.7 billion as of the end of 3Q19 and 4Q18 were also excluded because a TRS does not expose the seller to potential loss from credit risk-related events specified in the contract. A TRS only provides protection against a loss in asset value and not against additional amounts as a result of specific credit events.

¹ Represents credit protection purchased with identical underlyings and recoveries.

² Based on internal ratings of BBB and above.

³ Includes synthetic securitized loan portfolios.

Credit protection sold

Credit protection sold is the maximum potential payout, which is based on the notional value of derivatives and represents the amount of future payments that the Group would be required to make as a result of credit risk-related events.

Credit protection purchased

Credit protection purchased represents those instruments where the underlying reference instrument is identical to the reference instrument of the credit protection sold.

Other protection purchased

In the normal course of business, the Group purchases protection to offset the risk of credit protection sold that may have similar, but not identical, reference instruments and may use similar, but not identical, products, which reduces the total credit derivative exposure. Other protection purchased is based on the notional value of the instruments.

Fair value of credit protection sold

The fair values of the credit protection sold give an indication of the amount of payment risk, as the negative fair values increase when the potential payment under the derivative contracts becomes more probable.

The following table reconciles the notional amount of credit derivatives included in the table "Fair value of derivative instruments" to the table "Credit protection sold/purchased".

Credit derivatives

end of	3Q19	4Q18
Credit derivatives (CHF billion)		
Credit protection sold	260.8	201.6
Credit protection purchased	249.6	195.1
Other protection purchased	83.2	63.0
Other instruments ¹	16.0	9.7
Total credit derivatives	609.6	469.4

¹ Consists of total return swaps and other derivative instruments.

The segregation of the future payments by maturity range and underlying risk gives an indication of the current status of the potential for performance under the derivative contracts.

Total instruments	41.9	135.5	24.2	201.6

29 Guarantees and commitments

Guarantees

In the ordinary course of business, guarantees are provided that contingently obligate the Group to make payments to third parties if the counterparty fails to fulfill its obligation under a borrowing or other contractual arrangement. The total gross amount disclosed within the Guarantees table reflects the maximum potential payment under the guarantees. The carrying value represents the higher of the initial fair value (generally the related fee received or receivable) less cumulative amortization and the Group's current best estimate of payments that will be required under existing guarantee arrangements.

Guarantees provided by the Group are classified as follows: credit guarantees and similar instruments, performance guarantees and similar instruments, derivatives and other guarantees.

→ Refer to "Guarantees" in VI – Consolidated financial statements – Credit Suisse Group – Note 33 – Guarantees and commitments in the Credit Suisse Annual Report 2018 for a detailed description of guarantees.

Guarantees

Other guarantees	4,325	2,562	6,887	6,814	56	4,169
Total guarantees	29,155	11,782	40,937	39,909	1,033	9,070

¹ Total net amount is computed as the gross amount less any participations.

² Excludes derivative contracts with certain active commercial and investment banks and certain other counterparties, as such contracts can be cash settled and the Group had no basis to conclude it was probable that the counterparties held, at inception, the underlying instruments.

³ Collateral for derivatives accounted for as guarantees is not significant.

Deposit-taking banks and securities dealers in Switzerland and certain other European countries are required to ensure the payout of privileged deposits in case of specified restrictions or compulsory liquidation of a deposit-taking bank. In Switzerland, deposit-taking banks and securities dealers jointly guarantee an amount of up to CHF 6 billion. Upon occurrence of a payout event triggered by a specified restriction of business imposed by FINMA or by the compulsory liquidation of another deposit-taking bank, the Group's contribution will be calculated based on its share of privileged deposits in proportion to total privileged deposits. Based on FINMA's estimate for the Group's banking subsidiaries in Switzerland, the Group's share in the deposit insurance guarantee program for the period July 1, 2019 to June 30, 2020 is CHF 0.5 billion. These deposit insurance guarantees were reflected in other guarantees.

Representations and warranties on residential mortgage loans sold

In connection with the Global Markets division's sale of US residential mortgage loans, the Group has provided certain representations and warranties relating to the loans sold. The Group has provided these representations and warranties relating to sales of loans to institutional investors, primarily banks, and non-agency, or private label, securitizations. The loans sold are primarily loans that the Group has purchased from other parties. The scope of representations and warranties, if any, depends on the transaction, but can include: ownership of the mortgage loans and legal capacity to sell the loans; loan-to-value ratios and other characteristics of the property, the borrower and the loan; validity of the liens securing the loans and absence of delinquent taxes or related liens; conformity to underwriting standards and completeness of documentation; and origination in compliance with law. If it is determined that representations and warranties were breached, the Group may be required to repurchase the related

loans or indemnify the investors to make them whole for losses. Whether the Group will incur a loss in connection with repurchases and make whole payments depends on: the extent to which claims are made; the validity of such claims made within the statute of limitations (including the likelihood and ability to enforce claims); whether the Group can successfully claim against parties that sold loans to the Group and made representations and warranties to the Group; the residential real estate market, including the number of defaults; and whether the obligations of the securitization vehicles were guaranteed or insured by third parties.

Repurchase claims on residential mortgage loans sold that are subject to arbitration or litigation proceedings, or become so during the reporting period, are not included in this Guarantees and commitments disclosure but are addressed in litigation and related loss contingencies and provisions. The Group is involved in litigation relating to representations and warranties on residential mortgages sold.

→ Refer to "Note 33 – Litigation" for further information.

Disposal-related contingencies and other indemnifications

The Group has certain guarantees for which its maximum contingent liability cannot be quantified. These guarantees include disposal-related contingencies in connection with the sale of assets or businesses, and other indemnifications. These guarantees are not reflected in the "Guarantees" table.

→ Refer to "Disposal-related contingencies and other indemnifications" in VI – Consolidated financial statements – Credit Suisse Group – Note 33 – Guarantees and commitments in the Credit Suisse Annual Report 2018 for a description of these guarantees.

Other commitments

Other commitments of the Group are classified as follows: irrevocable commitments under documentary credits, irrevocable loan commitments, forward reverse repurchase agreements and other commitments.

→ Refer to "Other commitments" in VI – Consolidated financial statements – Credit Suisse Group – Note 33 – Guarantees and commitments in the Credit Suisse Annual Report 2018 for a description of these commitments.

