

Interim Report

January-June

2017

Handelsbanken's Interim Report

JANUARY – JUNE 2017

SUMMARY JANUARY – JUNE 2017, COMPARED WITH JANUARY – JUNE 2016

- Operating profit rose by 4% to SEK 10,604m (10,244)
- The period's profit after tax for total operations decreased by 1% to SEK 8,167m (8,237)
- Earnings per share for total operations decreased to SEK 4.20 (4.31)
- Return on equity for total operations declined to 12.6% (13.7)
- Income increased by 1% to SEK 20,274m (20,165) and by 5% after adjustment for capital gains in the period of comparison
- Net interest income rose by 6% to SEK 14,402m (13,603)
- Net fee and commission income rose by 9% to SEK 4,862m (4,450)
- The C/I ratio decreased to 45.8% (47.2)
- The loan loss ratio was unchanged at 0.04% (0.04)
- The common equity tier 1 ratio increased to 23.4% (23.0) and the total capital ratio was 29.0% (28.9)

SUMMARY OF Q2 2017, COMPARED WITH Q1 2017

- Operating profit fell by 2% to SEK 5,257m (5,347), but increased by 3% after adjustments for non-recurring items in the quarter of comparison
- The period's profit after tax for total operations decreased by 1% to SEK 4,056m (4,111), and earnings per share were SEK 2.09 (2.11)
- Return on equity for total operations rose to 12.9% (12.4)
- Income increased by 2% to SEK 10,238m (10,036)
- Net interest income increased by 3% to SEK 7,321m (7,081)
- The loan loss ratio was 0.04% (0.04)

Group performance

JANUARY – JUNE 2017 COMPARED WITH JANUARY – JUNE 2016

The Group's operating profit grew by 4% to SEK 10,604m (10,244). The period's profit after tax for total operations decreased by 1% to SEK 8,167m (8,237), and earnings per share were SEK 4.20 (4.31).

The common equity tier 1 ratio increased to 23.4% (23.0), and the return on equity for total operations decreased to 12.6% (13.7). The C/I ratio decreased to 45.8% (47.2).

Income

SEK m	Jan-Jun 2017	Jan-Jun 2016	Change
Net interest income	14,402	13,603	6%
Net fee and commission income	4,862	4,450	9%
Net gains/losses on financial trans.	864	1,685	-49%
Other income	146	427	-66%
Total income	20,274	20,165	1%

Income increased by 1% to SEK 20,274m (20,165). Adjusted for capital gains on the sale of shares in the period of comparison, the increase was 5%. The effect of exchange rate movements was marginal.

Net interest income rose by 6% to SEK 14,402m (13,603).

Starting from 2017, the Bank defines its lending and deposit margins as the customer interest rate minus the internal interest rates which are either debited or credited to branch operations. Greater lending volumes increased net interest income by SEK 573m. At the same time, lending margins in branch operations had a negative impact of SEK -53m. Net interest income from deposit operations increased by SEK 141m.

The benchmark effect in Stadshypotek decreased to SEK -39m (6), and the doubled fee to the Resolution Fund amounted to SEK -865m (-491). Including fees for various deposit guarantees, government fees increased by SEK 389m to SEK -1,043m (-654). The remainder of the improvement in net interest income was chiefly attributable to lower funding costs.

Total average volume of loans to the public grew by 5% to SEK 2,002bn (1,911). Exchange rate effects increased average volumes by SEK 9bn. Household lending increased by 7% to SEK 1,047bn (980), while corporate lending grew by 3% to SEK 955bn (932). In local currencies, lending increased in all home markets.

The average volumes of deposits and borrowing rose by 2% to SEK 1,000bn (985). The average volume of household deposits increased by 12% to SEK 410bn (366), while corporate deposits decreased by 5% to SEK 589bn (619).

Net fee and commission income rose by 9% to SEK 4,862m (4,450), primarily due to higher fund and asset management commissions. Fund management

commissions increased by 24% to SEK 1,744m (1,412), and other custody and asset management commissions grew by 13%. Brokerage income rose by 10% to SEK 507m (462), and net payment commissions decreased by 1% to SEK 908m (920). Net fee and commission income from card operations declined to SEK 572m (620).

Net gains/losses on financial transactions declined to SEK 864m (1,685), because the period of comparison included capital gains from the sale of shares totalling SEK 908m.

Other income decreased to SEK 146m (427). The decrease was primarily attributable to lower dividend income.

Expenses

SEK m	Jan-Jun 2017	Jan-Jun 2016	Change
Staff costs	-6,160	-6,620	-7%
Other expenses	-2,840	-2,649	7%
Depreciation and amortisation	-295	-244	21%
Total expenses	-9,295	-9,513	-2%

Total expenses decreased by 2% to SEK -9,295m (-9,513). Exchange rate effects reduced expenses by SEK 1m.

Staff costs fell by 7% to SEK -6,160m (-6,620). In the first quarter, staff costs declined by SEK 239m as a result of the transition to a defined contribution pension plan in the Norwegian operations and the period of comparison including a provision of SEK -700m. Adjusted for these items, underlying staff costs rose by 8%, because of the resumption of provisions to the Oktogonen Foundation, which totalled SEK 486m (-). Variable remuneration, including social security costs and other payroll overheads, decreased to SEK -47m (-56).

The average number of employees fell by 139, to 11,636 (11,775). Excluding the expanding operations in the UK and the Netherlands, the average number of employees decreased by 2%, and the ongoing work to improve efficiency continues according to plan.

Other expenses rose by 7% to SEK -2,840m (-2,649), chiefly due to higher costs for IT development.

Loan losses

SEK m	Jan-Jun 2017	Jan-Jun 2016	Change
Net loan losses	-382	-416	-34
Loan loss ratio as a % of loans, acc.	0.04	0.04	0.00
Impaired loans, net	2,952	3,383	-13%
Proportion of impaired loans, %	0.15	0.17	-0.02

Loan losses decreased to SEK -382m (-416), and the loan loss ratio was 0.04% (0.04). Net impaired loans decreased by 13% to SEK 2,952m (3,383), equivalent to 0.15% (0.17) of lending.

Q2 2017 COMPARED WITH Q1 2017

Operating profit fell by 2% to SEK 5,257m (5,347), but increased by 3% after adjustments for non-recurring items in the quarter of comparison. The period's profit after tax for total operations totalled SEK 4,056m (4,111). Earnings per share fell to SEK 2.09 (2.11), and return on equity rose to 12.9% (12.4).

The C/I ratio rose to 46.9% (44.8).

Income

SEK m	Q2 2017	Q1 2017	Change
Net interest income	7,321	7,081	3%
Net fee and commission income	2,508	2,354	7%
Net gains/losses on financial trans.	317	547	-42%
Other income	92	54	70%
Total income	10,238	10,036	2%

Income grew by 2% to SEK 10,238m (10,036).

Net interest income grew by 3%, or SEK 240m, to SEK 7,321m (7,081).

Rising lending volumes contributed SEK 79m, while lending margins in the branch operations lifted net interest income by SEK 13m. Increased deposit volumes contributed SEK 21m, while deposit margins had a negative impact of SEK -20m. Exchange rate effects had a positive impact of SEK 18m on net interest income, and an extra day in the quarter contributed SEK 29m. Government fees totalled SEK -516m (-527). The benchmark effect in Stadshypotek decreased to SEK -31m (-8).

The average volume of loans to the public grew by 1% to SEK 2,017bn (1,988). Household lending rose by 2%, and the average volume of corporate lending grew by 1%. The total average volume of deposits and borrowing rose by 8% to SEK 1,037bn (962). The effect of exchange rate movements was marginal. Household deposits increased by 4% and the average volume of corporate deposits increased by 11%.

Net fee and commission income increased by 7% to SEK 2,508m (2,354). The increase was mainly due to rising fund management commissions and increased payment and advisory commissions. Fund management commissions increased by 5% to SEK 895m (849). Commissions on custody accounts and other asset management rose to SEK 169m (164). Net payment commissions rose by 12% to SEK 479m (429), chiefly due to an improvement in net income from card operations to SEK 306m (266). Advisory commissions increased by 88% to SEK 105m (56).

Net gains/losses on financial transactions decreased to SEK 317m (547). Profits in the comparison quarter were positively impacted by market turbulence at year-end. The negative effects arising in Q4 2016 were reversed at the start of Q1 2017 when the market returned to normal.

Other income equalled SEK 92m (54).

Expenses

SEK m	Q2 2017	Q1 2017	Change
Staff costs	-3,242	-2,918	11%
Other expenses	-1,410	-1,430	-1%
Depreciation and amortisation	-145	-150	-3%
Total expenses	-4,797	-4,498	7%

Expenses increased by 7% to SEK -4,797m (-4,498).

Exchange rate effects increased expenses by SEK 24m.

Staff costs rose by 11% to SEK -3,242m (-2,918). During the first quarter, the Norwegian operations transitioned to a defined contribution pension plan. This transition involved a non-recurring item which reduced staff costs by SEK 239m in the first quarter. Adjusted for this item, staff costs rose by 3%, of which 1 percentage point was due to exchange rate movements. The provision to the Oktogonen profit-sharing foundation was SEK -243m (-243). The period's provision for variable remuneration increased to SEK -27m (-20). The average number of employees increased to 11,687 (11,584). The number of employees is increasing outside Sweden and in IT development but decreasing slightly in the Swedish branch operations.

Other expenses decreased by 1% to SEK -1,410m (-1,430), chiefly due to lower costs of premises and properties.

Loan losses

SEK m	Q2 2017	Q1 2017	Change
Net loan losses	-186	-196	-10
Loan loss ratio as a % of loans	0.04	0.04	0.00
Impaired loans, net	2,952	3,164	-7%
Proportion of impaired loans, %	0.15	0.16	-0.01

Loan losses decreased to SEK -186m (-196), and the loan loss ratio was 0.04% (0.04). The underlying credit quality remained stable.

Net impaired loans decreased to SEK 2,952m (3,164), equivalent to 0.15% (0.16) of lending.

Taxes

The tax rate in the second quarter was 22.8% (23.1).

A normal tax rate for the Group is 22-23%. Starting in 2017, interest expenses on subordinated loans are no longer tax-deductible. On an annual basis, this has increased the Bank's corporate tax by about SEK 280m.

FUNDING AND LIQUIDITY

Handelsbanken's bond issues during the first six months decreased to SEK 75bn (120), consisting of SEK 65bn (93) in covered bonds and SEK 10bn (27) in senior bonds.

The Bank has large volumes of liquid funds, mortgage loans and other assets that are not encumbered and therefore represent protection for the Bank's senior lenders. At the end of the period, the ratio of non-

encumbered assets to all non-encumbered market funding was 236% (210% at year-end 2016).

The Bank has a strong liquidity position. Cash funds and liquid assets invested with central banks amounted to SEK 489bn, while the volume of liquid bonds and other liquid assets totalled SEK 175bn.

According to the current Swedish definition from January 2013, the Handelsbanken Group's liquidity coverage ratio (LCR) at the end of the second quarter was 120% (139). In USD, the LCR was 177% (121), and in EUR it was 132% (181). The Group's LCR, calculated according to the European Commission's delegated act, was 136% (146). At the end of the second quarter, the net stable funding ratio (NSFR) was 106% (102% at year-end).

CAPITAL

The Bank's goal is that its common equity tier 1 ratio under normal circumstances should exceed by 1-3 percentage points the common equity tier 1 capital requirement communicated to the Bank by the Swedish Financial Supervisory Authority.

At the end of March, the Swedish Financial Supervisory Authority approved the Bank's new PD models for corporate exposures.

During the second quarter, the Authority approved the Bank's models for capital adequacy for sovereign exposures applying the IRB Approach. Capital adequacy for these exposures was previously calculated using the standardised approach and their risk weight was zero. Introduction of the new models increases the Bank's risk exposure by SEK 9.6bn.

The common equity tier 1 ratio at the end of the second quarter was 23.4%. At the end of the first quarter, the Swedish Financial Supervisory Authority's common equity tier 1 capital requirement was 20.3%. Thus the Bank's common equity tier 1 ratio slightly exceeded the upper limit of the target interval.

Capital situation 30 June 2017 compared with 30 June 2016

SEK m	30 Jun 2017	30 Jun 2016	Change
Common equity tier 1 ratio, CRR	23.4%	23.0%	0.4
Total capital ratio, CRR	29.0%	28.9%	0.1
Risk exposure amount CRR	504,199	474,500	6%
Common equity tier 1 capital	117,851	109,006	8%
Total own funds	146,164	137,057	7%
Capital requirement, Basel I floor	100,575	97,459	3%
Total own funds, Basel I floor	148,436	138,600	7%

Own funds increased to SEK 146bn (137), putting the Bank's total capital ratio at 29.0% (28.9).

The common equity tier 1 capital increased to SEK 118bn (109), and the common equity tier 1 ratio rose by 0.4 percentage points to 23.4% (23.0). The implementation of new models for sovereign exposures

reduced the common equity tier 1 ratio by -0.5 percentage points.

Conversions of the 2011 staff convertible bond increased the ratio by 0.1 percentage point. The period's profit contributed 1.0 percentage point after a deduction for the dividend generated.

Implementation of new PD models reduced the common equity tier 1 ratio by -1.8 percentage points. Higher lending volumes reduced the common equity tier 1 ratio by -0.1 percentage point, and credit risk migration in the loan portfolio had an additional impact of -0.2 percentage points. At the same time, as a result of new lending volumes having lower risk than the exposures leaving the credit portfolio (known as volume migration), the common equity tier 1 ratio increased by 0.3 percentage points.

The effect of IAS 19 increased the common equity tier 1 capital ratio by 1.7 percentage points, due to both higher asset values and raised discount rates. The sale of AFS shares had a positive effect of 0.6 percentage points.

Exchange rate effects were neutral, and the net effect of other factors reduced the common equity tier 1 ratio by -0.7 percentage points.

Capital situation 30 June 2017 compared with 31 March 2017

SEK m	30 Jun 2017	31 Mar 2017	Change
Common equity tier 1 ratio, CRR	23.4%	23.8%	-0.4
Total capital ratio, CRR	29.0%	29.7%	-0.7
Risk exposure amount CRR	504,199	489,456	3%
Common equity tier 1 capital	117,851	116,529	1%
Total own funds	146,164	145,291	1%
Capital requirement, Basel I floor	100,575	98,946	2%
Total own funds, Basel I floor	148,436	147,561	1%

Own funds increased to SEK 146bn (145), and the total capital ratio declined to 29.0% (29.7). The common equity tier 1 capital increased to SEK 118bn (117), and the common equity tier 1 ratio according to CRR fell by -0.4 percentage points to 23.4% (23.8). The implementation of new models for sovereign exposures reduced the common equity tier 1 ratio by -0.5 percentage points. The period's profit contributed 0.3 percentage points after a deduction for the dividend generated.

Rising lending volumes reduced the common equity tier 1 ratio by -0.2 percentage points. Volume migration had a neutral effect, while credit risk migration had a negative impact of -0.2 percentage points.

The effect of IAS 19 increased the common equity tier 1 capital ratio by 0.2 percentage points, mainly due to higher asset values. The discount rate for Swedish pension obligations was 2.30% (2.30).

The effects of exchange rate movements were neutral.

Economic capital and available financial resources

Handelsbanken’s internal assessment of the capital need is based on the Bank’s capital requirement, stress tests, and the Bank’s model for economic capital (EC).

Economic capital is measured in relation to the Bank’s available financial resources (AFR). The Board stipulates that the AFR/EC ratio for the Group must exceed 120%. At the end of the second quarter, EC for the Group totalled SEK 60.8bn, while AFR was SEK 155.6bn. Thus, the ratio between AFR and EC was 256%. For the parent company, EC totalled SEK 51.7bn, and AFR was SEK 129.8bn.

For the consolidated situation, EC totalled SEK 33.4bn, and AFR was SEK 154.8bn.

RATING

During the first quarter, Standard & Poor’s changed their outlook for Handelsbanken to stable from negative. Otherwise, Handelsbanken’s short-term and long-term ratings with the rating agencies which monitor the Bank were unchanged.

	Long-term	Short-term	Counterparty risk assessment
Standard & Poor's	AA-	A-1+	
Fitch	AA	F1+	
Moody's	Aa2	P-1	Aa1

* Internal income which is included in total income comprises income from transactions between other operating segments and Other. Since interest income and interest expense are reported net as income, this means that internal income includes the net amount of the internal funding cost between segments and Other.