² Irrevocable loan commitments do not include a total gross amount of CHF 124,743 million and CHF 113,580 million of unused credit limits as of the end of 3Q19 and 4Q18 respectively, which were revocable at the Group's sole discretion upon notice to the client.

30 Transfers of financial assets and variable interest entities

In the normal course of business, the Group enters into transactions with, and makes use of, SPEs. An SPE is an entity in the form of a trust or other legal structure designed to fulfill a specific limited need of the company that organized it and is generally structured to isolate the SPE's assets from creditors of other entities, including the Group. The principal uses of SPEs are to assist the Group and its clients in securitizing financial assets and creating investment products. The Group also uses SPEs for other client-driven activity, such as to facilitate financings, and for Group tax or regulatory purposes.

Transfers of financial assets

Securitizations

The majority of the Group's securitization activities involve mortgages and mortgage-related securities and are predominantly transacted using SPEs. In a typical securitization, the SPE purchases assets financed by proceeds received from the SPE's issuance of debt and equity instruments, certificates, commercial papers (CP) and other notes of indebtedness. These assets and liabilities are recorded on the balance sheet of the SPE and not reflected on the Group's consolidated balance sheet, unless either the Group sold the assets to the entity and the accounting requirements for sale were not met or the Group consolidates the SPE.

The Group purchases commercial and residential mortgages for the purpose of securitization and sells these mortgage loans to SPEs. These SPEs issue commercial mortgage-backed securities (CMBS), residential mortgage-backed securities (RMBS) and asset-backed securities (ABS) that are collateralized by the assets transferred to the SPE and that pay a return based on the returns on those assets. Investors in these mortgage-backed securities or ABS typically have recourse to the assets in the SPEs. Third-party guarantees may further enhance the creditworthiness of the assets. The investors and the SPEs have no recourse to the Group's assets. The Group is typically an underwriter of, and makes a market in, these securities.

The Group also transacts in re-securitizations of previously issued RMBS securities. Typically, certificates issued out of an existing securitization vehicle are sold into a newly created and separate securitization vehicle. Often, these re-securitizations are initiated

in order to re-securitize an existing security to give the investor an investment with different risk ratings or characteristics.

The Group also uses SPEs for other asset-backed financings relating to client-driven activity and for Group tax or regulatory purposes. Types of structures included in this category include managed collateralized loan obligations (CLOs), CLOs, leveraged finance, repack and other types of transactions, including life insurance structures, emerging market structures set up for financing, loan participation or loan origination purposes, and other alternative structures created for the purpose of investing in venture capital-like investments. CLOs are collateralized by loans transferred to the CLO vehicle and pay a return based on the returns on the loans. Leveraged finance structures are used to assist in the syndication of certain loans held by the Group, while repack structures are designed to give a client collateralized exposure to specific cash flows or credit risk backed by collateral purchased from the Group. In these asset-backed financing structures, investors typically only have recourse to the collateral of the SPE and do not have recourse to the Group's assets.

When the Group transfers assets into an SPE, it must assess whether that transfer is accounted for as a sale of the assets. Transfers of assets may not meet sale requirements if the assets have not been legally isolated from the Group and/or if the Group's continuing involvement is deemed to give it effective control over the assets. If the transfer is not deemed a sale, it is instead accounted for as a secured borrowing, with the transferred assets as collateral.

Gains and losses on securitization transactions depend, in part, on the carrying values of mortgages and loans involved in the transfer and are allocated between the assets sold and any beneficial interests retained according to the relative fair values at the date of sale.

The Group does not retain material servicing responsibilities from securitization activities.

The following table provides the gains or losses and proceeds from the transfer of assets relating to 9M19 and 9M18 securitizations of financial assets that qualify for sale accounting and subsequent derecognition, along with the cash flows between the Group and the SPEs used in any securitizations in which the Group still has continuing involvement, regardless of when the securitization occurred.

Securizations

in	9M19	9M18
Gains/(losses) and cash flows (CHF million)		
CMBS		
Net gain ¹	0	8
Proceeds from transfer of assets	5,383	4,587
Cash received on interests that continue to be held	62	32
RMBS		
Net gain/(loss) ¹	(2)	(5)
Proceeds from transfer of assets	17,824	19,092
Purchases of previously transferred financial assets or its underlying collateral	(1)	(1)
Servicing fees	2	2
Cash received on interests that continue to be held	219	498
Other asset-backed financings		
Net gain ¹	73	64
Proceeds from transfer of assets	7,516	5,244
Purchases of previously transferred financial assets or its underlying collateral	(643)	(293)
Fees ²	110	104
Cash received on interests that continue to be held	5	3

¹ Includes underwriting revenues, deferred origination fees, gains or losses on the sale of collateral to the SPE and gains or losses on the sale of newly issued securities to third parties, but excludes net interest income on assets prior to the securitization. The gains or losses on the sale of the collateral is the difference between the fair value on the day prior to the securitization pricing date and the sale price of the loans.

² Represents management fees and performance fees earned for investment management services provided to managed CLOs.

Continuing involvement in transferred financial assets

The Group may have continuing involvement in the financial assets that are transferred to an SPE which may take several forms, including, but not limited to, servicing, recourse and guarantee arrangements, agreements to purchase or redeem transferred assets, derivative instruments, pledges of collateral and beneficial interests in the transferred assets.

→ Refer to "Transfer of financial assets" in VI – Consolidated financial statements – Credit Suisse Group – Note 34 – Transfer of financial assets and variable interest entities in the Credit Suisse Annual Report 2018 for a detailed description of continuing involvement in transferred financial assets.

The following table provides the outstanding principal balance of assets to which the Group continued to be exposed after the transfer of the financial assets to any SPE and the total assets of the SPE as of the end of 3Q19 and 4Q18, regardless of when the transfer of assets occurred.

Principal amounts outstanding and total assets of SPEs resulting from continuing involvement

end of	3Q19	4Q18
CHF million		
CMBS		
Principal amount outstanding	25,737	25,330
Total assets of SPE	34,506	35,760
RMBS		
Principal amount outstanding	55,800	40,253
Total assets of SPE	57,527	41,242
Other asset-backed financings		
Principal amount outstanding	24,316	23,036
Total assets of SPE	52,243	47,542

Principal amount outstanding relates to assets transferred from the Group and does not include principal amounts for assets transferred from third parties.

Fair value of beneficial interests

The fair value measurement of the beneficial interests held at the time of transfer and as of the reporting date that result from any continuing involvement is determined using fair value estimation techniques, such as the present value of estimated future cash flows that incorporate assumptions that market participants customarily use in these valuation techniques. The fair value of the assets or liabilities that result from any continuing involvement does not include any benefits from financial instruments that the Group may utilize to hedge the inherent risks.

Key economic assumptions at the time of transfer

→ Refer to "Note 31 – Financial instruments" for further information on the fair value hierarchy.

Key economic assumptions used in measuring fair value of beneficial interests at time of transfer

at time of transfer, in	9M19		9M18	
	CMBS	RMBS	CMBS	RMBS
CHF million, except where indicated				
Fair value of beneficial interests	362	2,401	528	3,158
of which level 2	273	2,209	528	3,070
of which level 3	89	191	0	88
Weighted-average life, in years	4.8	5.1	6.0	7.7
Prepayment speed assumption (rate per annum), in % ¹	– ²	2.0–37.3	– ²	5.0–13.5
Cash flow discount rate (rate per annum), in % ³	2.5–8.3	1.5–15.7	3.6–9.8	3.0–13.2
Expected credit losses (rate per annum), in % ⁴	1.3–1.5	1.5–7.6	1.8–3.1	2.8–5.5

Transfers of assets in which the Group does not have beneficial interests are not included in this table.

¹ Prepayment speed assumption (PSA) is an industry standard prepayment speed metric used for projecting prepayments over the life of a residential mortgage loan. PSA utilizes the constant prepayment rate (CPR) assumptions. A 100% prepayment assumption assumes a prepayment rate of 0.2% per annum of the outstanding principal balance of mortgage loans in the first month. This increases by 0.2 percentage points thereafter during the term of the mortgage loan, leveling off to a CPR of 6% per annum beginning in the 30th month and each month thereafter during the term of the mortgage loan. 100 PSA equals 6 CPR.

² To deter prepayment, commercial mortgage loans typically have prepayment protection in the form of prepayment lockouts and yield maintenances.

³ The rate is based on the weighted-average yield on the beneficial interests.

⁴ The range of expected credit losses only reflects instruments with an expected credit loss greater than zero unless all of the instruments have an expected credit loss of zero.

Key economic assumptions as of the reporting date

The following table provides the sensitivity analysis of key economic assumptions used in measuring the fair value of beneficial interests held in SPEs as of the end of 3Q19 and 4Q18.

Key economic assumptions used in measuring fair value of beneficial interests held in SPEs

end of	3Q19			4Q18		
	CMBS ¹	RMBS	Other asset-backed financing activities ²	CMBS ¹	RMBS	Other asset-backed financing activities ²

Impact on fair value from 10% adverse change	–	(37.2)	–	–	(22.3)	–
Impact on fair value from 20% adverse change	–	(71.6)	–	–	(43.2)	–
Cash flow discount rate (rate per annum), in % ⁴	2.1–20.3	1.5–32.4	0.7–12.1	3.4–14.3	3.0–21.3	1.0–21.2
Impact on fair value from 10% adverse change	(5.9)	(39.8)	(2.8)	(20.7)	(52.1)	(2.9)
Impact on fair value from 20% adverse change	(11.5)	(77.6)	(5.5)	(37.6)	(101.3)	(5.7)
Expected credit losses (rate per annum), in % ⁵	0.4–5.0	1.3–30.8	0.7–12.1	0.8–4.7	0.6–18.8	1.0–21.2
Impact on fair value from 10% adverse change	(3.7)	(25.5)	(2.5)	(10.2)	(23.8)	(2.4)
Impact on fair value from 20% adverse change	(7.3)	(49.8)	(4.9)	(17.3)	(46.7)	(4.8)

¹ To deter prepayment, commercial mortgage loans typically have prepayment protection in the form of prepayment lockouts and yield maintenances.

² CDOs and CLOs within this category are generally structured to be protected from prepayment risk.

³ PSA is an industry standard prepayment speed metric used for projecting prepayments over the life of a residential mortgage loan. PSA utilizes the CPR assumptions. A 100% prepayment assumption assumes a prepayment rate of 0.2% per annum of the outstanding principal balance of mortgage loans in the first month. This increases by 0.2 percentage points thereafter during the term of the mortgage loan, leveling off to a CPR of 6% per annum beginning in the 30th month and each month thereafter during the term of the mortgage loan. 100 PSA equals 6 CPR.

⁴ The rate is based on the weighted-average yield on the beneficial interests.

⁵ The range of expected credit losses only reflects instruments with an expected credit loss greater than zero unless all of the instruments have an expected credit loss of zero.

These sensitivities are hypothetical and do not reflect economic hedging activities. Changes in fair value based on a 10% or 20% variation in assumptions generally cannot be extrapolated because the relationship of the change in assumption to the change in fair value may not be linear. Also, the effect of a variation in a particular assumption on the fair value of the beneficial interests is calculated without changing any other assumption. In practice, changes in one assumption may result in changes in other assumptions (for example, increases in market interest rates may result in lower prepayments and increased credit losses), which might magnify or counteract the sensitivities.

Transfers of financial assets where sale treatment was not achieved

The following table provides the carrying amounts of transferred financial assets and the related liabilities where sale treatment was not achieved as of the end of 3Q19 and 4Q18.

→ Refer to "Note 32 – Assets pledged and collateral" for further information.

Securities sold under repurchase agreements and securities lending transactions accounted for as secured borrowings

For securities sold under repurchase agreements and securities lending transactions accounted for as secured borrowings, US GAAP requires the disclosure of the collateral pledged and the associated risks to which a transferor continues to be exposed after the transfer. This provides an understanding of the nature and risks of short-term collateralized financing obtained through these types of transactions.

Securities sold under repurchase agreements and securities lending transactions represent collateralized financing transactions used to earn net interest income, increase liquidity or facilitate trading activities. These transactions are collateralized principally by government debt securities, corporate debt securities, asset-backed securities, equity securities and other collateral and have terms ranging from on demand to a longer period of time.

In the event of the Group's default or a decline in fair value of collateral pledged, the repurchase agreement provides the counterparty with the right to liquidate the collateral held or request additional collateral. Similarly, in the event of the Group's default, the securities lending transaction provides the counterparty the right to liquidate the securities borrowed.