The business segments consist of Handelsbanken Sweden, Handelsbanken UK, Handelsbanken Denmark, Handelsbanken Finland, Handelsbanken Norway, Handelsbanken the Netherlands and Handelsbanken Capital Markets. The income statements by segment include internal items such as internal interest,

commissions and payment for internal services, primarily according to the cost price principle. The part of Handelsbanken Capital Markets' operating profit that does not involve risk-taking is allocated to branches with customer responsibility.

Handelsbanken Sweden

Handelsbanken Sweden comprises branch operations in five regional banks, as well as the operations of Handelsbanken Finans, Ecster and Stadshypotek in Sweden. At Handelsbanken, the branches are the base of all operations, with responsibility for all customers of the Bank. The regional banks offer a full range of banking services at 423 branches throughout Sweden. Handelsbanken Finans offers finance company services and works through the Bank's branches.

JANUARY – JUNE 2017 COMPARED WITH JANUARY – JUNE 2016

Financial performance

Operating profit increased by 21% to SEK 6,577m (5,449). Adjusted for the staff cost provision of SEK -700m in Q1 2016, the increase was 7%.

Net interest income increased by 6% to SEK 8,022m (7,572). Greater lending volumes increased net interest income by SEK 251m and improved lending margins by an additional SEK 54m. Deposit operations contributed SEK 60m thanks to volumes and SEK 16m thanks to improved margins. Fees for the Resolution Fund and the deposit guarantee rose by SEK 214m to -544m (-330), and the benchmark effect in Stadshypotek was SEK -39m (6). The remainder of the increase in net interest income was mainly due to lower funding costs.

Net fee and commission income rose by 4% to SEK 2,175m (2,084). The increase was chiefly due to higher fund management, payment and insurance commissions.

Net gains/losses on financial transactions declined by 14% to SEK 323m (374), mainly as a result of capital gains on equities in the period of comparison.

Total expenses decreased by 14% to SEK -3,871m (-4,488), as a result of the preceding year's staff cost provision of SEK -700m. Adjusted for the provision, staff costs decreased by 7%. The average number of employees fell by 8% to 3,998 (4,356).

Expenses for services bought and sold internally increased by 17% to SEK -1,565m, mainly due to higher IT development costs.

The C/I ratio improved to 34.7% (42.9).

Loan losses declined to SEK -99m (-108), and the loan loss ratio was unchanged at 0.02% (0.02).

Business development

At the beginning of April, Kantar Sifo presented the 2017 Company Reputation Index. This shows the degree of trust and quality that the Swedish public attaches to different companies. As in previous years, Handelsbanken was the major bank in which the general public had the most confidence. Handelsbanken is the only bank among the 10 companies with the best reputation in Sweden. In addition, confidence in the Bank increased, and Handelsbanken was given an index value of 58 (54). This can be compared with the average for the other three major banks, which went down to 31 (35).

During the first six months of the year, new savings in the Bank's mutual funds in Sweden were SEK 10.8bn (5.5), corresponding to a market share of 18.1%.

The average volume of deposits from households rose by 9% to SEK 312bn (286). The average volume of mortgage loans to private individuals increased by 7% to SEK 719bn (674), while the average volume of lending to companies was unchanged at SEK 482bn (482).

During the second quarter, the Bank continued to adapt its branch operations, partly as a result of changed customer behaviour resulting from digitalisation. Handelsbanken had 423 branches (472) in Sweden.

Q2 2017 COMPARED WITH Q1 2017

Operating profit increased by 9% to SEK 3,429m (3,148), and return on allocated capital rose to 15.7% (13.6).

Net interest income rose by 3%, or SEK 130m, to SEK 4,076m (3,946).

Increased lending volumes contributed SEK 49m, while lending margins reduced net interest income by SEK -3m. Net interest income from deposit operations increased by SEK 16m. The benchmark effect in Stadshypotek decreased to SEK -31m (-8).

The average volume of mortgage loans to private individuals grew by 2% to SEK 725bn (714). The gross margin on the mortgage portfolio – before advisory and administration expenses – was unchanged at 1.06% (1.06).

The average volume of corporate lending increased by 1% to SEK 486bn (479).

Net fee and commission income grew by 6% to SEK 1,117m (1,058), due to increased fund management and payment commissions.

Net gains/losses on financial transactions rose to SEK 176m (147), due to improved gains on bond repurchases in Stadshypotek.

Expenses decreased by 2% to SEK -1,917m (-1,954), attributable to somewhat lower staff costs and reduced costs for services bought and sold. The average number of employees decreased to 3,990 (4,006).

Loan losses fell to SEK -39m (-60), and the loan loss ratio fell to 0.01% (0.02).

Handelsbanken UK

Handelsbanken UK comprises branch operations in five regional banks and the asset management company Heartwood. Handelsbanken Finans's operations in the UK are also included. At Handelsbanken, the branches are the base of all operations, with responsibility for all customers of the Bank. The regional banks offer banking services at 207 branches throughout the UK.

JANUARY – JUNE 2017 COMPARED WITH JANUARY – JUNE 2016

Financial performance

Operating profit increased by 1% to SEK 1,120m (1,104). Exchange rate movements reduced operating profit by SEK -69m; expressed in local currency operating profit grew by 9%. The return on allocated capital decreased to 14.1% (16.5).

Income rose by 2%. In local currency, income rose by 9%.

Net interest income improved by 2% to SEK 2,257m (2,218). Exchange rate movements had a negative impact of SEK -145m on net interest income, while net interest income grew by 9% expressed in local currency. Increased lending volumes contributed SEK 175m, and deposit volumes contributed SEK 55m. Lower lending margins negatively affected net interest income by SEK -66m and deposit margins by SEK -19m. Government fees which affected net interest income rose to SEK -90m (-43).

Net fee and commission income rose by 16% to SEK 290m (251). In local currency, the increase was 24%, mainly due to higher payment and asset management commissions but also to higher deposit and lending commissions.

Net gains/losses on financial transactions decreased to SEK 94m (126), chiefly because the period of comparison included one-off income related to the sale of Visa Europe.

Expenses rose by 4% to SEK -1,485m (-1,427). In local currency, expenses were up by 11%, as a result of expanding operations as well as costs related to Brexit and preparations for the possible conversion of the UK branch into a subsidiary.

The average number of employees grew by 4% to 2,006 (1,934).

Loan losses fell to SEK -35m (-67), and the loan loss ratio fell to 0.04% (0.07).

Business development

Business volumes continued to grow. The average volume of deposits from households climbed by 54%, and lending to households grew by 12%, compared

with the first half of 2016. Overall, the average volume of lending increased by 11% to GBP 17.9bn, while total deposits grew by 27% to GBP 11.6bn. Therefore the loan-to-deposit ratio continued to decrease and was 150% at the end of Q2 2017, compared with 172% at the end of Q2 2016.

Heartwood's assets under management totalled GBP 3.2bn, compared with GBP 2.9bn at the year-end.

The number of branches in the UK was unchanged during the first six months, at 207.

Q2 2017 COMPARED WITH Q1 2017

Operating profit rose by 15% to SEK 599m (521), chiefly due to improved net interest income. Exchange rate effects had a positive impact of SEK 12m on operating profit. The return on allocated capital increased to 15.6% (12.8).

Income grew by 9% to SEK 1,376m (1,265). Net interest income rose by 9%, or SEK 99m, to SEK 1,178m (1,079), of which SEK 20m was attributable to exchange rate effects and SEK 11m to there being fewer days in the comparison quarter. An adjustment of interest income attributable to impaired loans increased net interest income by SEK 37m. Adjusted for these items, net interest income rose by 3%. Greater business volumes had a positive impact of SEK 34m, while lower deposit margins had an impact of SEK -10m on net interest income. Lending margins improved somewhat, increasing net interest income by SEK 2m.

Net fee and commission income increased to SEK 150m (140), chiefly due to higher commissions on deposits and lending as well as on payments.

Net gains/losses on financial transactions rose to SEK 48m (46).

Expenses increased by 3% to SEK -754m (-731). Just over half the increase was attributable to exchange rate effects. The remainder of the increase was partly attributable to preparations for Brexit. The average number of employees rose to 2,022 (1,991).

Loan losses were SEK -23m (-12), and the loan loss ratio was 0.05% (0.02).

Handelsbanken Denmark

Handelsbanken Denmark consists of the branch operations in Denmark, which are organised as a regional bank, as well as Stadshypotek's operations in Denmark. At Handelsbanken, the branches are the base of all operations, with responsibility for all customers of the Bank. The regional bank offers a full range of banking services at 57 branches throughout Denmark.