The following tables provide the gross obligation relating to securities sold under repurchase agreements, securities lending transactions and obligation to return securities received as collateral by the class of collateral pledged and by remaining contractual maturity as of the end of 3Q19 and 4Q18.

Variable interest entities

As a normal part of its business, the Group engages in various transactions that include entities that are considered variable interest entities (VIEs) and are grouped into three primary categories: collateralized debt obligations (CDOs)/CLOs, CP conduits and financial intermediation.

→ Refer to "Variable interest entities" in VI – Consolidated financial statements – Credit Suisse Group – Note 34 – Transfer of financial assets and variable interest entities in the Credit Suisse Annual Report 2018 for a detailed description of VIEs, CDO/CLOs, CP conduit or financial intermediation.

Collateralized debt and loan obligations

The Group engages in CDO/CLO transactions to meet client and investor needs, earn fees and sell financial assets and, in the case of CLOs, loans. The Group may act as underwriter, placement agent or asset manager and may warehouse assets prior to the closing of a transaction.

Commercial paper conduit

The Group acts as the administrator and provider of liquidity and credit enhancement facilities for Alpine Securitization Ltd (Alpine), a multi-seller asset-backed CP conduit used for client and Group financing purposes. Alpine discloses to CP investors certain portfolio and asset data and submits its portfolio to rating agencies for public ratings. This CP conduit purchases assets such as loans and receivables or enters into reverse repurchase agreements and finances such activities through the issuance of CP backed by these assets. The CP conduit can enter into liquidity facilities with third-party entities pursuant to which it may be required to purchase assets from these entities to provide them with liquidity and credit support. The financing transactions are structured to provide credit support to the CP conduit in the form of over-collateralization and other asset-specific enhancements. Alpine is a separate legal entity that is wholly owned by the Group. However, its assets are available to satisfy only the claims

of its creditors. In addition, the Group, as administrator and liquidity facility provider, has significant exposure to and power over the activities of Alpine. Alpine is considered a VIE for accounting purposes and the Group is deemed the primary beneficiary and consolidates this entity.

The overall average maturity of Alpine's outstanding CP was approximately 104 days as of the end of 3Q19. Alpine was rated A-1(sf) by Standard & Poor's and P-1(sf) by Moody's and had exposures mainly in reverse repurchase agreements with a Group entity, consumer loans, car loans and leases, small business loans and commercial leases.

The Group's commitment to this CP conduit consists of obligations under liquidity agreements. The liquidity agreements are asset-specific arrangements, which require the Group to provide short-term financing to the CP conduit or to purchase assets from the CP conduit in certain circumstances, including a lack of liquidity in the CP market such that the CP conduit cannot refinance its obligations or, in some cases, a default of an underlying asset. The asset-specific credit enhancements provided by the client seller of the assets remain unchanged as a result of such a purchase. In entering into such agreements, the Group reviews the credit risk associated with these transactions on the same basis that would apply to other extensions of credit.

The Group's economic risks associated with the CP conduit are included in the Group's risk management framework including counterparty, economic risk capital and scenario analysis.

Financial intermediation

The Group has significant involvement with VIEs in its role as a financial intermediary on behalf of clients.

Financial intermediation consists of securitizations, funds, loans and other vehicles.

Consolidated VIEs

The Group has significant involvement with VIEs in its role as a financial intermediary on behalf of clients. The Group consolidates all VIEs related to financial intermediation for which it was the primary beneficiary.

The consolidated VIEs table provides the carrying amounts and classifications of the assets and liabilities of consolidated VIEs as of the end of 3Q19 and 4Q18.

31 Financial instruments

The disclosure of the Group's financial instruments below includes the following sections:

- Concentration of credit risk;
- Fair value measurement (including fair value hierarchy, transfers between levels; level 3 reconciliation; qualitative and quantitative disclosures of valuation techniques and nonrecurring fair value changes);
- Fair value option; and
- Disclosures about fair value of financial instruments not carried at fair value.

Concentrations of credit risk

Credit risk concentrations arise when a number of counterparties are engaged in similar business activities, are located in the same geographic region or when there are similar economic features that would cause their ability to meet contractual obligations to be similarly impacted by changes in economic conditions.

- Refer to "Note 35 – Financial instruments" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for further information on the Group's concentrations of credit risk.

Fair value measurement

A significant portion of the Group's financial instruments is carried at fair value. Deterioration of financial markets could significantly impact the fair value of these financial instruments and the results of operations.

- Refer to "Note 35 – Financial instruments" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for further information on fair value measurement of financial instruments and the definition of the levels of the fair value hierarchy.

Qualitative disclosures of valuation techniques

Information on the valuation techniques and significant unobservable inputs of the various financial instruments and the sensitivity of fair value measurements to changes in significant unobservable inputs, should be read in conjunction with the tables "Quantitative information about level 3 assets at fair value" and "Quantitative information about level 3 liabilities at fair value".

- Refer to "Note 35 – Financial instruments" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for further information on the Group's valuation techniques.

Gains and losses on assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs (level 3)

in	9M19			9M18		
	Trading revenues	Other revenues	Total revenues	Trading revenues	Other revenues	Total revenues
Gains and losses on assets and liabilities (CHF million)						
Net realized/unrealized gains/(losses) included in net revenues	(832)	(219)	(1,051) ¹	605	(169)	436 ¹
Whereof:						
Unrealized gains/(losses) relating to assets and liabilities still held as of the reporting date	(682)	104	(578)	(345)	(12)	(357)

¹ Excludes net realized/unrealized gains/(losses) attributable to foreign currency translation impact.

Both observable and unobservable inputs may be used to determine the fair value of positions that have been classified within level 3. As a result, the unrealized gains and losses for assets and liabilities within level 3 presented in the table above may include changes in fair value that were attributable to both observable and unobservable inputs.

The Group employs various economic hedging techniques in order to manage risks, including risks in level 3 positions. Such techniques may include the purchase or sale of financial instruments that are classified in levels 1 and/or 2. The realized and unrealized gains and losses for assets and liabilities in level 3 presented in the table above do not reflect the related realized or unrealized gains and losses arising on economic hedging instruments classified in levels 1 and/or 2.

Transfers in and out of level 3

Transfers into level 3 assets during 9M19 were CHF 2,013 million, primarily from trading assets and loans. These transfers were primarily in the financing, equity derivatives and credit businesses due to limited observability of pricing data. Transfers out of level 3 assets during 9M19 were CHF 2,911 million, primarily in trading assets and loans. These transfers were primarily in the fixed income, equity derivatives and financing businesses due to increased observability of pricing data and increased availability of pricing information from external providers.

Transfers into level 3 assets during 3Q19 were CHF 862 million, primarily from trading assets and loans. These transfers were primarily in the financing, equity derivatives and credit businesses due to limited observability of pricing data. Transfers out of level 3 assets during 3Q19 were CHF 711 million, primarily in trading assets and loans. These transfers were primarily in the financing, credit and equity derivatives businesses due to increased observability of pricing data and increased availability of pricing information from external providers.

Uncertainty of fair value measurements at the reporting date from the use of significant unobservable inputs

For level 3 assets with significant unobservable inputs of buy-back probability, correlation, funding spread, mortality rate, price, recovery rate, volatility or volatility skew, in general, an increase in the significant unobservable input would increase the fair value. For level 3 assets with significant unobservable inputs of credit spread, default rate, discount rate, gap risk, market implied life expectancy (for life settlement and premium finance instruments) or prepayment rate, in general, an increase in the significant unobservable input would decrease the fair value.

For level 3 liabilities, in general, an increase in the related significant unobservable inputs would have an inverse impact on fair value. An increase in the significant unobservable inputs contingent probability, credit spread, gap risk or market implied life expectancy would increase the fair value. An increase in the significant unobservable inputs buyback probability, correlation, discount rate, fund gap risk, fund net asset value (NAV), funding spread, mean reversion, mortality rate, prepayment rate, price or volatility would decrease the fair value.

Interrelationships between significant unobservable inputs

Except as noted above, there are no material interrelationships between the significant unobservable inputs for the financial instruments. As the significant unobservable inputs move independently, generally an increase or decrease in one significant unobservable input will have no impact on the other significant unobservable inputs.

Quantitative disclosures of valuation techniques

The following tables provide the representative range of minimum and maximum values and the associated weighted averages of each significant unobservable input for level 3 assets and liabilities by the related valuation technique most significant to the related financial instrument.

¹ Cash instruments are generally presented on a weighted average basis, while certain derivative instruments either contain a combination of weighted averages and arithmetic means of the related inputs or are presented on an arithmetic mean basis.

² Estimate of probability of structured notes being put back to the Group at the option of the investor over the remaining life of the financial instruments.

³ Risk of unexpected large declines in the underlying values occurring between collateral settlement dates.

⁴ Management's best estimate of the speed at which interest rates will revert to the long-term average.

Qualitative discussion of the ranges of significant unobservable inputs

The level of aggregation and diversity within the financial instruments disclosed in the tables above results in certain ranges of significant inputs being wide and unevenly distributed across asset and liability categories.

→ Refer to "Note 35 – Financial instruments" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for further information on the Group's qualitative discussion of the ranges of significant unobservable inputs.

Investment funds measured at NAV per share

Investments in funds held in trading assets and trading liabilities primarily include positions held in equity funds of funds as an economic hedge for structured notes and derivatives issued to clients that reference the same underlying risk and liquidity terms of the fund. A majority of these funds have limitations imposed on the amount of withdrawals from the fund during the redemption period due to illiquidity of the investments. In other instances, the withdrawal amounts may vary depending on the redemption

notice period and are usually larger for the longer redemption notice periods. In addition, penalties may apply if redemption is within a certain time period from initial investment.

Investments in funds held in other investments principally involve private equity securities and, to a lesser extent, publicly traded securities and fund of funds. Several of these investments have redemption restrictions subject to the discretion of the board of directors of the fund and/or redemption is permitted without restriction, but is limited to a certain percentage of total assets or only after a certain date.

For those funds held in trading assets and trading liabilities and funds held in other investments that are nonredeemable, the underlying assets of such funds are expected to be liquidated over the life of the fund, which is generally up to 10 years.

The following table pertains to investments in certain entities that calculate NAV per share or its equivalent, primarily private equity and hedge funds. These investments do not have a readily determinable fair value and are measured at fair value using NAV.

⁴ 65% of the redeemable fair value amount of hedge funds is redeemable on a quarterly basis with a notice period primarily of more than 60 days and 35% is redeemable on demand with a notice period primarily of less than 30 days.

⁵ Includes CHF 40 million and CHF 102 million attributable to noncontrolling interests as of the end of 3Q19 and 4Q18, respectively.

⁶ Includes CHF 23 million attributable to noncontrolling interests.

Assets measured at fair value on a nonrecurring basis

Certain assets and liabilities are measured at fair value on a non-recurring basis; that is, they are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances, for example, when there is evidence of impairment. Nonrecurring measurements are completed as of the end of the period unless otherwise stated.

Assets measured at fair value on a nonrecurring basis		
end of	3Q19	4Q18
CHF billion		
Assets held-for-sale recorded at fair value on a nonrecurring basis	0.1	0.0
of which level 3	0.1	0.0

The Group typically uses nonfinancial assets measured at fair value on a recurring or nonrecurring basis in a manner that reflects their highest and best use.

Fair value option

The Group has availed itself of the simplification in accounting offered under the fair value option. This has been accomplished generally by electing the fair value option, both at initial adoption and for subsequent transactions, on items impacted by the hedge accounting requirements of US GAAP. For instruments for which hedge accounting could not be achieved but for which the Group is economically hedged, the Group has generally elected the fair value option. Where the Group manages an activity on a fair value basis but previously has been unable to achieve fair value accounting, the Group has generally utilized the fair value option to align its risk management reporting to its financial accounting.

→ Refer to "Note 35 – Financial instruments" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018 for further information on the Group's election of the fair value option.

32 Assets pledged and collateral

The Group pledges assets mainly for repurchase agreements and other securities financing. Certain pledged assets may be encumbered, meaning they have the right to be sold or repledged. The encumbered assets are disclosed on the consolidated balance sheet.

Assets pledged

end of	3Q19	4Q18
CHF million		
Total assets pledged or assigned as collateral	121,584	117,895
of which encumbered	65,013	58,672

Collateral

The Group receives cash and securities in connection with resale agreements, securities borrowing and loans, derivative transactions and margined broker loans. A significant portion of the collateral and securities received by the Group was sold or repledged in connection with repurchase agreements, securities sold not yet purchased, securities borrowings and loans, pledges to clearing organizations, segregation requirements under securities laws and regulations, derivative transactions and bank loans.