JANUARY – JUNE 2017 COMPARED WITH JANUARY – JUNE 2016

Financial performance

Operating profit grew by 7% to SEK 496m (462), as a result of increased income. Exchange rate movements had a positive impact of SEK 15m on operating profit. The return on allocated capital increased to 14.3% (12.8).

Net interest income increased by 3% to SEK 842m (814). Adjusted for exchange rate movements, net interest income was more or less unchanged. Increased lending volumes contributed SEK 47m, while lower lending margins reduced net interest income by SEK -25m. Improved deposit margins and higher deposit volumes increased net interest income by SEK 3m.

Fees for the Swedish Resolution Fund and the deposit guarantee increased by SEK 15m, burdening net interest income by SEK -38m (-23).

Net fee and commission income rose by 20% to SEK 229m (191). The increase was attributable to a high level of customer activity in all commission areas and especially to higher brokerage income and increased asset management commissions.

Exchange rate movements had a positive impact of SEK 6m on net fee and commission income.

Net gains/losses on financial transactions increased to SEK 53m (35), partly a result of increased early repayment charges as well as larger earnings in the foreign exchange business.

Expenses rose by 6% to SEK -574m (-544). Adjusted for the effect of exchange rate movements, the increase was 2%.

Loan losses were SEK -70m (-44), and the loan loss ratio was 0.14% (0.10).

Business development

The Bank continued to have a stable inflow of new customers, and business volumes continued to increase. During the year, the average volume of lending to households increased by 10%, and deposits from households increased by 8%. Corporate lending grew by 2%, while corporate deposits grew by 22%. Overall the average volume of lending increased by 7% to DKK 72.8bn (68.3), and deposits increased by 16% to DKK 31.1bn (26.9).

Q2 2017 COMPARED WITH Q1 2017

Operating profit declined to SEK 226m (270) as a result of higher loan losses. Profit before loan losses grew by 8% to SEK 290m (268), due to higher income and lower expenses.

Net interest income increased by 2% to SEK 425m (417). Adjusted for exchange rate effects of SEK 8m and a day effect of SEK 4m, net interest income fell by 1%. Lower lending volumes reduced net interest income by SEK -4m, while lending margins remained largely unchanged. Net interest income from deposits was unchanged.

Net fee and commission income increased by 12% to SEK 121m (108). The increase was attributable to robust customer activity that resulted in higher brokerage income and increased payment commissions.

Net gains/losses on financial transactions rose to SEK 29m (24).

Expenses fell by 1% to SEK -286m (-288). Exchange rate effects increased expenses by SEK 5m. Staff costs fell by 2%, and the average number of employees fell by 1%.

Loan losses rose to SEK -66m (-4). The loan loss ratio was 0.27% (0.02).

Handelsbanken Finland

Handelsbanken Finland consists of the branch operations in Finland, which are organised as a regional bank, as well as Handelsbanken Finans's and Stadshypotek's operations in Finland. At Handelsbanken, the branches are the base of all operations, with responsibility for all customers of the Bank. The regional bank offers a full range of banking services at 45 branches throughout Finland. Handelsbanken Finans offers finance company services and works through the Bank's branches.

JANUARY – JUNE 2017 COMPARED WITH JANUARY – JUNE 2016

Financial performance

Operating profit decreased by 1% to SEK 402m (408). Exchange rate effects increased profit by SEK 12m. The return on allocated capital rose slightly to 12.9% (12.7).

Income fell by 2%. Net interest income declined by 5% to SEK 583m (612). Reduced margins on lending had a negative impact of SEK -53m on net interest income. At the same time, higher lending volumes had a positive impact of SEK 8m. Government fees to the Resolution Fund and the deposit guarantee reduced net interest income by SEK -53m (-27). Exchange rate movements increased net interest income by SEK 19m.

Net fee and commission income rose by 20% to SEK 234m (195), due to higher payment commissions and rising commissions on deposits and lending. The savings business also developed favourably.

Net gains/losses on financial transactions decreased to SEK 27m (58), chiefly because the period of comparison included one-off income related to the sale of Visa Europe.

Total expenses rose by 3% to SEK -440m (-429). Adjusted for movements in exchange rates, expenses fell 1%. Staff costs increased by 5%, equivalent to an increase of almost 3% expressed in local currency. The total of other expenses and internal costs for services bought and sold were largely unchanged. The average number of employees totalled 493 (492).

Loan losses were SEK -12m (-34), and the loan loss ratio decreased to 0.02% (0.06).

Business development

The average volume of deposits from households was 16% more than in the corresponding period of the preceding year, while lending to households grew by 2%.

The average volume of corporate deposits climbed by 39%, while corporate lending grew by 3% compared with the corresponding period in the preceding year.

Q2 2017 COMPARED WITH Q1 2017

Operating profit decreased by 11% to SEK 189m (213), chiefly due to higher loan losses. Expressed in local currency, profit before loan losses decreased by 4%.

Net interest income was largely unchanged at SEK 291m (292). Adjusted for exchange rate effects and fewer days in the comparison quarter, net interest income fell by -3%.

Net fee and commission income grew by 7% to SEK 121m (113), due to higher payment commissions.

Net gains/losses on financial transactions were largely unchanged at SEK 13m (14).

Expenses increased by 7% to SEK -227m (-213). Adjusted for exchange rate movements, expenses expressed in local currency increased by 4%.

Loan losses were SEK -15m, compared to net recoveries of SEK 3m in the preceding quarter. The loan loss ratio was 0.05% (-0.01).

Handelsbanken Norway

Handelsbanken Norway consists of the branch operations in Norway, which are organised as a regional bank, as well as Stadshypotek's operations in Norway. At Handelsbanken, the branches are the base of all operations, with responsibility for all customers of the Bank. The regional bank offers a full range of banking services at 49 branches throughout Norway.

JANUARY – JUNE 2017 COMPARED WITH JANUARY – JUNE 2016

Financial performance

Operating profit increased by 30% to SEK 1,451m (1,120). It was affected by a non-recurring item in the first quarter which reduced staff costs by SEK 206m, as a result of the transition to a defined contribution pension plan in the Norwegian operations. Lower loan losses and exchange rate movements also had a positive impact on profit. The period of comparison included non-recurring items resulting from the sale of Visa Europe. Adjusted for the aforementioned items, profit before loan losses improved by 6% expressed in local currency.

Return on allocated capital was 14.4% (13.8).

Adjusted for exchange rate effects, income rose by 3%. Net interest income increased by SEK 217m, or 14%, to SEK 1,783m (1,566), of which SEK 88m was attributable to exchange rate movements. Lending margins rose by SEK 43m, while increased lending volumes had a positive effect of SEK 32m on net interest income. Improved deposit margins and higher deposits had a positive effect of SEK 25m on net interest income. The fees for the Swedish Resolution Fund and the deposit guarantee reduced net interest income by SEK -97m (-53).

Net fee and commission income increased by 17% to SEK 205m (175). Adjusted for exchange rate movements, net fee and commission income rose by 11%, chiefly due to higher fund management commissions.

Net gains/losses on financial transactions decreased by 32% to SEK 46m (68). The decrease was chiefly attributable to capital gains in the period of comparison related to the sale of Visa Europe.

Adjusted for the aforementioned transition to a defined contribution pension plan, staff costs rose by SEK 62m, or 19%, of which SEK 20m was attributable to exchange rate effects. The new financial sector tax in Norway – a 5% charge payable on wage costs – had an impact of SEK -17m on staff costs. Adjusted for these effects, staff costs increased by 8% compared to the corresponding period in the preceding year.

Loan losses fell to SEK -102m (-167), and the loan loss ratio fell to 0.08% (0.16).

Business development

Business volumes continued to grow during the first six months. The average volume of deposits from households climbed by 4% compared to the corresponding period in the preceding year, while lending to households grew by 4%. The average volume of corporate lending increased by 4%, while corporate deposits grew by 15%.

In total, the average volume of lending rose by 4% to NOK 235.5bn (225.8), while total deposits rose by 12% to NOK 68.5bn (61.4).

Handelsbanken has 49 branches (50) in Norway.

Q2 2017 COMPARED WITH Q1 2017

Operating profit decreased by SEK 215m to SEK 618m (833), of which SEK 206m was attributable to the non-recurring item in the preceding quarter that resulted from the transition to a defined contribution pension plan. Exchange rate effects had a negative impact of SEK 17m on operating profit. Adjusted for both these effects, operating profit rose by just over 1%.

Net interest income rose by 1%, or SEK 13m, to SEK 898m (885). Exchange rate movements had a negative impact of SEK -19m, while fewer days in the preceding quarter had a positive impact of SEK 8m on net interest income during the second quarter. Higher lending margins contributed SEK 20m, and rising lending volumes SEK 9m. Net interest on deposits declined by SEK -9m, chiefly due to lower deposit margins.

Net fee and commission income was largely unchanged at SEK 102m (103).

Net gains/losses on financial transactions decreased to SEK 19m (27), chiefly as a result of weaker profits in the foreign exchange business.

Expenses totalled SEK -351m (-140). Adjusted for the non-recurring item that reduced staff costs for the preceding quarter by SEK 206m and for exchange rate effects of SEK 3m, expenses increased by 2%.

Loan losses increased to SEK -56m (-46), and the loan loss ratio was 0.09% (0.08).

Handelsbanken the Netherlands

Handelsbanken the Netherlands consists of the branch operations in the Netherlands, which are organised as a regional bank, as well as asset management operations in Optimix Vermogensbeheer. The regional bank offers banking services at 27 branches throughout the Netherlands.

JANUARY – JUNE 2017 COMPARED WITH JANUARY – JUNE 2016

Financial performance

Operating profit improved by 92% to SEK 102m (53), chiefly due to continuing growth in business volumes. Income rose by 60%, while expenses increased by 48%. Adjusted for exchange rate movements, operating profit improved by 83% expressed in local currency.

Return on allocated capital was 12.2% (9.2).

Net interest income increased by 33% to SEK 260m (195). Increased lending volumes contributed SEK 60m, while lower lending margins reduced net interest income by SEK -7m. Higher deposit volumes and improved deposit margins increased net interest income by SEK 4m.

Net fee and commission income increased to SEK 65m (11), as a result of the acquisition of the Optimix asset management company, which has been a part of Handelsbanken the Netherlands since 1 September 2016 and contributed SEK 56m.

Expenses rose by 48% to SEK -230m (-155), as a result of the continuing expansion, including the acquisition of the Optimix asset management company. The C/I ratio improved to 68.9% (74.2), and the average number of employees increased by 44% to 266 (185).

Loan losses were SEK 0m (1), and the loan loss ratio was 0.00% (-0.01).

Business development

The average volume of lending to households grew by 41% to EUR 1,836m (1,302), while deposits from households increased by 47% to EUR 81m (55). Corporate lending climbed 28% to EUR 1,706m (1,335). The average volume of corporate deposits rose by 76% to EUR 748m (424). Business volumes with small and medium-sized companies continued to grow.

In May, the Bank opened a branch in Alkmaar, bringing the total of Handelsbanken branches in the Netherlands to 27.

The Optimix asset management company was acquired on 1 September 2016. Assets under management totalled EUR 2.1bn at 30 June 2017, including the company's own mutual funds.

Q2 2017 COMPARED WITH Q1 2017

Operating profit increased by 8% to SEK 53m (49), of which SEK 1m was due to exchange rate movements.

Income grew by 7% to SEK 172m (160). Net interest income rose by 8% to SEK 135m (125).

Net fee and commission income increased by 3% to SEK 33m (32).

Expenses rose by SEK 12m, or 11%, to SEK -121m (-109); this was attributable to a SEK 7m increase in staff costs. The average number of employees grew by 6% to 274 (259).

Loan losses consisted of net recoveries and equalled SEK 2m (-2). The loan loss ratio was -0.02% (0.02).

Handelsbanken Capital Markets

Handelsbanken Capital Markets consists of Markets & Asset Management, Pension & Life, Handelsbanken International and Business Support. It has employees in 21 countries.

Markets & Asset Management offers a full range of products and services linked to risk management, securities, derivatives, mutual funds, research, debt capital markets and corporate finance, as well as co-ordinating the Bank's offering in the savings area.

Pension & Life comprises the Handelsbanken Liv subsidiary and offers pension solutions and other insurance solutions for private and corporate customers.

Handelsbanken International encompasses the Bank's branches and representative offices in 16 countries outside the Bank's home markets, as well as the units for Financial Institutions (global banking collaborations) and Transaction Banking (cash management, trade finance and export finance).

A large part of the income from Handelsbanken Capital Markets' products, including asset management commissions and income from currency conversions, is booked directly in branch operations at the branch with customer responsibility, and is thus not included in the income statement below.

JANUARY – JUNE 2017 COMPARED WITH JANUARY – JUNE 2016

Financial performance

Operating profit increased by 20% to SEK 942m (782). Total income grew by 5% to SEK 2,603m (2,476). Net fee and commission income grew by 8% to SEK 1,641m (1,513), driven mainly by higher mutual fund commissions. Net gains/losses on financial transactions went up by 8% to SEK 627m (578).

Total expenses decreased by 6% to SEK -1,597m (-1,697). The decrease was mainly attributable to staff costs falling by 6% to SEK -1,132m (-1,207), partly as a result of a 4% fall in the average number of employees to 1,635 (1,700).

Loan losses amounted to SEK -64m (3), corresponding to a loan loss ratio of 0.28% (-0.01).

Business development

Asset management operations continued to show a strong performance. In Sweden, net savings in Handelsbanken's mutual funds during the first six months of 2017 amounted to SEK 10.8bn, corresponding to a market share of 18.1%. Net savings in the Bank's mutual funds elsewhere in the Nordic region showed strong growth, increasing to SEK 4.4bn. Total net savings in the Group's funds amounted to SEK 15bn. Xact Kapitalförvaltning remained the largest player as regards Nordic exchange-traded funds.

The total fund volume, including exchange-traded funds, increased by 10% from the beginning of the year to SEK 468bn (425). Total assets under management in the Group rose during the same period by 7% to SEK 582bn (542).

Morningstar, a mutual fund research company, ranked Handelsbanken's mutual funds highest of the Nordic banks when it evaluated the 30 largest fund managers on the Swedish market. In addition, during the year, Lipper Fund Awards ranked four of the Bank's funds as the best in their respective categories.

The Pension & Life business area showed positive performance, with its income increasing and expenses decreasing. The occupational pension area showed particularly strong performance, with a 30% increase in

premiums paid in. The net flow during the first six months was SEK 3.1bn. In the first half of 2017, the volume of assets under management by Handelsbanken Liv grew to SEK 133bn (122).

As of 1 July 2017, all the Bank's global index funds track new, more sustainable indexes. This change of indexes means, among other things, that a large number of companies are excluded as investment alternatives for mutual funds.

Corporate Finance business showed a strong performance, and according to Mergermarket, the Bank was No.1 for M&A transactions involving Swedish companies.

The Bank's business volumes in terms of capital market funding also showed strong performance. The Bank arranged a total of 69 bond issues during the quarter for a value of EUR 8.3bn.

The average volume of lending in Handelsbanken International, i.e. the operations outside the Bank's home markets, totalled SEK 33.7bn (35.1). During the same period, deposits rose by 11% to SEK 49.0bn (44.2).

Q2 2017 COMPARED WITH Q1 2017

Operating profit fell by 12% to SEK 441m (501), due to lower income and higher expenses than in the preceding quarter. Total income fell by 6% to SEK 1,261m (1,342), as a result of higher net gains/losses on financial transactions during the quarter of comparison.

During the first quarter, net profit was positively affected by the market turbulence around the turn of the year, as the negative effects arising in Q4 2016 were reversed in early 2017 when the market returned to normal.

Total expenses rose by 8% to SEK -831m (-766), chiefly due to higher staff costs. Staff costs rose by 8%, mainly due to a non-recurring item in the preceding quarter that reduced staff costs in Norway due to the transition to a defined contribution pension plan. The average number of employees totalled 1,627 (1,643).

Loan losses consisted of net recoveries, and totalled SEK 11m (-75), corresponding to a loan loss ratio of -0.10% (0.67).

Other units not reported in the business segments

Reported below are the income and expenses related to Treasury and the central staff functions, and also provisions to the Oktogonen profit-sharing foundation. Capital gains/losses, dividends, and other income and expenses that are not attributable to any of the segments are also reported here.

JANUARY – JUNE 2017 COMPARED WITH JANUARY – JUNE 2016

Operating profit in other units not reported in the business segments amounted to SEK -352m (981). The provision for the Oktogonen profit-sharing foundation was resumed in the first quarter, and for the first six months it amounted to SEK 486m (-). Capital gains from the sale of shares totalling SEK 812m were included in the comparison period. The average number of employees rose to 1,966 (1,821), chiefly due to increased activity in IT development.