Collateral

end of	3Q19	4Q18
CHF million		
Fair value of collateral received with the right to sell or repledge	429,392	406,389
of which sold or repledged	189,940	193,267

33 Litigation

The Group is involved in a number of judicial, regulatory and arbitration proceedings concerning matters arising in connection with the conduct of its businesses. The Group's material proceedings, related provisions and estimate of the aggregate range of reasonably possible losses that are not covered by existing provisions are described in *Note 39 – Litigation in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2018* and updated in subsequent quarterly reports (including those discussed below). Some of these proceedings have been brought on behalf of various classes of claimants and seek damages of material and/or indeterminate amounts.

The Group accrues loss contingency litigation provisions and takes a charge to income in connection with certain proceedings when losses, additional losses or ranges of loss are probable and reasonably estimable. The Group also accrues litigation provisions for the estimated fees and expenses of external lawyers and other service providers in relation to such proceedings, including in cases for which it has not accrued a loss contingency provision. The Group accrues these fee and expense litigation provisions and takes a charge to income in connection therewith when such fees and expenses are probable and reasonably estimable. The Group reviews its legal proceedings each quarter to determine the adequacy of its litigation provisions and may increase or release provisions based on management's judgment and the advice of counsel. The establishment of additional provisions or releases of litigation provisions may be necessary in the future as developments in such proceedings warrant.

The specific matters described include (a) proceedings where the Group has accrued a loss contingency provision, given that it is probable that a loss may be incurred and such loss is reasonably estimable; and (b) proceedings where the Group has not accrued such a loss contingency provision for various reasons, including, but not limited to, the fact that any related losses are not reasonably estimable. The description of certain of the matters includes a statement that the Group has established a loss contingency provision and discloses the amount of such provision; for the other matters no such statement is made. With respect to the matters for which no such statement is made, either (a) the Group has not established a loss contingency provision, in which case the matter is treated as a contingent liability under the applicable accounting standard, or (b) the Group has established such a provision but believes that disclosure of that fact would violate confidentiality obligations to which the Group is subject or otherwise compromise attorney-client privilege, work product protection or other protections against disclosure or compromise the Group's management of the matter. The future outflow of funds in respect of any matter for which the Group has accrued loss contingency provisions cannot be determined with certainty based on currently

available information, and accordingly may ultimately prove to be substantially greater (or may be less) than the provision that is reflected on the Group's balance sheet.

It is inherently difficult to determine whether a loss is probable or even reasonably possible or to estimate the amount of any loss or loss range for many of the Group's legal proceedings. Estimates, by their nature, are based on judgment and currently available information and involve a variety of factors, including, but not limited to, the type and nature of the proceeding, the progress of the matter, the advice of counsel, the Group's defenses and its experience in similar matters, as well as its assessment of matters, including settlements, involving other defendants in similar or related cases or proceedings. Factual and legal determinations, many of which are complex, must be made before a loss, additional losses or ranges of loss can be reasonably estimated for any proceeding.

Most matters pending against the Group seek damages of an indeterminate amount. While certain matters specify the damages claimed, such claimed amount may not represent the Group's reasonably possible losses. For certain of the proceedings discussed the Group has disclosed the amount of damages claimed and certain other quantifiable information that is publicly available.

The Group's aggregate litigation provisions include estimates of losses, additional losses or ranges of loss for proceedings for which such losses are probable and can be reasonably estimated. The Group does not believe that it can estimate an aggregate range of reasonably possible losses for certain of its proceedings because of their complexity, the novelty of some of the claims, the early stage of the proceedings, the limited amount of discovery that has occurred and/or other factors. The Group's estimate of the aggregate range of reasonably possible losses that are not covered by existing provisions for the proceedings discussed in Note 39 referenced above and updated in quarterly reports (including below) for which the Group believes an estimate is possible is zero to CHF 1.5 billion.

In 3Q19, the Group recorded net litigation provisions of CHF 81 million. After taking into account its litigation provisions, the Group believes, based on currently available information and advice of counsel, that the results of its legal proceedings, in the aggregate, will not have a material adverse effect on the Group's financial condition. However, in light of the inherent uncertainties of such proceedings, including those brought by regulators or other governmental authorities, the ultimate cost to the Group of resolving such proceedings may exceed current litigation provisions and any excess may be material to its operating results for any particular period, depending, in part, upon the operating results for such period.

Mortgage-related matters

Government and regulatory related matters

NJAG litigation

On August 21, 2019, the New Jersey Attorney General (NJAG) filed a motion for partial summary judgment in the civil action filed on behalf of the State of New Jersey, in the Superior Court of New Jersey, Chancery Division, Mercer County against Credit Suisse Securities (USA) LLC (CSS LLC) and affiliated entities in their roles as issuer, sponsor, depositor and/or underwriter of RMBS transactions prior to 2008.

Civil litigation

The amounts disclosed below do not reflect actual realized plaintiff losses to date or anticipated future litigation exposure. Rather, unless otherwise stated, these amounts reflect the original unpaid principal balance amounts as alleged in these actions and do not include any reduction in principal amounts since issuance.

Individual investor actions

On October 3, 2019, in the investor action brought by the Federal Home Loan Bank of Seattle (FHLB Seattle) in Washington state court, the Washington State Supreme Court reversed the trial court's May 4, 2016 summary judgment order, previously affirmed by the Washington State Court of Appeals, in which the trial court dismissed FHLB Seattle's claims against CSS LLC and its affiliates relating to approximately USD 145 million of RMBS at issue. The Washington State Supreme Court remanded the action for further proceedings before the trial court.

On October 18, 2019, in the investor action brought by the Federal Deposit Insurance Corporation (FDIC) as receiver for Citizens National Bank and Strategic Capital Bank relating to approximately USD 28 million of RMBS at issue, the US District Court for the Southern District of New York (SDNY) denied a motion filed in September 2017 by the defendants, including CSS LLC and its affiliates, to dismiss the FDIC's second amended complaint.

Monoline insurer disputes

On August 2, 2019, the Supreme Court for the State of New York, New York County (SCNY) concluded a two-week bench trial in the action against CSS LLC and certain of its affiliates commenced by MBIA Insurance Corp. as guarantor for payments of principal and interest related to approximately USD 770 million of RMBS issued in an offering sponsored by the Credit Suisse defendants. The parties are now engaging in post-trial briefing. A decision has not yet been issued.