Q2 2017 COMPARED WITH Q1 2017

Operating profit declined to SEK -230m (-122), chiefly due to lower net gains/losses on financial transactions at Treasury, where the market turbulence around the turn of the year had a positive effect on the comparison period. The average number of employees totalled 2,003 (1,930).

Earnings per share after dilution are calculated by taking into account the effects of a conversion of outstanding convertible debt instruments. This means that the average number of shares is adjusted by potential shares and that the period's earnings are adjusted by the period's interest expense on the outstanding convertible debt instruments after tax.

In the first half of 2017, other comprehensive income totalled SEK 71m (2,597) after tax. In individual periods, the results of all items within other comprehensive income may fluctuate due to changes in the discount rate, exchange rates and inflation.

At year-end, net pensions, net of pension obligations and plan assets, were a liability. At the end of the second quarter, net pensions were an asset. During the January–June period, other comprehensive income increased by SEK 2,597m (-856) after tax, related to defined benefit pension plans. The main reason for the change during the period is that the plan assets have increased in value since 31 December 2016. This has been offset to a certain extent by the pension obligations increasing as a result of a decrease in the discount rate for the Swedish pension obligations, to 2.30% from 2.40%, since 31 December 2016.

Most of the Group's long-term funding is hedged using derivatives, where all cash flows are matched until maturity. Cash flow hedging manages the risk of variations in the cash flows related to changes in variable interest rates and currencies on lending and funding. The underlying funding and the asset which is being funded are measured at amortised cost, while the derivatives which are hedging these

items are measured at market value. The impact on profit/loss of the market valuation is reported under cash flow hedges. Over time, these values become zero at maturity for each individual hedge, but lead to volatility in other comprehensive income during their term. Changes in the value of hedge derivatives in cash flow hedges had an effect on other comprehensive income of SEK -580m (3,875) after tax. The value changes derived partly from exchange rate movements, but above all from increasing discount rates in foreign currency. During the period, SEK -4m (24) was reclassified to the income statement as a result of ineffectiveness.

Unrealised changes in the value of financial assets classified as available for sale had an effect on other comprehensive income of SEK 54m (-515) after tax during the year. The preceding year's negative result was mainly due to gains from selling shares having been recognised in the income statement.

Unrealised exchange rate effects related to the restatement of foreign branches and subsidiaries to the Group's presentation currency and the effect of hedging of net investments in foreign operations have affected other comprehensive income by SEK -2,000m (93) after tax during the year.

NOTES

Note 1 Accounting policies

Accounting policies

This interim report has been prepared in accordance with IAS 34 Interim Financial Reporting. The consolidated accounts have been prepared in accordance with international financial reporting standards (IFRS) and interpretations of these standards as adopted by the EU. The accounting policies also follow the Swedish Annual Accounts Act for Credit Institutions and Securities Companies (1995:1559), and the regulations and general guidelines issued by the Swedish Financial Supervisory Authority, FFFS 2008:25 Annual reports in credit institutions and securities companies. RFR 1 Supplementary accounting rules for groups as well as statements from the Swedish Financial Reporting Board are also applied in the consolidated accounts.

The interim report for the parent company has been prepared in accordance with the Swedish Annual Accounts Act for Credit Institutions and Securities Companies, and the regulations and general guidelines issued by the Swedish Financial Supervisory Authority, FFFS 2008:25 Annual reports in credit institutions and securities companies. The parent company also applies RFR 2 Accounting for legal entities, as well as statements issued by the Swedish Financial Reporting Board.

The interim report of the Group and the parent company has been prepared in accordance with the same accounting policies and calculation methods that were applied in the annual report for 2016.

Future regulatory changes

IFRS 9 Financial Instruments, which is to replace IAS 39 Financial Instruments: Recognition and Measurement, has been adopted for application by the EU. The standard will be applied as of the 2018 financial year. The standard encompasses three areas: classification and measurement, impairment, and general hedge accounting. The forthcoming regulations on impairment are based on expected loan

losses, and not on incurred loan losses as in the current IAS 39 regulations. The provisions will also be based on a probability-weighted outcome, unlike the current IAS 39 where the provision is based on the most expected outcome. All in all, in the transition to IFRS 9, this may entail higher provisions for loan losses. This regulatory change may lead to an adjustment of equity. No final decision has yet been taken as to how these effects will be dealt with as regards the relationship between the expected loan loss provisions in accounting terms and the expected loan losses in capital adequacy terms. The Bank is currently analysing the financial effects of the new standard in more detail.

IFRS 15 Revenue from Contracts with Customers has also been adopted for application in the EU. The standard will be applied as of the 2018 financial year. IFRS 15 introduces a five-step model to establish how and when revenue must be recognised. However, the standard does not apply to financial instruments, insurance contracts or leases. IFRS 15 also contains increased disclosure requirements relating to revenue. The Bank's assessment is that the new standard will not have any material impact on Handelsbanken's financial reports, capital adequacy or large exposures.

IFRS 16 Leases has also been published by the IASB. Assuming that IFRS 16 is adopted by the EU, and the date of implementation proposed by the IASB is not changed, this standard will be applied as of the 2019 financial year. The main change due to the new standard is that all lease contracts (with the exception of short-term and minor lease contracts) must be recognised as an asset (right-of-use asset) and as a liability in the lessee's balance sheet. The lease payment must be reported as depreciation and interest expense. There are also increased disclosure requirements. For lessors, the requirements are largely unchanged. The Bank is analysing the financial effects of the new standard.

In addition, IFRS 17 Insurance contracts has been published by the IASB. Assuming that IFRS 17 is adopted by the EU, and the date of implementation proposed by the IASB is not changed, this standard will be applied as of the 2021 financial year. IFRS 17 will mean a

change in how insurance contracts are reported and measured. The Bank is analysing the financial effects of the new standard.

None of the other changes in the accounting regulations issued for application are expected to have any material impact on Handelsbanken's financial reports, capital adequacy, large exposures or other circumstances under the applicable operating rules.

Impaired loans

Impaired loans includes all loans in respect of which all contracted cash flows will probably not be fulfilled. The full amount of all loans which give rise to a specific provision is included in impaired loans, including amounts which are covered by collateral. This means that the impaired loans reserve ratio is stated without taking into account collateral received. Thus, this key figure may vary substantially between the quarters, even though the provisioning policies are unchanged.

SEK m	30 Jun 2017	31 Mar 2017	31 Dec 2016	30 Sep 2016	30 Jun 2016

Derivative contracts are presented gross in the table. Amounts set off on the balance sheet consist of the set-off market value of contracts for which the Bank has the legal right and intention to settle contractual cash flows net (including cleared contracts). These contracts are presented on a net basis on the balance sheet per counterparty and currency.

Net amount	7,288	-	7,288

Derivative instruments are set off on the balance sheet when the settlement of two or more derivatives reflects the Bank's anticipated cash flows. Repurchase agreements and reverse repurchase agreements with central counterparty clearing houses are set off on the balance sheet when this reflects the Bank's anticipated cash flows in the settlement of two or more agreements. This occurs when the Bank has both a contractual right and intention to settle the agreed cash flows with a net amount. The remaining counterparty risk in derivatives is reduced through netting agreements if payments are suspended, i.e. netting positive values against negative values in all derivative transactions with the same counterparty in a bankruptcy situation. Handelsbanken's policy is to sign netting agreements with all bank counterparties. Netting agreements are supplemented with agreements for issuing collateral for the net exposure. The collateral used is mainly cash, but government securities are also used. Collateral for repurchase agreements and borrowing and lending of securities is normally in the form of cash or other securities.

The amount set off for derivative assets includes set-off cash collateral of SEK 2,438m (3,565), derived from the balance sheet item deposits and borrowing from the public. The amount set off for derivative liabilities includes set-off cash collateral of SEK 914m (2,367), derived from the balance sheet item loans to the public.

Valuation process

The risk control function checks that the Group's financial instruments are correctly valued. As far as is possible, the valuations are based on externally generated data.

Financial instruments for which price information is easily available, and which are representative of real and frequently occurring transactions, are valued at their current market price. The current bid price is used for financial assets and the current ask price is used for financial liabilities. For groups of financial instruments which are managed on the basis of the Bank's net exposure to market risk, the current market price is presumed to be the same as the price which would be received or paid if the net position were divested.

For financial instruments where there is no reliable information about market prices, fair value is established using valuation models. These models can, for example, be based on price comparisons, present value calculations or option valuation theory depending on the nature of the instrument.

Valuation hierarchy

In the tables, financial instruments at fair value have been categorised in terms of how the valuations have been carried out and the extent of market data used in the valuation. The categorisation is

shown as levels 1–3 in the tables. Financial instruments which are valued at the current market price are categorised as level 1. These financial instruments mainly comprise government instruments and other interest-bearing securities that are traded actively, listed shares and short-term positions in corresponding assets. Level 1 also includes the majority of shares in mutual funds and other assets which are related to unit-linked insurance contracts and similar agreements and the corresponding liabilities. Financial instruments which are valued using valuation models which substantially are based on market data are categorised as level 2. Level 2 mainly includes interest-bearing securities and interest- and currency-related derivatives. Financial instruments whose value to a material extent is affected by input data that cannot be verified using external market information are categorised as level 3.

The categorisation is based on the valuation method used on the balance sheet date. If the category for a specific instrument has changed since the previous balance sheet date (31 December 2016), the instrument has been moved between the levels in the table. During the January–June 2017 period, some of the volumes were moved between level 1 and level 2, as a result of a new assessment of market activity. On the assets side, equities worth SEK 68m were moved from level 2 to level 1. Derivatives with a value of SEK 5m

were moved from level 1 to level 2. On the liabilities side, derivatives with a value of SEK 30m were transferred from level 1 to level 2.

The holdings in level 3 mainly comprise unlisted shares and holdings in private equity funds. Holdings in private equity funds are valued using valuation models mainly based on a relative valuation of comparable listed companies in the same sector. The performance measurements used in the comparison are adjusted for factors which distort the comparison between the investment and the company used for comparison. Subsequently, the valuation is based on earnings multiples, e.g. P/E ratios. Most of these holdings represent investment assets in the Group's insurance operations. Value changes on the investment assets are included in the basis for calculating the yield split in the insurance operations and are therefore not reported directly in the income statement.

The Group's holdings of unlisted shares consist mainly of the Bank's participating interests in various types of jointly owned operations which are related to the Bank's business. For example, these may be participating interests in clearing organisations and infrastructure collaboration on Handelsbanken's home markets. In general, such holdings are valued at the Bank's share of the company's net asset value, or alternatively at the price of the last completed transaction. In all material respects, unlisted shares are classified as available for sale. Value changes for these holdings are thus reported in other comprehensive income.

Differences between the transaction price and the value produced using a valuation model

The models use input data in the form of market prices and other variables that are deemed to affect pricing. The models and input data which form the basis of the valuations are regularly validated to ensure that they are consistent with market practice and established financial theory. In cases where there are material positive differences between the value calculated with the help of a valuation model at initial recognition and the transaction price (day 1 gain/loss), the difference is distributed over the maturity period of the financial instrument. Such differences occur when the applied valuation model does not fully capture all the components which affect the value of the instrument.

As a consequence of the application of this principle, SEK 63m (76) has been amortised in net gains/losses on financial transactions during the January–June 2017 period. At the end of the period, non-recognised day 1 gains/losses amounted to SEK 601m; at the previous year-end, the corresponding figure was SEK 585m.

The Bank regularly conducts separate valuations of the total credit risk component (own credit risk as well as counterparty risk) in outstanding model-valued derivatives. Changes in fair value due to changed credit risk are recognised in profit/loss to the extent that the overall effect exceeds non-recognised day 1 gains/losses.

Note 18 Own funds and capital requirements in the consolidated situation

The requirements for the calculation of own funds and capital requirements are regulated in Regulation (EU) No 575/2013 (CRR) and Directive 2013/36/EU, which comprise the EU's implementation of the international Basel III regulations. All references to CRR in this interim report refer to these regulations in their entirety, regardless of legislative form (regulation, directive, executive decree or national implementation). Figures reported in this section refer to the minimum capital requirements under Pillar 1 and meet the requirements for publication of information relating to capital adequacy in CRR Part Eight, as well as in the Swedish Financial Supervisory Authority's regulation FFFS 2014:12.

* The foundation approach means the IRB Approach without own estimates of LGD and CCF. The advanced approach means the IRB Approach with own estimates of LGD and CCF.

The capital requirement for credit risk is calculated according to the standardised approach and the IRB Approach in accordance with CRR. There are two different IRB Approaches: the IRB Approach without own estimates of LGD and CCF, and the IRB Approach with own estimates of LGD and CCF.

In the IRB Approach without own estimates of LGD and CCF, the Bank uses its own method to determine the probability of the customer defaulting within one year (PD), while the other parameters are set out in CRR rules. In the IRB Approach with own estimates of LGD and CCF, the Bank uses its own methods to calculate the loss given default (LGD) and the exposure amount.

Handelsbanken uses the IRB Approach without own estimates of LGD and CCF for exposures to institutions and for certain product and collateral types for corporate exposures and, starting from Q2 2017, for sovereign exposures in the whole of the regional banking operations and in the following subsidiaries: Stadshypotek AB, Handelsbanken Finans AB, Ecster AB, Handelsbanken Finans (Shanghai) Financial Leasing Co. Ltd and Rahoitus Oy.

The IRB Approach with own estimates of LGD and CCF is applied to the majority of exposures to large corporates, medium-sized companies, property companies and housing co-operative associations in regional bank operations (excluding the Netherlands), Handelsbanken Capital Markets, Stadshypotek AB and

Handelsbanken Finans AB, Ecster AB, and retail exposures in Sweden, Norway, Finland and Denmark, as well as in the subsidiaries Stadshypotek AB, Handelsbanken Finans AB, Ecster AB, and Rahoitus Oy.

At the end of the quarter, the IRB Approach was applied to 81% of the total risk-weighted exposure amount for credit risk. For the remaining credit risk exposures, the capital requirement is calculated using the standardised approach.

Repos and securities loans for institutions are reported separately in the Credit risk exposures approved for the IRB Approach table, since they give rise to very low capital requirements, while the volumes vary considerably over time. The low capital requirement is due to the exposure being reported gross and being secured.

The total average risk weight for exposures approved for the IRB Approach decreased during the quarter, amounting to 12.8% (15.6). The reason why the average risk weight has decreased is that sovereign exposures began to be reported in accordance with the IRB Approach during the quarter, and these have an average risk weight of 1.7%.

Credit quality is good. Of Handelsbanken's corporate exposures, 97% were customers with a repayment capacity assessed as normal or better than normal, i.e. with a rating grade between 1 and 5 on the

Bank's ten-point risk rating scale. The IRB Approach is based on historical losses from both the financial crisis of recent years and the Swedish banking crisis in the early 1990s. These risk weights reflect the fact that Handelsbanken has reported low loan losses over a long period. The risk measurements applied contain margins of conservatism to ensure that the risk is not underestimated.

The level of the risk weight in the corporate exposures reflects the portfolio composition and how various loans are classified into different exposure classes.

The capital requirement for equity exposures in the IRB Approach is calculated according to a simplified risk weight method.

Capital requirement market risks

<i>of which non-delta risk</i>	0	0	0	0	0
Settlement risk	0	-	0	0	0
Total capital requirement for market risks	800	936	873	817	711

The capital requirement for market risks is calculated for the Bank's consolidated situation. The capital requirement for interest rate risks and equity price risks is, however, only calculated for positions in the trading book. When calculating the capital requirement for market risks, the standardised approach is applied.

Capital requirement operational risk

Handelsbanken uses the standardised approach, to calculate the capital requirement for operational risk. According to the standardised approach, the capital requirement is calculated by multiplying a factor specified in the regulations by the average operating income during the last three years of operation. Different factors are applied in different business segments.

Leverage ratio

The provisions of CRR include a reporting requirement regarding a non-risk-based leverage ratio. The measurement is to undergo evaluation and no decision to make it mandatory has yet been taken.

Information in this section relates to Handelsbanken's material risks and capital requirements at the time that this interim report is published. A full description of the Bank's risk and capital management can be found in Handelsbanken's Annual Report and in Handelsbanken's Risk and Capital Management – Information according to Pillar 3.

Note 19 Risk and liquidity

Figures reported in this section meet the requirements for publication of information relating to risk and capital management in CRR Part Eight.