Repurchase litigations

On October 22, 2019, the SCNY rescheduled the bench trial that was scheduled to begin in December 2019 to January 27, 2020 in two actions in which DLJ Mortgage Capital, Inc. (DLJ) and its affiliate, Select Portfolio Servicing, Inc., are defendants: one

action brought by Home Equity Mortgage Trust Series 2006-1, Home Equity Mortgage Trust Series 2006-3 and Home Equity Mortgage Trust Series 2006-4, in which plaintiffs allege damages of not less than USD 730 million; and one action brought by Home Equity Mortgage Trust Series 2006-5, in which plaintiff alleges damages of not less than USD 500 million.

On August 15, 2019, the trustees for Home Equity Asset Trust 2006-5, Home Equity Asset Trust 2006-6 and Home Equity Asset Trust 2006-7 commenced a new repurchase action against DLJ in the SCNY, in which plaintiffs allege damages of not less than USD 936 million. DLJ filed a motion to dismiss this action on September 20, 2019. As disclosed in Credit Suisse's fourth quarter Financial Report 2013 and Annual Report 2018, three consolidated repurchase actions asserting substantially similar claims against DLJ as those alleged in the new repurchase action were dismissed with prejudice by the SCNY in 2013, and those dismissals were upheld by the New York State Court of Appeals on February 19, 2019.

On August 19, 2019, in the action brought against DLJ in the SCNY by Asset Backed Securities Corporation Home Equity Loan Trust, Series 2006-HE7, the plaintiff filed an amended complaint and alleged revised damages of not less than USD 374 million.

Bank loan litigation

On October 4, 2019, in the case brought in Texas state court by entities related to Highland Capital Management LP, the Texas Supreme Court granted the request for review filed by CSS LLC and certain of its affiliates.

Rates-related matters

Civil litigation

USD LIBOR litigation

On July 29, 2019, in the one matter that is not consolidated in the multi-district litigation, plaintiff filed a petition for a writ of certiorari with the Supreme Court of the United States, which was denied on October 7, 2019.

USD ICE LIBOR litigation

On August 30, 2019, in the consolidated putative class action brought in the SDNY alleging that panel banks suppressed US dollar ICE LIBOR to benefit defendants' trading positions, defendants filed a motion to dismiss.

CHF LIBOR litigation

On September 16, 2019, in the putative class action alleging manipulation of Swiss Franc LIBOR to benefit defendants' trading positions, the SDNY granted defendants' motions to dismiss. On October 16, 2019, plaintiffs filed a notice of appeal.

SIBOR/SOR litigation

On August 26, 2019, in the civil putative class action litigation alleging manipulation of the Singapore Interbank Offered Rate (SIBOR) and Singapore Swap Offer Rate (SOR) to benefit defendants' trading positions, plaintiff filed a notice of appeal.

Foreign exchange litigation

On September 3, 2019, in the consolidated action relating to the alleged manipulation of foreign exchange rates, the SDNY denied plaintiffs' motion for certification of a Rule 23(b)(3) damages class, ruling that proof of both injury and damages must proceed on an individual basis, but granted certification as to two threshold issues concerning the alleged conspiracy. The SDNY also denied plaintiffs' motion for certification of a second proposed class in its entirety.

On September 6, 2019, in the civil action filed on November 13, 2018 in the SDNY, plaintiffs voluntarily dismissed Credit Suisse International. The claims against Credit Suisse AG and CSS LLC remain pending.

SSA bonds litigation

On September 30, 2019, in the consolidated class action litigation relating to supranational, sub-sovereign and agency (SSA) bonds, the SDNY granted defendants' motion to dismiss for lack of personal jurisdiction and improper venue. The court indicated that it will further address defendants' motion to dismiss for failure to state a claim.

Mexican government bonds litigation

On September 30, 2019, in the consolidated class action litigation alleging a conspiracy among dealer banks to manipulate the Mexican government bond market, the SDNY granted defendants' motion to dismiss.

Government-sponsored entity bonds litigation

On August 29, 2019, in the consolidated putative class action brought in the SDNY alleging a conspiracy among financial institutions to fix prices for unsecured bonds issued by certain government-sponsored entities, the SDNY granted defendants' motion to dismiss, but granted plaintiffs leave to amend. On September 10, 2019, plaintiffs filed a third consolidated amended complaint. On September 17, 2019, defendants filed a motion to dismiss certain aspects of the complaint, which was denied on October 15, 2019.

Credit Suisse AG and CSS LLC, along with other financial institutions, have been named in two civil actions in the US District Court for the Middle District of Louisiana, alleging a conspiracy among financial institutions to fix prices for unsecured bonds issued by certain government-sponsored entities: one action brought by the Louisiana Attorney General on behalf of the State of Louisiana on September 23, 2019 and one action brought by the City of Baton Rouge on October 21, 2019.

OTC trading cases

On July 30, 2019, in the civil action filed in the SDNY by Tera Group, Inc. and related entities alleging violations of antitrust law by credit default swap dealers, the SDNY granted in part and denied in part defendants' motion to dismiss.

On August 6, 2019, in one of the civil actions filed in the SDNY by a purported successor in interest to a trading platform for stock loans that sought to enter the market, the SDNY granted defendants' motion to dismiss and entered judgment in favor of the defendants. On September 3, 2019, plaintiff filed a motion to amend the judgment to permit plaintiff to file an amended complaint or, in the alternative, to dismiss certain claims without prejudice. On September 10, 2019, the SDNY denied in part plaintiff's motion to amend the judgment but ordered additional briefing on whether certain claims should be dismissed without prejudice.

ATA litigation

On September 16, 2019, the Eastern District of New York granted defendants' motion to dismiss the case filed on November 10, 2014, and directed that the case be closed. Plaintiffs have moved for partial reconsideration of portions of the dismissal that do not relate to Credit Suisse.

Customer account matters

Several parties have appealed the June 26, 2019 decision of the Criminal Court of Appeals of Geneva that upheld the judgment against the former relationship manager to the Swiss Federal Supreme Court.