Risk and uncertainty factors

Handelsbanken provides credit through its branch operations, exercising a low risk tolerance. The credit process is based on the conviction that a decentralised organisation with local presence ensures high quality in credit decisions. Handelsbanken's exposure to market risks is also low. Essentially, market risks in the banking operations are only taken as part of meeting customers' investment and risk management needs. During the past few years, the Bank has worked actively to reduce the market risks on its balance sheet. One result of this is that a much smaller part of the Bank's earnings comes from net gains/losses on financial transactions.

The situation with regard to regulatory developments continues to evolve rapidly. The UK's decision to leave the EU means there is uncertainty regarding the regulations that will apply to the Bank's British operations. The Bank is preparing for the implementation of Brexit in close consultation with public authorities in both Sweden and the UK. The Bank's low tolerance of risk, sound capitalisation and strong liquidity situation mean that Handelsbanken is also well-equipped to operate under substantially more difficult market conditions than those experienced during the last few years. The Bank's liquidity position is described in more detail below under the heading Liquidity and funding.

Liquidity and funding

Handelsbanken has a strong liquidity position. For many years, the Bank has actively worked with liquidity measures and has adopted a conservative approach. Part of this work has involved centralising liquidity management with the purpose of strengthening control of the liquidity risks and of guaranteeing and optimising the Bank's funding in all scenarios.

For many years, the Bank has worked on extending the maturities of its funding by increasing bond issues and ensuring that liquidity risks are included in internal pricing. Handelsbanken's funding programme covers the maturities in all currencies that the Bank needs to fund its lending and enables the Bank to issue in all currencies of relevance to the Bank.

The table shows holdings of bonds and other interest-bearing securities in the time intervals in which they can be converted to liquidity if they are pledged as collateral or sold. This means that the table does not reflect the actual maturities for the securities included.

In "Other", assets and liabilities are reported as maturing in the time intervals that correspond to the contractual maturity dates, taking into account contractual amortisation plans.

Sight deposits are reported under "Unspecified maturity". "Other" includes market values in derivative transactions.

For maturity tables in SEK, EUR and USD, please see the Fact Book which is available at handelsbanken.se/ireng.

Liquidity coverage ratio (LCR)

	30 Jun 2017	31 Mar 2017	31 Dec 2016	30 Sep 2016	30 Jun 2016
Liquidity coverage ratio (LCR), %					
EUR	132	178	136	178	181
USD	177	236	322	164	121
Total*	120	148	126	162	139

* In accordance with the Swedish Financial Supervisory Authority's directive FFFS 2012:6.

	30 Jun 2017	31 Mar 2017	31 Dec 2016	30 Sep 2016	30 Jun 2016
Liquidity coverage ratio (LCR) - decomposition, SEK m					
Liquid assets	650,117	606,507	290,058	416,189	433,824
Liquid assets level 1	613,808	565,626	251,189	375,318	394,887
Liquid assets level 2	36,309	40,881	38,869	40,871	38,937
Cash outflows	593,185	489,050	359,659	514,967	697,349
Deposits from customers	242,608	220,330	173,496	191,610	169,582
Market funding	308,352	228,791	151,735	284,083	486,320
Other cash flows	42,225	39,929	34,428	39,274	41,447
Cash inflows	50,132	79,554	129,176	258,526	384,619
Inflows from maturing lending to non-financial customers	14,486	22,186	21,146	18,618	26,985
Other cash inflows	35,646	57,368	108,030	239,908	357,634

The components are defined in accordance with the Swedish Financial Supervisory Authority's regulations and requirements for the liquidity coverage ratio and reporting of liquid assets and cash flows (FFFS 2012:6). Liquid assets level 1 corresponds to Chapter 3, Section 6. Liquid assets level 2 corresponds to Chapter 3, Section 7. Deposits from customers corresponds to Chapter 4, Sections 4-9. Market funding corresponds to Chapter 4, Sections 10-13. Other cash flows corresponds to Chapter 4, Sections 14-25. Loans to non-financial customers corresponds to Chapter 5, Section 4. Other cash inflows corresponds to Chapter 5, Sections 6-12.

As of 1 October 2015, due to the European Commission's delegated act, there is a European minimum requirement for banks' liquidity in the form of a short-term liquidity buffer: liquidity coverage ratio (LCR). The minimum requirement in 2017 is 80%, and this will be raised to 100% by 2018, when the delegated act will be fully implemented. However, according to the delegated act, the LCR is based on the less stringent LCR proposed by the Basel Committee in 2013 and certain EU-specific changes, for example, that the liquidity reserve may include a higher proportion of covered bonds.

By making requirements for a short-term liquidity buffer in FFFS 2012:6 as early as 2013, Sweden has moved more quickly than required by the EU. The requirement amounts to 100%, but the definition of what comprises a short-term liquidity buffer differs from what applies at EU level. The LCR which the Swedish Financial Supervisory Authority has implemented is a stricter LCR measurement, mainly in terms of deposit outflow assumptions and the composition of the liquidity portfolio. The minimum requirement for the net stable funding ratio is expected to be introduced in the EU in 2018 at the earliest.

At the end of the second quarter, Handelsbanken's LCR according to the Swedish Financial Supervisory Authority's regulation FFFS 2012:6 was 120%, which shows that the Bank has high resistance to short-term disruptions in the funding market. This also applies in USD and EUR. The LCR, as an average of daily observations according to

the same regulation, was 132% during the first six months. The Bank's LCR, calculated according to the European Commission's delegated act, was 136%.

Stress test with liquidity-creating measures

The Bank's liquidity position is regularly subjected to stress tests. In these tests, the Bank's cash flows are stressed, based on certain defined assumptions. For example, in the stress test aimed at demonstrating resistance to more long-term market disruptions, it is assumed that the Bank is unable to obtain funding in the financial markets at the same time as it experiences a gradual disappearance of 10% of deposits from households and companies over the first month. It is further assumed that the Bank continues to conduct its core activities, i.e. loans to households and companies, and that committed loan offers and other credit facilities are partly utilised by customers. Account is also taken of the fact that holdings with central banks are utilised and that the Group Treasury liquidity portfolio can provide immediate additional liquidity. In addition, liquidity-creating measures – for example, unutilised facilities to issue covered bonds – are used in order to gradually provide liquidity to the Bank. The result of the stress test shows that the liquidity reserves, even in a stressed scenario, cover the Bank's liquidity requirement for over three years, even if access to new funding in the markets were to disappear.

Non-encumbered assets, NEA

Comment on results for parent company, January – June 2017 compared with January – June 2016

The parent company's accounts cover parts of the operations that, in organisational terms, are included in branch operations within and outside Sweden, Capital Markets, and central departments and staff functions. Although most of Handelsbanken's business comes from the local branches and is co-ordinated by them, in legal terms a sizeable part of business volumes are outside the parent company in wholly-owned subsidiaries – particularly in the Stadshypotek AB mortgage institution. Thus, the performance of the parent company is not equivalent to the performance of business operations in the Group as a whole.

The parent company's operating profit decreased by 47% to SEK 4,628m (8,770), chiefly owing to reduced dividends, as well as lower net gains/losses on financial transactions. Profit for the period decreased by 54% to SEK 3,711m (8,045). Net interest income rose by 10% to SEK 7,976m (7,233), and net fee and commission income increased by 4% to SEK 3,351m (3,228). Since the start of the year, the parent company's equity has decreased to SEK 109,358m (116,642).

Auditors' review report

To the Board of Svenska Handelsbanken AB (publ), corporate identity number 502007-7862

INTRODUCTION

We have reviewed the interim report for Svenska Handelsbanken AB (publ) as at 30 June 2017 and for the six-month period then ended. The Board of Directors and the Chief Executive are responsible for the preparation and presentation of this interim report in accordance with IAS 34 and the Swedish Annual Accounts Act for Credit Institutions and Securities Companies. Our responsibility is to express a conclusion on this interim report based on our review.

SCOPE OF THE REVIEW

We conducted our review in accordance with the International Standard on Review Engagements ISRE 2410 *Review of Interim Financial Statements Performed by the Independent Auditor of the Entity*. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope

than an audit conducted in accordance with International Standards on Auditing and other generally accepted auditing standards in Sweden. The procedures performed in a review do not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit.

Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not prepared, in all material respects, in accordance with IAS 34 and the Swedish Annual Accounts Act for Credit Institutions and Securities Companies regarding the Group, and in accordance with the Swedish Annual Accounts Act for Credit Institutions and Securities Companies regarding the parent company.

Stockholm, 18 July 2017