Mozambique matter

On September 6, 2019, the third former Credit Suisse employee indicted by the United States Attorney for the Eastern District of New York pleaded guilty to accepting improper personal benefit in connection with financing transactions carried out with two Mozambique state enterprises, ProIndicus S.A. and Empresa Mocambiaca de Atum S.A. (EMATUM). Credit Suisse continues to cooperate with, and respond to requests from, regulatory and enforcement authorities in connection with these transactions.

Separately, certain Credit Suisse entities are defending civil proceedings brought by the Republic of Mozambique in the English High Court. The Republic of Mozambique seeks a declaration that the sovereign guarantee issued in connection with the ProIndicus loan syndication arranged and funded, in part, by a Credit Suisse subsidiary is void and also seeks unspecified damages alleged to have arisen in connection with the transactions involving ProIndicus and EMATUM, and a transaction in which Credit Suisse had no involvement with Mozambique Asset Management S.A.

ETN-related litigation

On September 25, 2019, in the consolidated action in the SDNY brought by a putative class of purchasers of VelocityShares Daily Inverse VIX Short Term Exchange Traded Notes linked to the S&P 500 VIX Short-Term Futures Index due December 4, 2030 (XIV ETNs), the SDNY granted defendants' motion to dismiss and dismissed with prejudice all claims against the defendants. On October 18, 2019, plaintiffs filed a notice of appeal.

On August 22, 2019, in the individual civil action in the Northern District of Alabama asserting similar claims as those alleged in the consolidated New York action, the court granted in part and denied in part defendants' motion to dismiss.

On August 20, 2019, in the civil action in the SDNY brought by a putative class of purchasers of VelocityShares Daily Inverse VIX Medium Term Exchange Traded Notes linked to the S&P 500 VIX Mid-Term Futures Index due December 4, 2030 (ZIV ETNs), plaintiffs filed an amended complaint. On October 21, 2019, defendants filed a motion to dismiss.

Bulgarian former clients matter

Credit Suisse AG has been responding to an investigation by the Swiss Office of the Attorney General concerning the diligence and controls applied to a historical relationship with Bulgarian former clients who are alleged to have laundered funds through Credit Suisse AG accounts. Credit Suisse AG believes its diligence and controls complied with applicable legal requirements, and intends to defend itself vigorously.

34 Subsidiary guarantee information

Certain wholly owned finance subsidiaries of the Group, including Credit Suisse Group Funding (Guernsey) Limited, which is a Guernsey incorporated non-cellular company limited by shares, have issued securities fully and unconditionally guaranteed by the Group. There are various legal and regulatory requirements, including the satisfaction of a solvency test under Guernsey law for the Guernsey subsidiary, applicable to some of the Group's subsidiaries that may limit their ability to pay dividends or distributions and make loans and advances to the Group.

The Group and the Bank have issued full, unconditional and several guarantees of Credit Suisse (USA), Inc.'s outstanding SEC-registered debt securities. In accordance with the guarantees, if Credit Suisse (USA), Inc. fails to make any timely payment under the agreements governing such debt securities, the holders of the debt securities may demand payment from either the Group or the Bank, without first proceeding against Credit Suisse (USA), Inc. The guarantee from the Group is subordinated to senior liabilities. Credit Suisse (USA), Inc. is an indirect, wholly owned subsidiary of the Group.

Cautionary statement regarding forward-looking information

This document contains statements that constitute forward-looking statements. In addition, in the future we, and others on our behalf, may make statements that constitute forward-looking statements. Such forward-looking statements may include, without limitation, statements relating to the following:

- our plans, targets or goals;
- our future economic performance or prospects;
- the potential effect on our future performance of certain contingencies; and
- assumptions underlying any such statements.

Words such as “believes,” “anticipates,” “expects,” “intends” and “plans” and similar expressions are intended to identify forward-looking statements but are not the exclusive means of identifying such statements. We do not intend to update these forward-looking statements.

By their very nature, forward-looking statements involve inherent risks and uncertainties, both general and specific, and risks exist that predictions, forecasts, projections and other outcomes described or implied in forward-looking statements will not be achieved. We caution you that a number of important factors could cause results to differ materially from the plans, targets, goals, expectations, estimates and intentions expressed in such forward-looking statements. These factors include:

- the ability to maintain sufficient liquidity and access capital markets;
- market volatility and interest rate fluctuations and developments affecting interest rate levels;
- the strength of the global economy in general and the strength of the economies of the countries in which we conduct our operations, in particular the risk of continued slow economic recovery or downturn in the EU, the US or other developed countries or in emerging markets in 2019 and beyond;
- the direct and indirect impacts of deterioration or slow recovery in residential and commercial real estate markets;
- adverse rating actions by credit rating agencies in respect of us, sovereign issuers, structured credit products or other credit-related exposures;
- the ability to achieve our strategic goals, including those related to our targets and financial goals;
- the ability of counterparties to meet their obligations to us;
- the effects of, and changes in, fiscal, monetary, exchange rate, trade and tax policies, as well as currency fluctuations;

- political and social developments, including war, civil unrest or terrorist activity;
- the possibility of foreign exchange controls, expropriation, nationalization or confiscation of assets in countries in which we conduct our operations;
- operational factors such as systems failure, human error, or the failure to implement procedures properly;
- the risk of cyber attacks, information or security breaches or technology failures on our business or operations;
- the adverse resolution of litigation, regulatory proceedings and other contingencies;
- actions taken by regulators with respect to our business and practices and possible resulting changes to our business organization, practices and policies in countries in which we conduct our operations;
- the effects of changes in laws, regulations or accounting or tax standards, policies or practices in countries in which we conduct our operations;
- the potential effects of changes in our legal entity structure;
- competition or changes in our competitive position in geographic and business areas in which we conduct our operations;
- the ability to retain and recruit qualified personnel;
- the ability to maintain our reputation and promote our brand;
- the ability to increase market share and control expenses;
- technological changes;
- the timely development and acceptance of our new products and services and the perceived overall value of these products and services by users;
- acquisitions, including the ability to integrate acquired businesses successfully, and divestitures, including the ability to sell non-core assets; and
- other unforeseen or unexpected events and our success at managing these and the risks involved in the foregoing.

We caution you that the foregoing list of important factors is not exclusive. When evaluating forward-looking statements, you should carefully consider the foregoing factors and other uncertainties and events, including the information set forth in “Risk factors” in I – Information on the company in our Annual Report 2018.
